AN AGED RESCUEE.

Eighty-year-old St. John Man Saves Small Boy From Drowning.

St. John, N. B.—Captain Patrick Gallagher, more than 80 years old, was the hero in the rescue of a small boy at Indiantown Ferry, Slip here, Wednesday afternoon. While standing near the wharf Captain Gallagher saw a splash and springing forward saw a young boy, aged 4, struggling in the water. The veteran captain lost little time in hauling the youngster out of the harbor, thus saving the boy's life.

ASK RURAL CREDITS.

Government Urged to Bring Down System at an Early Date.

Ottawa—A resolution urging the government to bring down legislation at the present session of parliament for the establishment of an adequate rural credit system was passed by the Banking and Commerce Committee of the House of Commons Tuesday by a large majority.

INVESTORS OF U. S. FAVOR DOMINION.

Canada And Nfld. Take Second Place. Total American Investments in Two Countries is \$2,160,000,000.

Ottawa—From figures received here from an American official source, Canada and Newfoundland are shown to be second in the list of countries in which the largest amount of United States investments are held. Latin America comes first with a total amount of American investments of four billion and forty million dollars. The total amount of American investments in Canada and Newfoundland is two billion four hundred million in industrial securities and direct investment.

In Europe Americans have invested a total of one billion nine hundred millions, while in Oceania the investments reach a total of six hundred and ninety million dollars. American investments outside the United States reach a total of nine billion and ninety million. These exclude debts owed to the United States Government, and they increased by about one billion dollars in 1924.

MA' FERGUSON ON WOMANLINESS.

Houston, Texas.—If the woman in business "is going to ape men," let her stay at home and let the men keep right on as they have been doing, as "there is no excuse for the woman in business unless she takes her womanly ways with her," declared Gov. Miriam A. Ferguson last night in welcoming ladies of the Advertising Clubs of the World to Texas for their annual convention.

It is an old thing to talk of woman's intuition and her keen grasp on the little things of life, said Texas' first woman executive, "yet wherever you find a successful woman, you find a woman who has taken her womanly ways along with her into her business world, a woman who has solved her problems with her heart as well as her head, and a woman who has not allowed maudlin sentiment to overbalance her belief in kindness and justice and fair play."

"This does not mean that I condone with the mannish women," Gov. Ferguson continued, "if a woman is going to be mannish, let her stay away from me. God made us women and gave us rare opportunities as women; let the men profit by their own peculiar little mannerisms. There is no excuse for the woman in business unless she is going to stay a woman there. If she is going to ape men, let her stay at home. We made our plea to get into the business world that we might better it. If we are going to do just as the men have done, we certainly cannot do better than they have done."

Gov. Ferguson said she was speaking from the experience, as it was no easy thing to be a woman governor, walking where men have walked alone, and sitting where men alone have sat.

"I know something of the struggles you have had and something of the obstacles you have overcome, made more difficult because you are women," the speaker declared. "But this is no time to discuss worries in our past; the hard work, once accomplished becomes a background. Today is the time when we may look well at the problems that lie before the business women of all the world."

"I think that women have a greater problem than have men. We are new to our work and we face the criticisms of those well-meaning masculine souls who gave us this new employment with just a little more fear and trembling. They like us, do the men; they will all stand right up in meeting and declare that the world cannot get along without us, but they are still a little worried that in some of the new work we seem to be able to get along without them!"

"We really cannot blame the men; they have had their own way so long and we have cheered them so resoundingly that we have only ourselves to blame. And after all, they are a side issue of our future. They have given us our chance; now it is time for us to prove that all our talk about that chance was not just talk. I heartily commend the woman who has the fighting heart in her, who will leave the peaceful, quiet ways of her grandmothers to battle against unknown odds, and who has the courage to keep on fighting until she succeeds."

A LUNENBURG TRAGEDY.

Charles Acorn Drowned in His Automobile in the Harbor.

A tragedy developed in Lunenburg Wednesday morning when an automobile was discovered in the harbor near the railway wharf in which was the dead body of Charles Acorn, a young man who had been a bank employee, but lately in the insurance business.

It is supposed the unfortunate man drove off the wharf on Monday night.

VALLEY PHYSICIANS MEET AT MIDDLETON.

Dr. DuVernet is New President of Society—Prominent Medical Men Deliver Addresses.

Middleton—The 18th annual session of the Valley Medical Society met here Tuesday afternoon and evening meetings. At the first session Dr. F. S. Messenger, president, was in the chair. After routine business he called on Dr. H. K. MacDonald of Halifax, who gave an interesting paper on "Some Post Operative Complications." Dr. L. R. Morse, of Lawrenceville, followed with "When not to diagnose Appendicitis," as the subject of his paper. These papers were of special interest and instructive to medical men.

Officers for the society were elected for the ensuing year as follows: President—Dr. Du Vernet, Digby. 1st Vice-President—W. C. Archibald, Lawrenceville. 2nd Vice-President—G. K. Smith, Windsor. Secretary Treasurer—Dr. C. E. Avery DeWitt. Executive—Dr. M. C. Elliott, Dr. F. S. Messenger, Dr. W. F. Reed.

EVENING SESSION. The evening session of the society was opened to the public, and a large

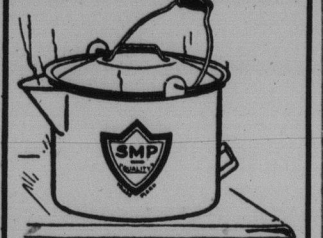

number of townspeople attended.

Mayor Sponagle gave an address of welcome, responded to by Dr. Moore, of Kentville. Dr. Messenger then gave the presidential address, speaking of several matters pertaining to Public Health. He then called up Dr. P. S. Campbell of Halifax to give the address of the evening.

Dr. Campbell spoke on "Some Phases of Tuberculosis." This disease he said, was the greater problem which confronts health workers. Last year in the province there were over 600 deaths, while during the past ten years there have been 8000. The mortality however, is being reduced by concentrated, systematized.

The remedy, the speaker stated, was in public health control, the establishment of hospital and sanatorium beds, preventive sanitary conditions at home and school should be taught. The young should be kept from infection by being properly fed, clad and otherwise looked after. Education in proper care is an important factor, and treatment in early stages and also later should be known. The hope was in a trained public, and with the medical men.

After short addresses by several local speakers the interesting session was brought to a close by the National Anthem.

The Right Way to Boil Potatoes

Put the potatoes in an SMP Enamelled Potato Pot. Cover with water. Add salt to taste. Boil until soft. When finished, drain off all the boiling water through the strainer spout. No danger of steam scalding the hands because the handle securely locks the cover on. If your family uses potatoes, you require one of these.

Mothers Praise Baby's Own Tablets

Mrs. L. M. Brown, Walton, N. S., says:—"I cannot recommend Baby's Own Tablets too highly. I have found them invaluable for the ailments of little ones." Mrs. Brown's testimony is the same as that of thousands of other mothers who have used the Tablets. To use them once is a sure guarantee that they will always be kept in the home as long as there are babies or young children to be cared for. The Tablets are a laxative—mild but thorough in action—which never fail to regulate the stomach and bowels; relieve constipation and indigestion; break up colds and simple fevers and make the dreaded teething period easy. In fact they banish all the minor ills from which little ones suffer. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

MRS. BOLAND RECEIVES.

Bent, serving refreshments, Mrs. (Dr) Hall presided at the tea table, assisted by the Misses Dorothy Whitman and Ida Hall. The guests were admitted by Miss Reta Hall.

ACCIDENT VICTIM WAS HER HUSBAND!

War Romance Revealed in Claim Made by Mrs. John Chapman, of Glace Bay.

Vancouver, B. C.—A war romance was revealed in the claim made here by Mrs. John Chapman, of Glace Bay, that John Chapman, lessee of two Vancouver apartments, who was killed in a motor accident near here Thursday was her husband.

In the dual fatality, Chapman and a woman who has been well known here as his wife met instant death when their car overturned. Mrs. Chapman of Glace Bay, claims that Chapman enlisted there, took his discharge at Halifax, writing her from there that he was not returning home and disappeared. It is said that the woman known here as Mrs. Chapman served with the W. A. A. C. in England and the funeral of the popular couple will be attended by South African, Indian and Great War Veterans.

Curiously, the death of Mr. Chapman took place while Mrs. May Landry, of Portland, Oregon, sister of Mrs. Chapman, of Glace Bay, was here on a visit to her daughter, Miss E. Landry. Mrs. Landry thinks the woman who was killed with Chapman is a war bride.

REMARKABLE TRIBUTE.

20,000 Persons Filled Past Lord Leverhulme's Casket.

Port Sunlight, England—A remarkable tribute was paid Sunday to the late Viscount Leverhulme, one of Great Britain's chief captains of industry, in this model industrial centre he created. It is estimated that fully 20,000 persons filed past the casket containing the Viscount's body as it rested on a bed of flowers in the Art Gallery, which he had filled with treasures and dedicated to the memory of his wife. The que of people who desired to pay their last respects to the dead at one time extended for more than a mile.
