

AN "ALLEN" RECORD

"In speaking of progressive tools, I suppose you have all seen the Allen riveter. We drive up all the back heads and all the mud rings. We have used that over a year, and find we do not have to calk a mud-ring rivet. Before I came away we put in 110 rivets in about two hours."

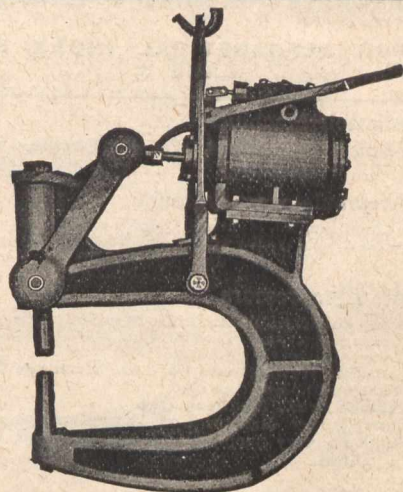

CHAS. F. TAYLOR, Jr. Supt. L.I.R.R., Morris Park, N.Y.

May 15-17, 1906.

(From Report Fifth Annual Convention, International Railway Master Boiler Makers' Association, Milwaukee; discussion on "Improved Tools for Modern Boiler Construction.")
