

THE . . .
PERFECTED

Prouty Jobber

The modern Prouty upon investigation will be found to contain all the qualities and requirements that are called for by the most advanced of the printing craft. Machinery designed for times gone by does not fill the bill to-day.

For embossing, half-tones and speed you must buy a press which has strength, distribution and is correct mechanically.

If it is built by SCOTT, no one ever thinks to question its reliability. The Scott Rotary Webb Perfecting Press, illustrated herewith, is the Standard of its class. It may not be quite

equal to 16 others in productive capacity, but in publishers' opinion it o'ertops all the rest.
