DIAMOND.. POWDERED LYE.....

Recommends itself to all economical and practical persons. It is put up in sound tin boxes having **two covers**, an inner "self-sealing" cover and an outer "slip" cover; thus any portion of the Lye may be used and the remainder kept without deterioration. The tin remains a useful package. The contents are full strength and full weight, and will do the work designated in the directions. Cheaper articles will be found sufficiently deficient in weight, convenience and presentability to allow of the lower price, and will not do the amount of work prescribed.
