### Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widdly and so decply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a rehable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dan-gerous aneotions of the throat and lings. As a provision against sadden attacks of Croup, it should be kept on hand in every family, and indeed as all

So complete is its mastery over the disorders of the Lungs and Thront, that the most obstinate of them yield to it. When nothing else could reach them, under the Cherry Pec-teral they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it. Bronchilis is generally cured by taking the Cherry Pectoral in small and frequent doses,
