

An Invitation To Discover Alberta.

To many, Alberta is the majestic Rocky Mountains, blue skies and wide open spaces. However, many have discovered Alberta as a vibrant environment for business, a land of diversity and promise where opportunities large and small abound.

Alberta has much to offer; a high standard of living, exceptional quality of life, one of Canada's most favorable tax regimes, a diverse and growing economy, an excellent education system, generous healthcare benefits, a young and well skilled labour force and so much more.

Of the many opportunities Alberta has to offer, two of note are the Business Immigration Program and the Investment Matching Service of Alberta (IMSA).

Designed to attract business expertise and promote investment opportunities, the Business

Immigration Program allows approved business applicants and their eligible dependents to obtain permanent resident status in Canada.

Looking for an investment opportunity? Joint venture partnership? Or licensing opportunities through a systematic referral process? IMSA simplifies the search for quality investment opportunities.

We invite you to make your own discovery. Alberta is the right choice for you, your family, your business or investment plans and your future success.
