

Adjournment Debate

and it is a machine which takes up the overburden preparatory to road building. I would add that this machine combined with two D-8 bulldozers is only used below the permafrost line. These are very sophisticated pieces of equipment used only for advanced training.

The hon. member has asked if these machines will be replaced at Fort Smith vocational school. The fact is that once a student has completed training on equipment normally used in settlements, if that student indicates a desire to move into commercial or industrial heavy machinery then the training is completed in the Hire North

program, and the equipment is returned to Fort Smith until it is needed again for advanced training.

I emphasize that the equipment was removed with the concurrence of Fort Smith officials, that its use by Hire North is properly undertaken, and that it will be returned to Fort Smith following its use.

The Acting Speaker (Mrs. Morin): Order, please. The motion to adjourn the House is now deemed to have been adopted. Accordingly, this House stands adjourned until tomorrow at 11 o'clock a.m.

Motion agreed to and the House adjourned at 10.35 p.m.
