

Montreal Local Council of Women

My dear Sir Arthur,

Since Dr. Haureau's lecture and the appeal he made for the Greek refugees, the Local Council of Women has felt that there should be an effort made in Montreal to gather a contribution toward the relief work of the Save the Children Fund.

Mr. Leonard Leese who carries this note to you, is of the personnel of the Fund, and has but recently been sent from Greece to Canada. He is here to help us organize some sort of campaign

It is perhaps taking a sporting chance to attempt anything now, but the need is rather desperate, as of course you know, and we shall all be very deeply grateful for what countenance, encouragement, and advice you can give.

Very sincerely yours

Anna Scrimger Lyman

Pres.

83 Bishop's Crescent
