Exercises is Nature's Cure for Constipation and, a Ten-Mile walk will do, if you haven't got a wood-pile.

They don't flush out your Bowels and intestines with a costly waste of Digestive aids, as Salts, Castor Oil, Calomel, Jalap, or Aperient Waters always do.

No—Cascarets strengthen and stimulate the Bowel Muscles, that line the Food passages, and that tighten up when food touches them, thus driving the food to its finish.

A Cascaret acts on your Bowel Muscles as if you had just sawed a cord of wood, or walked ten miles.

Cascarets move the Food Naturally, digesting it without waste of tomorrow's Gastric Juice.

County Council. The feature of yesterday's meeting of the York County Council was the address of Deputy Minister Campbell re the "good roads" movement. By invitation, Mr. Campbell spoke along the line of practical work, referring incidentally to some slight changes which had taken effect in the Good Roads Act since the measure was first introduced. Formerly a fixed sum was given the municipalities, whereas at present the question of outlay is left wholly with the counties individually, the government providing one-third of the cost, be the same great or small. The plan to be effective must receive the endorsement of at least two-thirds of the townships in the county designated, and the plans approved by the government engineer, the latter does not appoint the commissioner to superintend the work unless specially requested by the county. Mr. Campbell gave a list of the counties already engaged in the work of constructing good roads under the government conditions. They are, with the amount expended to date: Oxford County, \$17,873; Wellington County, \$17,542; Hastings County, \$22,488; Lennox County, \$30,438; Wentworth County, \$36,800; Simcoe County, \$37,938. A number of other counties had entered the initial stages and would shortly enter upon active construction. Up to and including the last ten years, no more than \$100,000,000 in cash had been expended on roads, and looking around it was hard to see how the money and time had been expended.

In the event of York County entering, as was proposed, upon the "good roads" movement, he urged the council to take no more under their charge than could be profitably managed. If it was 100 miles, let it be leading roads, and nothing would please the government better than to see a large proportion of

the money spent in the work of grading and crossing the roadway rather than in the work of gravelling. It was hoped that the influence radiating from the movement would exert a most beneficial effect on the country at large. In answer to Councillor Lapp, Mr. Campbell said that the question of wide trees was a most important one, "but one thing at a time," said the deputy minister. "Get the good roads under way and the question of wide trees can very properly follow." In answer to Councillor Pughley, Mr. Campbell also stated that the question of the government aiding the towns and villages to the same extent as the townships had not been dealt with, and it was a question how far legislation could go in that direction. This morning the council will take up the question in earnest.

H. Legge and George S. Henry were elected county commissioners. The resignation of T. J. Spaulding as trustee of Aurora High School was accepted. The financial statements of the several high schools in the county were presented. The equalization committee completed their work, and it will be presented to the council to-day.

Another adjournment. Councillor Legge presented the report of the legislative committee, asking that a bill be presented enabling townships to proceed with local improvements along the same lines as railroads.

Another adjournment. Cockburn Case Will Not Continue To-Day—McGill's Evidence Wanted. When G. R. R. Cockburn is called in police court this morning his case will not be going on with, as Mr. Corley will ask for another adjournment. Someone in the house gave him the "tip" not to come in. He started to drive away but Newton jumped in and Ball took the other side for his. After a chase of a block Newton ran his man down.

Sir Frederick was a member of the Conservative party, and was a member of the House of Commons from 1868 to 1874. He was also a member of the Privy Council.

OVER A WEST END LICENSE. "There is nothing in the report," said a well-known Conservative last night, "that there is trouble in the Conservative ranks over certain patronage. It is a fact that some complaints have been forthcoming over a license in the west end, but it is really nothing. That's all there is to it. The central party committee meet next Saturday to look into this specific case."

listed securities, dropped in on me, asked some impertinent questions, and wanted to know if I would be willing to go up to the district attorney's office any time I might be wanted. I said 'Yes,' but that was the last I ever heard of the matter."

Mr. Campbell, the second of the excused jurors, declared he had "too much respect for the court to give an interview." It was generally reported that Mr. Campbell had asked to be relieved. He begged to be excused when first placed on the jury.

One new juror had been added to the trial panel when the excuse of Fraire and Campbell was announced, and a second one was subsequently secured, thus offsetting the loss of the two previously excused jurors. The court adjourned there were nine men in the jury box. Forty-six taxmen were called before the two excused jurors. The original panel of 200 men and used up 18 of the new panel of 100 summoned yesterday and in court to-day for the first time.

Two new jurors sworn in to-day were: No. 10, John S. Dennee, traveling freight agent, 38 years of age, and unmarried. Mr. Dennee is a native of New Orleans, La. No. 11, David S. Walker, real estate broker, 34 years of age, and unmarried.

Thaw seemed to be particularly well pleased with the selection of both Dennee and Walker, and smiled when the prosecution withdrew all pending challenges against the taxmen. As soon as Mr. Dennee said he was a Louisiana, Thaw was seen in earnest consultation with his lawyers. Mr. Walker was accepted by the defense in spite of the fact that he said he knew Stanford White and many of the Thaw's friends. He also had formed an opinion in the case and expressed it many times. These facts, Mr. Walker declared, however, would not prevent his rendering an entirely fair and impartial verdict. He had not seen White for a year before his death.

The defence now has thirteen on its peremptory challenges left and the state seven remain. Family United. The members of the Thaw family were all in court to-day and for once disapproved of those who had circulated reports of a serious break in the family relations.

It is now believed that the taking of testimony will not begin before Thursday afternoon or Friday morning. Mr. Hartridge to-day again indicated by his questioning of a taxman that here may be more than one excuse offered by Thaw for his No. 10 juror. "Would you object to two or more defences?" he enquired.

He was, however, excused. Possible Witnesses. An interested spectator yesterday afternoon was Jack Barrymore, the actor. In a certain contingency he will be a witness for the prosecution. Barrymore was acquainted with Evelyn Nesbit when Stanford White made her acquaintance, and is familiar with the circumstances under which the architect came to know her. Should any attempt be made on the part of the defence to introduce testimony regarding White's acquaintance with Evelyn Nesbit that would tend to blacken the late architect's memory, it is believed that the actor will be put on the stand in rebuttal.

Mr. J. J. Caine, formerly a buyer for a Boston wholesale millinery house, was one of the principal witnesses. It is said that she is prepared to give her testimony for the defence, as she knew Thaw's wife when as a child she lived with her mother and brother in one room in a West 22nd-street lodging house here.

Mr. Sult has been begun by Dr. Charles L. Dana, one of the alienists called into the Thaw case when the defence was in the hands of W. M. K. O'Leary, against Harry Thaw and his mother, for \$1000 for professional services, which, he says, he has been unable to collect.
