

SPECIAL FARMING & LIVE STOCK EDITION

WANT MORE STORAGE.

From the Maritime Provinces comes the information that the storage of this season's potato yield is a matter of more than ordinary concern. The potato crop down east has proved a most remunerative one the last few years, largely because of the unfavorable character of the crop in Ontario. Imports of the tuber from the Maritime Provinces have become a regular trade development and to meet this the New Brunswick farmer has extended his acreage to a large extent. This year's crop is expected to prove a bumper, so much so that the proper housing of the yield has demanded the attention of politicians and the government is being requested to furnish storage capacity. If this is not forthcoming, and present indications are that the season is too far advanced to admit of the provision, a species of forced sale in the early part of the fall is altogether possible. Competition of this kind will not be appreciated by the Ontario farmer, as the tendency will be to flood the domestic market for awhile.

MONEY AND CROP PRICES.

There are two prominent determining factors that will govern the prices of farm products this year. The one, a highly important one, is the strained condition of credit. A world-wide money stringency is being experienced, relief from which can only be obtained by an increase in the purchasing power of gold and a consequent depreciation in all articles of commerce. The evolution of the value of money is already noticed in several staple commodities. For instance, wool is materially lower than a year ago; the same may be said of hides. The steepest change in the price of commodities is that which has occurred in copper, this being equal to nearly 25 per cent. of a loss in less than three months. The contest between money and prices will center in those portions of the crop which are estimated as promising a shortage. In the cereals wheat and oats are far from being the plentiful yields of last year. The world's crop of wheat, according to the best statisticians, will be 436,000,000 bushels short of the year 1906. Oats on the North American Continent are with few exceptions a light crop, and the yield in the United States is placed at over 100,000,000 bushels less than last year. With such well defined shortages as this, the firmness of the prices of these two grains at the commencement of a crop season are not to be wondered at. The question of demand will for the time being be under the influence of the ability to purchase, but the inadequate or short supply will have an important bearing on fixing a basis of value.

SHORT BARLEY CROP.

Only One Quarter the Usual Supply of Barley Twine Used.

As an instance of the shortage of crops this season, at least in the vicinity of Orangeville, Mark Hannah of the Toronto Board of Trade received a letter yesterday, stating that a farmer who came to his company's Orangeville warehouse, said that one ball of twine was sufficient for cutting eight acres of barley, while an ordinary crop would require fully four balls of twine.

A GOOD AVERAGE.

Under date of Aug. 8, John Elliott of Agincourt, Scarborough Township, writes The World: The hay crop has all been gathered in this locality, and has proved to be almost an average crop. The weather that has prevailed during the last three weeks has been very favorable to the barley and oat crops, and fall wheat are nearly all cut, and the oats are turning very fast. The green buds and the rust have proved very injurious to the oat crop. The potato blight has again made its appearance among the early varieties. The vines are turning brown and are dying off before the tubers have attained their growth.

Conveniences in Farm Homes.

One of the strongest objections to country life by those who live in cities is that the conveniences of the farm are few and that the work of the housewife is made a much greater hardship than it is in the cities. This is as a rule the case. The ordinary farm home has not the labor-lightening improvements of the city home. There is no plumbing in the house by which the luxury of a bathroom can be had, no running water, no sewerage system, heating is done by stoves, instead of furnaces, and the whole plan of the house is to increase the steps of the good housewife rather than to lessen them.

Now this is not as it should be. The farmer and his wife should have as many of the luxuries of life as may be possible, and it is possible to arrange the house of the farm so that many of the necessities of the city home may be had. The modern farm homes are usually better equipped than are those of several years ago. This is by reason that farmers are beginning to understand the possibilities of improvement. The cost is not always great for installing these things, and several things may be considered, all depending upon conditions and the natural location.

The water supply of the farm home is one of the important things to look after, as much of the health of the family depends upon the water they drink. The disposal of sewage is of equal importance, as thru this means often dangerous diseases are spread.

Agree to Two-Cent Rate.

LANSING, Mich., Aug. 7.—The State Railroad Commissioners have received word from the Lake Shore, Michigan Central, Wabash and Big Four railroads that they will comply with the new 2-cent fare law, which goes into effect Sept. 17.

THE FARMSTEAD

Good harvest weather.

The hay crop has been a welcome surprise.

It was better than we thought, it's generally that way.

Now the crop is cut, is the mower stowed away?

This does not seem to be a big raspberry year.

Keep the young calves growing well. They are revenue producers.

Back to the farm, to the old haunts, the woods and the fields.

The farmers are prosperous.

This has been a great year for new bank barns in York County.

Don't forget the Ontario Vegetable Growers' Association's excursion to Hamilton on Thursday, August 15. They'll be there from all over. Picnics will be Mount Pleasant Park.

When pigs, young or old, are allowed to run at large, they should be well ringed. Nothing is more untidy looking than a lane or pasture field all rooted up.

Reports from all over the province seem to indicate that it is going to be a good apple year.

Huron County alone, it is said, will produce 250,000 barrels of apples.

Even if the small fruits are picked, don't let the worms strip the currant or gooseberry bushes. 'Twill tell next year.

The farmer who has a stream, however small, running thru his pasture and woodland these days is doubly blessed.

George Robb of the 8th concession of Markham Township scored 22 out of a possible 100 in the government test for best field of wheat. J. W. Cowie of Louist Hill was a good second with 91.

The Spies, Ben Davies, Baldwins and Russets will be a heavy crop. There's none better.

Local Fruit Market.

Change of Managers.

LONDON, Ont., Aug. 8.—J. E. McConnell, who is at present manager of the advertising department of the McClary Manufacturing Co., severals his connection with that company in the near future, and will be more actively connected with the advertising agency of the McConnell-Ferguson Co., whose business has grown so rapidly as to require the entire time of Mr. McConnell.

The position of advertising manager for the McClary Manufacturing Co. will be held by A. Briggs, who has been connected for some years with the practical, printing, advertising and literary branches of several of the leading journals of Toronto.

New Books at the Library.

Freeman, Schools of Hellas, 600-200 B.C.; Jordan, Blood of the Nation; Strong, Roman Sculpture; Standage, Agglutinants of All Kinds; Aspinall, Pocket Guide to the West Indies; Rogers, Australasia (Historical Geography of the British Colonies, Vol. VI.); Letters of a Betrothed During the German War of Liberation, 1804-1805, by Edith Frelinson Cranin; Petronil Cera Trimalchionis, edited and translated by W. D. Love; The Irish Parliament, 1775, edited by William Hunt; Brown, Maori and Polynesian; Story, To-morrow in the East; The Cambridge Modern History, Vol. X, The Restoration; Sir John Hawkins, A Sea-Dog of Devon; Liberator, The Great Plot; Barnett, The Prince's Valet; Bindloss, A Damaged Reputation; Magray, The Amazing Duke; Beard, Things Worth Doing and How to Do Them.

Moved Just in Time.

BROCKVILLE, Aug. 8.—Fred Loomis, who lives with James Baker in Dexter, made a lucky move between 4 and 5 o'clock yesterday morning when he concluded it was time for him to get out of bed and go downstairs. A few minutes later Loomis' bed was struck, a small portion of the roof torn off, and the rafters and attic floor shattered.

Barns Consumed.

BROCKVILLE, Aug. 8.—(Special)—The barns and other outbuildings of John Ferguson of the Township of Wolford were struck by lightning and destroyed with fifteen loads of hay and several farming implements. Insurance \$1000. Loss in excess.

READY FOR SABINE.

Editor World: In your issue of the 25th ult. Mr. F. J. Sabine (poet) has accepted my challenge. I repeat his poems lock motre, and are decidedly original, and that I can prove them so.

Mr. Sabine will experience no difficulty in meeting me in debate providing he names the conditions and whereabouts of debate; and will make provisions for expenses if defeated.

G. C. Arthur (Col.)

OUTLOOK IS PROMISING

York County Farmers Reaping Good Harvest—Dairy Interests Likely to Suffer—Good Year for Corn.

Crop conditions thruout the length and breadth of York County are of a character varied at the present time as to render any attempt at a general estimate extremely difficult. From the waters of Lake Ontario to Lake Simcoe, and bounded by the Counties of Peel and Ontario, lies a magnificent stretch of country unsurpassed, if equaled in the Province of Ontario. This section constitute an important factor in the progress of the city.

On Wednesday The World was fortunate meeting with a number of agriculturists prominent in their chosen avocations and their views given regarding the outlook in general will be read with interest. It is refreshing in the outset to know that in every instance a more optimistic feeling prevails than obtained earlier in the season, showing that conditions have improved.

"We certainly have no ground for complaint," said Warden Seneca Baker of Whitechurch Township. "The heavy crop improved wonderfully to the last and where we thought early in the season we would have little or nothing we had a little less than a medium crop, but the wheat yield is the very best of hay," said the warden. Oats will be lighter than usual, barley an average crop, peas and clover extra good and root promising, and the potatoes especially so. Corn is splendid. Straw will be short, but the yield of grain will probably be excellent.

Reeve Thomas Legge of King Township places the oat crop at one-third less than last year, but the wheat yield and acreage is variable—in some districts magnificent fields are seen, while at nearby points these conditions are exactly reversed. Barley half a crop, running from 25 to 30 bushels an acre; oats poor, and mixed grain, such as barley, wheat and peas, sown late in the season, where sown late are fine; root crops are all right; pasture land, Mr. Legge reports, is greatly in need of rain.

Reeve George Henry of York Township stated to The World yesterday that the improvement in the hay crop from the early part of the season until haying was wonderful. In addition to this the quality was exceptionally good and gathered in great shape. The heavy summer crop of peas, barley good average crop, oats below the average, peas extra good and root crops most promising, excepting turnips. Pasture is poorer than for years in this season.

Reeve W. H. Pugsley of Richmond Hill, who has large interests in the northern part of the county, and is deeply interested in the cattle industry, was optimistic over the outlook. Fugley stated that he had a splendid crop of barley; peas, after repeated years of almost comparative failure, are coming back all right and promise well. On Georgian Island, where Mr. Pugsley has a large herd of young cattle pasturing, he reports the outlook as good. "No cause for anxiety," said the reeve, who is the very embodiment of good nature.

Few men in York County are better qualified to give an expert opinion on the general condition of the gardening and apary interests than Reeve J. D. Evans of Etobicoke Township. Mr. Evans is deeply interested in the honey industry, which, in the central portion of Ontario and in York County, is in an indifferent condition.

"One half of the honey bees died during the past winter," said Mr. Evans, "and those that are left are in some cases doing well and in others are almost a total failure. The mortality is generally attributed to 'honey dew,' the exact nature of which is not known. Some bee-keepers attribute it to insects, while others regard it as a virus of nature. The business is getting more and more into the hands of experts," said Mr. Evans, "and the price threatens to go sky-high, selling at 11c a pound in top lots, with great difficulty in executing orders at that figure."

Deputy Reeve John Watson of York Township, a good type of farmer, is among the fortunate one in owning a fine field of wheat. Mr. Watson cut a 25-acre field of fall wheat, which he says is equal to the best ever harvested. Long, clean and thick on the ground, with plump, well-filled heads of grain, the crop is in fine shape. Mr. Watson reports his hay as excellent, and the other grains, with the exception of oats, are being well harvested. Turnips were a failure, but other roots promise well.

Thru Scarborough, Markham and away up the Stark, Telephone, Light & Power System, the crop conditions are for the most part fair. Harvesting will cost less in time and labor than in years past, and the quality of straw will, it is hoped, be largely offset by the fine quality of grain.

In any event, with the largely enhanced receipts of the past few days, coupled with the thrift and good management characteristic of the average York County farmer, there is no cause for other than the greatest hopefulness.

Thru Scarborough, Markham and away up the Stark, Telephone, Light & Power System, the crop conditions are for the most part fair. Harvesting will cost less in time and labor than in years past, and the quality of straw will, it is hoped, be largely offset by the fine quality of grain.

In any event, with the largely enhanced receipts of the past few days, coupled with the thrift and good management characteristic of the average York County farmer, there is no cause for other than the greatest hopefulness.

CORONATION NOT OBSERVED

Pope Calls Off Reception Fearing Cardinals Might Have Trouble.

ROME, Aug. 8.—The Pope to-day countermanded all the receptions planned in honor of the anniversary of his coronation, fearing that the cardinals might be insulted in the streets while on their way to and from the Vatican.

Leaves \$220,000.

CHARLOTTETOWN, P.E.I., Aug. 8.—The will of the late John Ings disposes of an estate valued at over \$220,000. It includes real estate, mortgages, judgments and other loans, \$100,000. The sum of \$1000 is bequeathed to St. Paul's Church, \$500 to St. Paul's Sunday School, \$500 to the Prince Edward Island Hospital.

BREVITIES.

Former Governor Jos. Johnston of Alabama has been elected to the U. S. senate to fill the place of the late Senator Pettus.

Prof. Osler, speaking at the School of Hygiene conference, emphasized the prevalence of mouth-breathing and decayed teeth, and advocated greater medical supervision of children.

E. H. Keating has issued a writ against the Stark, Telephone, Light & Power System to recover \$800, the amount of several promissory notes. The Stark Telephone, Light & Power System Company, a medicine manufacturing firm, sued C. B. Graham for damages for alleged selling of a substitute remedy of the same name.

A horse fell into the trench made by the city engineer, the day yesterday, and was lifted out by means of a derrick.

THE SLEEPING CAR GRAFT.

Winnipeg Tribune, Aug. 5: The announcement made by Attorney-General Cross of Alberta—that he will at once proceed to prosecute members of the Alberta Lumber Dealers' Association for conspiring in restraint of trade—makes a pleasing contrast when the inactivity of Attorney-General Campbell of Manitoba is considered.

Mr. Campbell refused, point blank, on the floor of the legislature, two sessions ago, even to permit a committee of the legislature to enquire into the workings of the Bee Trust, and it was only at the request of the Alberta Government that Manitoba's beef-tariff appointed a member of the beef commission, now taking evidence.

FARMS FOR SALE.

ABOUT 100 ACRES, WITHIN EIGHT miles of Toronto, very close to Yonge street. This is a very fine property, and we are offering it at a low price. Rice, Kidney & Co., 15 Victoria-street, Toronto.

Apply to Mrs. William Chapman, Richmond Creek, on the premises.

200 ACRE FARM FOR SALE directly adjoining the Village of Jarvis. For particulars apply J. Y. Murdoch, Jarvis, Ontario.

180 ACRES, TOWNSHIP SOUTH of Marysburg, large house, barn, well, etc. This is one of the best stock farms in Prince Edward. Well watered, timbered, fenced and in high cultivation. Will be sold on bond or in two sections, 140 acres and 40 acres, with suitable buildings on each. Convenient church, school and market. Easy terms payment. Apply D. E. Ackerman, Milford on the Hill, or H. W. Ackerman, Belleville, Ont.

150 ACRES, COUNTY PEEL, MALDEN, 100 rods wide, fenced, watered and well built in, in high cultivation and clean. James Cook, Malton.

FARM, 100 ACRES, TOWNSHIP ORO, North Barrie, brick house, good buildings, school and market. Easy cultivation, easy terms, possession given after harvest. John M. Syme, Dalton P.O., Ont.

PERSONAL.

A GENTLEMAN WISHES TO PLACE his son with an influential, well-to-do farmer, where he can finish his education in farming. He has already had some experience and is a hard-working, capable, steady youth. Address Bert Confidence, Box No. E, World.

NEW WORLD'S MILE RECORD.

Leland in a Stearns Finishes Time Trial in 44 Seconds.

At Atlantic City, Frank Leland, driving a sixty horse-power Stearns, lowered the world's record for touring cars at the Ventnor Beach course last week. In a spectacular drive against time he sent his car over the mile in 44 seconds flat. The former record was made last year over the same course by the late Tom Cooper, in a Matheson car. His time was 50 1/2 seconds, but he carried seven passengers, while no one rode in the car with Leland.

Interest in the events upon the program centered upon the free for all championship to lower the record of 24 seconds now held by Walter Christie. In this race, Montague Roberts, driving a one hundred and twenty horse-power Thomas, flew over the mile in 40 1/2 seconds, the best time of the day. The forty-five horse-power Stearns was a close second, at 41 1/2 seconds. The other feature of the day was the 110 class handicap, won by Guy Vaughan, in his Stearns, who nosed out the Stanley steamer in 1:07 1/2.

Better weather, a faster course and more spectacular finishes featured the program, and in comparison with yesterday's race, the gratifying absence of protests and no disqualifications in the light car class. The thirty-five horse-power Oldsmobile again distinguished itself, and a forty horse-power Thomas won its event from a good field. In the gentleman's roadster handicap, Mr. Campbell refused, point blank, on the floor of the legislature, two sessions ago, even to permit a committee of the legislature to enquire into the workings of the Bee Trust, and it was only at the request of the Alberta Government that Manitoba's beef-tariff appointed a member of the beef commission, now taking evidence.

UNION STOCKYARDS
TORONTO JUNCTION

NOTICE TO THE LIVE STOCK TRADE:

GENTLEMEN: We beg to inform you that there are Two Markets Days Weekly here, namely:

Monday and Wednesday

When buyers of all kinds of Live Stock will be present.

COME AND GIVE THIS MARKET A TRIAL.
