The World is delivered by our own carrier boys in any part of the city for 25c per month. Leave your order at office, or telephone 1734.

WINNING RIGHTS OVER ELECTRIC RAILWAY.

The application of the Toronto & Scarborough Railway to the Legislature for authority to lay down railway tracks on Queen-street east, so as to form direct connection with the Toronto Railway system, again emphasizes the necessity for the passing of a general law in regard to the granting of running rights by one electric line over the tracks of another. The citizens of Toronto have long felt the need of direct communication with Victoria Park and Scarborough Heights. In order to obtain such communication it is necessary that a railway track should be laid through the municipality of East Toronto. The municipality objects, and very naturally so, because in its opinion the railway people are not offering what is deemed a fair equivalent for the privilege. This is only one instance of many kind of difficulties that are likely to arise between adjoining municipalities and between contiguous electric railways. At the last session of the Legislature the Metropolitan Railway applied for running rights over the Toronto Railway system, but its application was refused because the two railways connected the same people, both of the city and the township, have to put up with great inconvenience, as well as being subjected to double fares. It is manifestly the duty of the people's representatives in the Legislature to interfere and decide once for all that every electric railway shall have running rights in direct connection. It should be left to a Commissioner or a Board of Arbitrators to decide the terms upon which one railway should have such running rights, the rates of fares, the granting of transfers and other matters that are liable to cause disputes under a joint operation of different systems.

UNSANITARY BAKE SHOPS.

Complaints are made that the law recently passed by the Ontario Government regulating the hours of work in bakeries is being violated by different concerns in this city. It is stated that bakers and workmen in their men from seventy to seventy-five hours a week; that many of the shops are in an unsanitary condition, and as a result that there is a good deal of sickness among the men engaged in the business. The mortality among bakers is admittedly the largest of all trades in this city. This is accounted for by the fact that the bake shops are hot, badly ventilated and uncleanly. It is further alleged that the Local Health Department does not make the necessary inspection, and that it is not sufficiently able to the importance of keeping the shops in a sanitary condition. These complaints are made to The World by journeymen bakers, and they ought to be investigated by the Health Department.

ONTARIO'S AGRICULTURAL RESOURCES.

The Province of Ontario is ripe for the establishment of such industries as those about which Mr. Smart of Chicago is here making enquiries. Ontario is better situated for the production of live stock, fruit, butter, cheese and similar products than of grain. True it is that a large part of the province is still under crop cultivation, but it will pay our farmers better to confine themselves to the industries above mentioned than to attempt to compete with Manitoba or the Northwest in wheat and other cereals. Not only is the production of live stock, fruit and dairy products already sufficient in Ontario to maintain large factories, but the possibilities of increasing these products are enormous. Within the past fifteen years the production of cheese has increased several hundred per cent. What has been done in regard to cheese is possible with poultry, butter and eggs. The export of bacon and other hog products for the English market has increased of late years more rapidly than that of cheese, while the prospects for the future are even more encouraging. As yet we have made no effort to build up a trade in the export of chilled beef and mutton, such as has been successfully established in Australia. Our indifference to this industry does not arise from the fact that we have not the necessary cattle and sheep, but simply because our business men have lacked the enterprise to go into it. Toronto is the railway centre of the province, and there will be no difficulty in bringing here all the cattle that is required for carrying on an enormous business in dead meat. The province already produces a great deal

IT HITS BASEL SAN.

Washington, D. C., Dec. 21.—The action of the French Chamber of Deputies yesterday in passing a Government bill increasing the duties on hogs, hog products, and, etc., is regarded as retaliatory in effect against the United States. The French Chamber of Deputies of the Agricultural Department show that the American France on the one article of lard reached 31,734,242 pounds last year.

Mining Man Arrested.

Montreal, Dec. 21.—Robert Stevenson of Granite Creek, and president of the Ontario Granite Mining Company, was arrested this afternoon by Detective Hallen of the Montreal Police, on a charge of larceny. Stevenson is alleged to have stolen \$1200 in a mining enterprise and that the money has been lost. Mr. Stevenson left for Ottawa this evening to answer the charge.

Confirmation at St. Cyprian's.

The Lord Bishop of Toronto will make his annual visitation to the Parish of St. Cyprian and administer the rite of confirmation in the church, at the corner of moving and Christie streets, at 8 o'clock on Wednesday evening. This is the first administration of the rite since the present rector, Rev. C. A. Senger, took charge of the parish, and it is understood there are a large number of candidates who will be enabled to receive their first communion on Christmas Day.

Strong Program.

At the union meeting of the W.C.T.U. and C.T.U. at the Pavilion next Sunday there will be addresses by Revs. W. J. Gresson and I. Tovel, and also by John Whyte, and Mrs. Dr. Bascombe in the chair.

Federation Labor Congress Over.

Nashville, Tenn., Dec. 21.—The American Federation of Labor, under the leadership of Samuel Gompers, and Thomas I. Kidd of Chicago was elected fraternal delegate to the Canadian Labor Congress.
