TWENTIETH YEAR

SCORES OF LIVES LOS IN THE DISOR HOTEL FIRE

The Dead, Known and Unknown, Number Sixteen, But Over Forty People Reported Missing Have Still to Be Accounted For.

It Was One of the Fiercest Hotel Conflagrations on Record, and the Heroism Displayed by Many Firemen Goes on Record as Simply Remarkable.

Many Thrilling Incidents Are Related Which Show Wonderful Courage on the Part of Women Who Had the Lives of Others in Their Keeping.

New York, March 19.—The destruction on Friday afternoon of the Windsor Hotel and the loss of perhaps sixty lives is still the all-absorbing topic here. There is consternation in the homes of many, and telegrams are coming from all parts as to the whereabouts of missing relatives. However, the full tale cannot be told till perhaps to-morrow night, when the work of clearing away the wreck will probably be well under way. Little in the way of searching for bodies could be done to-day.

It is expected that the property loss, including the hotel, contents and valuables owned by guests, will total \$2,000,000.

WORKMEN STILL HANDICAPPED.

Four hundred workmen were to-day busily engaged in working in the debris for bodies and valuables. They comprised one of three shifts of 400 men each, who work eight hours each. Their work was retarded also owing to the difficult conditions of murky atmosphere and the heat of the debris. Smoke and steam still arise from the debris, now and then flames shoot up, even at this late hour after the fire. The workmen have only been able to do a little superficial work. When the dig down a little, way the debris is so dense that they are obliged to move to another locality.

ANOTHER CHIMNEY DEMOLISHED.

The three-line chimney which was kept to-day than ever before, and all persons without a special permit are kept outside. The explosion wrecked a number of chimneys and in picking the six-story wall that is standing on the 47th-street side of the hotel site, in order to make the search in the ruins safe. The second 85-foot chimney was dynamited shortly after 3 o'clock this afternoon. The explosion wrecked a number of plate-glass windows and doors in nearby residences.

WORKMEN ARTICLES FOUND.

A large force of men were at work during the afternoon on what was the main center, in order to make the search in the ruins safe. The second 85-foot chimney was dynamited shortly after 3 o'clock this afternoon. The explosion wrecked a number of plate-glass windows and doors in nearby residences.

DOWN THE SHAFT TO DEATH

Thomas Sidlev, the Elevator Man at Yonge Street Arcade Killed on Saturday.

NOT KNOWN HOW IT OCCURRED

Found With His Skull Smashed on the Basement Floor—Lived Half an Hour.

Thomas Sidlev, the elevator man in the Yonge Street Arcade, is dead. He was found Saturday afternoon on the basement floor of the Arcade, with his skull smashed, and the elevator boy in his pocket. The elevator was up at the top and the cage on the second floor was locked. It is a mystery how the fatality occurred.

Prior to the accident he was known to have been engaged in the contract to supply the British fleet with three thousand tons a month.

THE CROW'S NEST A BONANZA.

Company Secures Contract to Supply British Fleet—Three Thousand and Tons a Month.

Vancouver, March 19.—The Crow's Nest Coal Co. has secured the contract to supply the British fleet at Esquimalt with coal for the present year. The amount of consumption is not less than 3000 tons per month, and some of the vessels when leaving the station carry away with them more than that for one trip.

Always the Best at Dineen's. There is one thing that a man in quest of a new hat is always expected to look for at Dineen's. This is the best hat style and the best hat quality that the money will buy—whether it's a \$2 hat or one for \$2.50 or \$3, or a hat at any higher price. Dineen's prices are usually lower than most men expect to pay for fine hat qualities, and that is why most men buy their hats at Dineen's.

WAS BOOBY GAME WORKED?

Insinuation That Improper Influence Was Used on the British House of Commons.

TO SECURE "MURDER OIL" VOTE

One Paper Speaks Sarcastically in "Rockefeller to Sleep" Accents.

New York, March 19.—Henry Norman, writing from London to The Times, says, "For the first time in my recollection, common talk, and, indeed, the criticism of frank newspapers, has suggested that a vote in the House of Commons was due to an improper outside influence. The Standard Oil Company is a corporation of such vast powers and such far-reaching activity, that perhaps it is not surprising it should be suspected of having extended its influence to this side of the ocean, on behalf of what is here described as 'murder oil.'"

Witnesses Favored High Flash.

Every independent witness before the Royal Commission, from Lord Kelvin downward, advocated the high flash oil. Government will not have low flash oil on its premises. Several important American witnesses said: "The American oil ring has been directly caused by the low flash oil, yet the legal flash point is 75 degrees, but a change to the higher flash point, one-half vote for the high flash oil and the other half for the low flash oil."

Satisfied With Napanea.

E. Gus Porter, counsel for Billy Ponton, writes The World, stating that he will not ask for a change of venue from Napanea. He is satisfied with Napanea, and sees no reasonable ground for change. He is confident a perfectly fair and proper trial can be had at Napanea. The statement that he had asked for a change is characterized as "entirely untrue and unfounded."

SEVEN KILLED BY CYCLONE

Cattle Were Drowned and Dozens of Grain Mills Destroyed in Alabama.

FIVE PEOPLE DEAD IN ONE HOUSE

And Later Details May Add Many to the List—Railroad Trains Blocked.

Chicago, March 19.—The Times-Herald's Birmingham, Ala. special says: A cyclone struck the bolt of country lying between Helena and Edwardville, Cleburne County, yesterday afternoon, and wrought terrible damage. Seven persons were killed, five of them in one house. It took railroad trains until 10 o'clock last night to get through, on account of trees and telegraph poles that had fallen across the track. Cattle were drowned and dozens of grain mills were destroyed.

A BRILLIANT FUNCTION

Was the First Drawing-Room of the Governor-General and Lady Minto.

MANY OUTSIDERS PRESENT

And the Storm King Relaxed His Fury Just at the Proper Time For the Affair.

The Red Chamber was Brightened by the Brilliant Uniforms of the Staff and the Official Robes of Ministers and Judges and the Gowns of the Deafes Were More Gorgeous Than Usual—A Number of Toronto Ladies Present.

Ottawa, March 19.—(Special.)—The breezy, wet snowstorm which raged all yesterday in Ottawa, recommenced business after midnight, and has been hard at it all day, politically speaking, a quarter of 8 o'clock and 12 last night, which was very convenient for the seven or eight hundred ladies and gentlemen who attended the first drawing room of our new Governor-General in the Senate chamber. The function was one of the most brilliant of its kind ever held in Ottawa, a very noticeable feature being the large number of visitors from places other than Ottawa, especially ladies, of whom there were nearly one hundred.

An Hour and Ten Minutes.

The reception lasted exactly one hour and ten minutes, which is nearly a quarter of an hour longer than last year, when, contrary to the usual custom, the last drawing room held by a Governor-General was the largest of his term. This was a reversal of the general order of things, the first drawing room of a new Governor-General being usually the largest of his term. Last night the Prince's suite just twenty years ago.

A Brilliant Scene.

The handsome chamber of the Senate looked uncommonly well, brightened by the brilliant uniforms of the Ministers, judges and other officials, and the magnificent gowns of the hundreds of ladies who adorned the galleries and the raised platform at the sides of the chamber with their youth and beauty, but not so much as the chamber was made very evident, and Mr. Tarte will have to see that it is correspondingly bright. The fact that the chamber is not sufficiently well lighted, and that the style of lighting is very old-fashioned, is not sufficient to detract from the attractiveness of the chamber. The electric lights, although they gave a fair glow, were not sufficient to make the chamber as brilliant as it should have been. The Senate chamber used to appear very bright, but in comparison with the Commons since the new system has been introduced it looks dingy and more light and better fixtures should be provided.

The Premier Was Absent.

The Premier was present in position from the official address of the Ministers, judges and other officials, and the magnificent gowns of the hundreds of ladies who adorned the galleries and the raised platform at the sides of the chamber with their youth and beauty, but not so much as the chamber was made very evident, and Mr. Tarte will have to see that it is correspondingly bright.
