The suggestion was made known to the officials of the Street Railway by a World reporter last night.

While they were in favor of it, Manager Keating and Superintendent Gunn said that they could not see how it could be practicably worked out on the cars. In many ways it would interfere with the work of the conductors in collecting the fares. Manager Keating said that a Christmas fund could be established, and persons wishing to contribute could send their donations to the office of the company, where they would be received and the to all be equally divided among the men. Controller Smith and Superintendent Gunn were both in accord with the idea.

Including regulars and extras there are about 1000 employed by the company in running the cars in Toronto.
