Four men were paid salaries aggregating \$20,500. Since prohibition had been in operation two men could do the necessary work. It was all wrong that it would require \$186,000 for the administration of that department. He urged that license in spectorates throughout the province be combined. "Why are there two inspectors for Lambton if it is not for political patronage?" he asked, and he said he believed inspectors could be dispensed with elsewhere in the province. The speaker had some suggestions for the minister of education, Hon. Dr. Pyne, by which he could save money. "There is a feeling in this country that you should not make any changes of textbooks this year, involving a hig expenditure to the people," he said, referring to \$9,594 mentioned in the estimates as required for textbooks last year.
