CRONYN MEMORIAL HELD

ITS 45TH ANNIVERSARY

On the occasion of the 45th anniversary of the Cronyn Memorial Church, the large Sunday school rooms were packed to capacity on Monday evening to spend a social evening.

Community singing was a feature of the evening and solos were well rendered by members of the choir. The Cronyn Memorial Orchestra played throughout the evening and was enthusiastically received, this being its first appearance in public, other than at the Sunday afternoon services.

As is customary at the church on the anniversary day, a collection was taken, and the substantial sum of \$600 was raised for the general work of the Cronyn Memorial Church for 23 years out of the words of congratulation upon the rapid advance of Christian work in that church.

Refreshments were served by the Refreshments were served by the greatest progress and work of the congratulation upon the rapid advance of Christian work in that church.

FINE EXHIBITION OF **CANADIAN ART NOW** SHOWN AT LIBRARY

Work of Over Twenty Artists Well Worth Visit.

If you are interested in Canadian art take an hour off some day this week and visit the exhibition at the public library, open 2 to 6 and 7:30 to 9:30 p.m. each day. Ninety-two examples of the work of the Society of Canadian Painter-Etchers show that this branch of art is attracting the effort of some men and women of genius. The work of 20 odd artists is represented and there is marked variety in the style of their work. Practically every work being shown here has been hung in some of the Canadian exhibitions.

Eugene Beaupre exhibits a series of six charming dry-point studies of child life. W. W. Alexander has six etchings, four of these quaint little scenes at Quebec City, one a fine study of traffic on the Thames and one in color of the University Buildings, Toronto, on a winter evening. John W. Cotton, now overseas, is represented by two color etchings and by four others, one being a very interesting little sketch of the famous Belfry of Bruges.

Dorothy Stevens of Toronto shows a

esting little sketch of the famous Belfry of Bruges.

Dorothy Stevens of Toronto shows a series of five etchings of Italian and French subjects and one very charming child study. Baby Betty, which will doubtless be one of the much-admired features of the exhibition. H. Ivan Neilson's study of the deepening of the St. Charles River at Quebec is fine and bold in its lines. W. R. Stark, another Canadian artist overseas, has given his attention to birds and animals. His color etching of peacocks is particularly beautiful work.

George Fawcett of Winnipeg has found his subjects around his native city, the Red River, St. Boniface in Winter, a Deserted Indian Camp, etc., all of interest. Owen P. Staples of Toronto has six etchings on view, one being of the main doorway of Toronto University and another taking as its subject the steel construction work on a modern skyscraper.
