## ARMENIAN RELIEF WELL SUPPORTED

Yesterday's Tag Collections Reach Well Up to Fifteen Thousand.

DOLLARS PLENTIFUL

Many Were Found in Contributions When Boxes Were Opened.

The total collection for the Armenian Relief Tag Day yesterday amounted to \$14,244.13. Toronto upheld its reputation for generosity once again in ts fine response to the "taggers" who overed the entire city in the cause for suffering Armenia, Judging by the many who were the little black and yellow tag, and the general air of willingness and enthusiasm, the day was one of the most popular ever held in Toronto, even the weatherman takin Toronto, even the weatherman tak-ing a hand and sending in one of his "very best" to help the success of

#### APPROVE METHODS OF COMMISSIONER BOYD

Local Council of Women Gives Him Full Support in Juvenile Court Administration.

The executive of the local council of women had a busy session yesterday afternoon, when the agenda for the coming meeting of the national council in Winnipeg was gone into in detail and the delegates instructed how to vote. The delegates who were ap-pointed are Mesdames Irvine, Kantel Fairbairn, McIvor, Hamilton and Miss Constance Boulton.

The matter of the juvenile court was also discussed, and the meeting endorsed a resolution giving its full sup-port to Commissioner Boyd and his methods, fully believing that he sifts the cases that come before him and makes the necessary adjournment that tends to the welfare of the home.

Still another question that received a deal of thought from the meeting was that of eleomargarine, samples of which were placed on exhibition for the meeting by Mr. Russell, thru the courtesy of the government. The country of the government of the country of the government. cil once more voiced itself as of the opinion that it is advisable to remove the restrictions on the entrance into the country and manufacture of this food.

# The Cord Terminals.

A desk telephone has been taken apart. See how the cord leads in through the stand to the "locknut" connections on the bar?

There are 116 parts in a telephone instrument and the years have shown this to be the smallest possible number; but notwithstanding the care and skill in assembling and connecting, a tiny nut will sometimes work loose. It's the hard "jar" often repeated-like the "drops of water that wear away the stone"-that makes the trouble.

You can help to safeguard the quality of your service if you try to avoid the "jolts."
