Are Bombing the Retreating Bolsheviks From Airplanes.

Warsaw, July 15.—The Poles have reoccupied Dubno in Volhynia, after hard fighting, and the retreating Bolsheviks are being bombed by Polish airplanes, says an official communication issued today.

Otherwise there were no important modifications in the situation in Poland and Volhynia today. Polish armies are holding the line at Zbarsk and Stok to protect communication lines to Lemberg and Brest-Litovsk. Enemy attacks in the regions of Kamietz and Stahow, in Podolia and against Dubno in Volhynia, as well as against the advance positions of Pitycz and Uhorst were repelled with heavy losses. The Poles captured important booty.

Most desperate fighting continues north and east of Vilna, where the population is taking an active part in the defense of the city, says the communication.

### REDS CAPTURE VILNA.

London, July 15.—The Bolsheviks occupied Vilna Wednesday afternoon without opposition, according to a despatch to The London Times from Kovno.

The despatch adds that Lithuanian and Bolshevik troops jointly hold Landarovo, ten miles west of Vilna, and are negotiating for the future disposition of the town, which the Bolsheviks probably will transfer to the Lithuanians.

Nothing for Commercial School. Trustee Boland begged hard for a division of \$75,000 to the commercial high school, but only secured the support of Rev. F. E. Powell.

Trustee Fred Hamby put up such a vigorous fight against going on with the additions to Dewson Street School that it was referred back to the property committee. He argued that the space on the old school site was absolutely inadequate.

Dr. John Noble presided.

## SALVATION ARMY GIVE CHILDREN AN OUTING

Seventy children, the second lot to be sent to Jackson's Point fresh air camp under the guidance of the Salvation Army, will leave Toronto this morning. Two weeks from today another lot of equal number will go up, while a month hence still others will go, until in all some 300 children will enjoy the outdoor life for a two weeks' period.

These little people have been chosen thru the various offices of the Salvation Army in Toronto. For all of them, this is the only relief they will have this season, from the heat of city streets. That they are looking forward with all the enthusiasm possible to this break in their lives is assured by those who have the holiday in charge. At 9 o'clock this morning, the party is due at the S. A. Shelter, 916 Yonge street. There, each child will be examined by a physician, and, all being well, they will leave by the radial before noon. It is hoped that the outdoor life will freshen their cheeks, and that they will come home again the better able to withstand the rigors of city life, amid conditions none too healthy.

In some extreme cases, mothers will accompany their children. Capt. and Mrs. Mont are in charge of this party. The camp superintendent is Ensign Spooner.

## HANDLED BIG FUND TO FIGHT THE O.B.U.

P. M. Draper Admits Fifty Thousand Dollars Was Sent to Canada.

Ottawa, July 15.—A special despatch to The Citizen from Detroit says: "Allen J. Barker, deposed grand president of the United Brotherhood of Maintenance of Way Employees and Railway Laborers, charged by the brotherhood with improper handling of \$125,000-brotherhood funds, admitted, in answer to charges filed in circuit court here, that he had authorized a cheque to P. M. Draper, Ottawa, Canada, for \$50,000, to be used in combating the 'One Big Union' movement in Canada. Barker is alleged to have pledged the brotherhood for large sums to support the Pump plan and other labor projects, also to have invested brotherhood money in Detroit real estate. He holds a life pass on Canadian railroads, presented by the government for services in labor disputes. Negotiations for a settlement of the case are pending."

Draper's explanation. Interviewed here today, P. M. Draper said: "A year ago a sum of money, around \$50,000, was sent to Canada to carry out certain work, which I am not at liberty to speak about, because it relates to the movement in Canada. I may say, however, that it was all for perfectly legitimate work in furthering the interests of organized labor. A complete statement was furnished Mr. Barker with regard to the disposition of it as he desired, and I have accounted for it since. The instructions were carried out to his satisfaction. I am not in a position to talk as to the people to whom the money was given. I simply acted as an agent in handling it, and my transactions in that capacity were accounted for and acknowledged. I acted privately, and not as secretary of the Trades and Labor Congress of Canada."

The object of the one-day strikes is to induce the company to install a water system in its houses, which system is alleged to have been promised the miners some time ago. ## BRANTFORD PUPILS CROWD COLLEGIATE

Matter Will Be Problem This Fall—Must Secure More Room.

Brantford, Ont., July 15.—(Special).—The results of the entrance examinations will be out by July 23, or July 24, it was intimated today. Two hundred and nineteen candidates sat for the test. This information has caused more or less of a stir, it looks as if the Brantford Collegiate will be entirely inadequate as to accommodation to take care of the opening day in September. There is also the fact that the new act requires attendance at school up to the age of 17 years, and there is no possibility of the collegiate accommodation with the situation. Principal O'Connell said today that he had impressed on the management committee the necessity of securing additional rooms for the fall session.

Coal is quoted here at \$16 a ton, an example of conditions across the line. It is noteworthy that one local coal firm this week received an offer of anthracite coal at the bridge at \$14.30 a ton. As the freight charged from the bridge are \$1.10 a ton, the American exchange cuts a further factor, it can be understood that there is no hope of lower prices.

### FRENCH GALLANTRY DEAD.

So bad have the traveling conditions become on the tubes in Paris that the women workers, including the midwives, and modistes of the fashionable shops, have demanded that a special carriage on each train be reserved for women.

They protest indignantly against the pushing to which they are subjected. "The traditional gallantry of France is a dead letter," said one typical business girl. "Traveling on the Metro at certain hours of the day has become nothing more or less than a battle in which the weak have no chance against the strong."

### WORK OF TIME.

When James A. Garfield was president of Hiram College, a man brought up his son to be entered as a student. He wanted the boy to take a course shorter than the regular one.

"My son can never take all those studies," said the father. "He wants to get thru more quickly. Can't you arrange it for him?"
