Presentation to Winners in School Boys' Meet of Loyalist Day

ises in several of the buildings today was the presentation of awards wor in the annual Loyalist Day athletic meet held on Hazen avenue under the direction of the Y. M. C. A. The chief of these prizes were again captured by St. Vincent's school, Cliff street, the boys of which building carried off first and second classes of events and Dufferin school, North End, winning the third class. The sports were run off with thre sizes and weights of boys, constituting the classification. St. Vincent's scored 35 points, Dufferin 18 points and New Albert, West Saint John, 16 points. in the annual Loyalist Day athletic

Mussolini's AT ST. VINCENT'S To St. Vincent's boys this forenoon was presented the handsome new silver trophy—a huge cup—presented as a year to year token by the Y's Men's Club, also two silver-mounted oaken shields denoting the two winning classes of boys, which are to be a permanent award, as well as a group of gold, silver and brohze buttons for the individual athletes who amassed an excellent total of scores. W. H. Golding Daughter Not To Wed Prince ROME, June 25—The Italian Foreign Office has issued an emphatic denial of the report that Edda Mussolini, daughter of the Premier, is to marry Crown Prince Humbert. The statement declares that the story originated in society gossip. Reports originating in Chiasso, Switzerland, credited Premier Mussolini of Italy with plans individual athletes who amassed an excellent total of scores. W. H. Golding made the presentation in a congratulatory short speech. In addition, St. Vincent's school is entitled to fly the blue, also the red championship pennants, donated yearly by Imperial Theatre. They too were presented by Miss Evelyn Kerr of the Imperial staff.

IN DUFFERIN IN DUFFERIN

In Dufferin school, Harold Vincent, on behalf of the Y. M. C. A., presented to the boys their shield and buttons, also the white pennant of the third class on behalf of Imperial Theatre. The presentation and Mr. Vincent's remarks of felicitation and encouragement created a furore of plaudits. In New Albert school only buttons were given out to the winning athletes as the school did not figure in the group winnings. Other schools figuring in the buttons awards were King Edward, St. John the Baptist, King George and St. Peter's.

We are not in the re-conditioned car business for profit, but rather to promote the sale of our new Nash Cars. We realize that it is exactly as important to satisfy thoroughly the owner of one of our re-conditioned cars as it is to have a satisfied Nash owner. For eventually we hope to sell the re-conditioned car owner a new Nash. And if we can earn his implicit confidence by giv-

of Canadian financing are now attracting attention in the market here. Dillon Read & Co. were the high bidders yesterday for \$8,000,000 province of British Columbia bonds which are expected to be offered on Monday. The New York bankers were acting with the Dominion Securities Corporation, A. E. Ames & Co., Wood Gundy & Co., The Royal Bank of Canada and Canadian Bank of Commerce.

Dillon Read & Co. today are offering \$672,000 City of Ottawa bonds at prices to yield from 3.75 to 4.15 per cent. On June 29 the province of Quebec will open bids for a \$7,500,000 issue of 4½'s, alternate bids being invited for 30-year bonds and for one or two-year bonds. Part of the issue will be used to pay off short time loan borrowed a few weeks ago to meet the maturity on June 1 of \$3,940,000 five per cent. bonds.

On July 7, bids will be opened for \$2,000,000 Montreal Metropolitan Commission bonds, of which one half will mature in 1953, and the other half in 1954. The securities of the commission now outstanding are quoted on mission now outstanding are quoted on the commission now outstanding are not n

"There is an old saying and a true one," said Dr. Edwards, "that no question is ever settled until it is settled in 1954. The securities of the com-mission now outstanding are quoted on a 4.80 to 4.90 per cent. basis. "There is an old saying and a true one," said Dr. Edwards, "that no question is ever settled until it is settled right. That truth is again being impressed upon us by the trouble which has arisen over the return to Alberta of its natural resources, the first false step having been in the special privileges granted by the so-called autonomy bill passed by the Laurier Government in 1905. Most, if not all, of the racial and religious differences which have destroyed the peace and unity of this Dominion have been influenced by party necessities and political expediency rather than by principle and the general welfare of our country.

NEW YORK, June 25—The market yesterday showed little change from the day before. Generally prices moved within a narrow range with a few specialities showing decided strength. The leading industrials met selling on advances, but resistance on declines. It is seems as though the professional crowd were ready to sell stocks as soon as the market advanced. The consequence is the short account is being increased again and we think it will finally be trarslated into higher prices. It may take some time longer, though, before the recent big advance in industrials is digested and before stocks are in a position to continue the remarkable advance of the past five weeks. So far as we can see, though, we think the trend of prices is still toward a higher level. The rails were a feature yesterday with the best class of carrier issues in the van. There is no reason why this advance should halt. We think good rails will soon continue to advance this summer. One of the spaculative carriers which may advance is Chicago and Eastern Illinois Freferred. On these weak spots in industrials Steel, GMO., MQ., Allied Chem. and American Smelting are purchases. We think Wright Aero and Radio can be bought at present prices, despite its recent spectacular advance.

Discussing the present situation over the Alberta natural resources, Dr. Edwards said:

"The King Government, at the dictation of the Quebec hierarchy, has served notice on Alberta that she will not secure her resources except at the price of her freedom. It has also gone forth that Saskatchewan and Manitoba are to be similarly treated.
