

OUTLOOK IS BETTER

People Are Looking For Quiet Under Military Law.

MADERO'S BODY GOES HOME

Majority of Mexicans Shrug Their Shoulders at Murder of Deposed Ruler—Election of New President Is the Chief Topic of Interest—U. S. Troops Will Stand Ready to Intervene.

MEXICO CITY, Feb. 25.—Confidence in the new administration is growing in the capital, conservative Mexicans and foreigners alike regarding what appears to be a probable military regime as the solution of the present difficulty. A revolution of sentiment has been created by the death of Francisco I. Madero and Pino Suarez, but the great majority of the Mexican people merely shrug their shoulders.

It is likely that there are a few chapters of that tragedy still to be written. The bodies have been removed from the penitentiary, pending the transference of Madero's to the family home at San Pedro de Los Pinos, in the state of Coahuila, and that of Suarez to Yucatan, permission having already been granted.

One afternoon paper in Mexico City denies the stories of the attack on the Madero guard, alleging that the affair was carried out in accordance with prearranged plans. But the Mexican Government appears honest in its endeavor to place the facts before the world by means of a judicial investigation. This investigation will probably not be concluded for some days.

Already the political world is turning to the elections. It is said that Gen. Felix Diaz will have as his opponents in his candidacy for the Presidency, Francisco de la Barra, the present Minister of Foreign Affairs; Rodolfo Reyes, son of Gen. Bernardo Reyes, who was killed in the first attack on the palace, and Dr. Francisco Vasquez Gomez. Friends have begun a campaign in behalf of these various candidates.

The holding of the elections will depend upon the state of the country, but President Huerta insists upon a free choice of the people when peace is restored, which will make this possible.

Another Ruler Deposed. CHIHUAHUA, Mex., Feb. 25.—Gen. Antonio Rabago yesterday was inaugurated governor of the state of Chihuahua, in succession to Abram Gonzales, who has been imprisoned on the charge of being implicated in an alleged plot to blow up the federal barracks with dynamite. The plot, it is said, was revealed by one of the conspirators.

A force of volunteers who had refused to recognize the new Government surrendered to Gen. Rabago's troops, only after cannon had been trained on their positions. Most of the volunteers then joined the federal forces.

Marcelo Acaaveo and his insurgent adherents, have been incorporated in the federal army and it is reported that the followers of Gen. Zalazar and Antonio Rojas are about to enter the city for the purpose of declaring their allegiance to the Government.

Things Going to Galveston. WASHINGTON, Feb. 25.—Military orders flew thick and fast yesterday in redemption of President Taft's promise to have an army of 10,000 men assembled at Galveston, the most convenient port to Mexico, and ready to execute any order that his successor might choose to issue upon the basis of the conditions that will exist after March 4.

Resolution Urges Intervention. COLUMBUS, Ohio, Feb. 25.—A resolution introduced in the lower House of the Ohio Legislature, late yesterday, by Representative Kennedy of Lima, calls upon Congress to provide at once "for armed intervention in Mexico." The resolution declares that the Mexican authorities have shown their inability to quell the various angles of revolution in that country, and that intervention by the U. S. would be in line with the Monroe doctrine.

POWERS OVER COMPANIES. Big Legal Case Opens Before the Supreme Court.

OTTAWA, Feb. 25.—That if the Imperial Parliament were to be given all the power that the Dominion Government's counsel in the case allocated to it, it could establish a state church in Canada and thus fulfill the desires of many people, was the statement made by Justice Idington at the hearing of the companies case before the Supreme Court yesterday.

The case is in reference by the Governor-General in council of questions respecting of respective legislative powers of the Dominion and the provinces of Canada under the British North America Act in relation to the incorporation of companies.

At the afternoon session E. L. Newcombe presented argument in support of his contention that a Dominion incorporated company could carry on business within a province without obtaining a license and was followed by his colleague, Mr. Atwater.

Britain Is Alarmed. LONDON, Feb. 25.—The foreign airship bogey is again creating alarm in Britain. A story is circulated in well-informed quarters that some power is conducting important experiments in dirigibles over Britain. The evidence seems conclusive that some mysterious aerial visitors are continuing their flights over this country. Many persons are prepared to swear on oath they saw it pass over Selby Abbey, Yorkshire, on Friday night, making its way toward the east coast in the neighborhood of Berby, where there is an important arsenal.

INTERFERED WITH POLICE.

Brantford Hoodlums Try To Prevent Arrests.

BRANTFORD, Feb. 24.—Following the arrests of two disorderlies here Saturday night, there was another riot in which several thousand people gathered around the police station. Trouble was threatened, but the police persuaded the assembly to break up peacefully.

H. Rowland was first taken into custody, charged with creating a disturbance in the Gem Theatre. The second arrest was that of Harry Wilson, charged with being disorderly in Brewster's store.

Friends of Wilson called on the crowd to prevent the police from arresting him and disgraceful scenes were enacted during which the patrol wagon was shuffled around the block and the police given a rough time. Both arrested were finally effected. There was danger of an assault being made on the police station owing to the turbulent spirit of many in the crowd.

Wilson is charged with being a participant in the riot here prior to Christmas and was out on bail of \$2,000 when arrested.

Another disturbance occurred Saturday night, when after an arrest made on Colborne street a crowd gathered around the police station and attempted to place the men in the patrol wagon. At nine o'clock a couple of men started scuffling in Brewster's store and were taken to the station.

A disturbance also happened in the Gem Theatre afterward, and an Indian was taken to the station for causing trouble there.

POOR WESTERN MEN!

Abdul Hamid Does Not Know How They Tolerate the Women.

BERLIN, Feb. 24.—Another selection of chapters from the diary of Abdul Hamid, appears in the March number of The Review Nord und Sud giving his views on women. The ex-Sultan of Turkey says: "The countless divorces and scandals in Europe and America show that many men in those countries incline to polygamy. The west has an entire misapprehension regarding the position of women in Turkey. Even though woman is fortunately debarred from taking a part in Turkish public life, and is compelled to leave everything to men she at any rate is an autocrat at home."

"As I observe the stern imperious facts regarding western women in comparison with them easily favored our women. Why do the people of the west criticize our women? Which is more sacrificing or more beautiful, the Oriental woman or the European? In Turkey woman belongs to her home, belongs to her many liberties to remain womanly. If only half one reads in the newspapers and books about western women be true then the lot of the men there must be truly lamentable."

NEARLY SLEW BOY.

Alberta Woman Charged With Shooting Steppson.

EDMONTON, Alta., Feb. 24.—Mary Mogush, who is charged with attempting to murder her 12-year-old stepson, Akin Mogush, at Bashaw Jan. 10, was brought to Edmonton Saturday by Constable Clifford of the Northwest Mounted Police. The woman has been committed for trial, and the case will come up at Wetaskiwin next assizes.

Previous to the shooting, it is alleged, Mrs. Mogush repeatedly threatened the lives of her two stepchildren, of whom she was insanely jealous. In a fit of unreasoning anger she willfully shot the boy, Akin, the bullet entering his forehead. She afterwards threatened Francis, the nine-year-old girl, with the same fate, but was prevented from committing the deed and placed in confinement. The boy's condition was at first critical, but has since improved.

PREY TO MEDDLERS

Canada Suffering From La-di-dah Britons, Says Carvell.

PATRONIZING THE DOMINION

Conservatives Have Been Inconsistent In Rejecting the Chance to Revive the Shipbuilding Interests of the Maritime Provinces, Says Mr. Kyte—The Naval Debate Continues in House of Commons.

OTTAWA, Feb. 20.—F. B. Carvell took strong exception yesterday to the patronizing meddling to which Canada had been subjected at the hands of an indiscreet and ill-advised wing of the British Unionist party, who mistake jingoism for imperialism. By the conduct of these voluntary evangelists a majority of the Canadian people were being arrayed in suspicion against much of what the party which they essayed to represent stood for.

"Englishmen are not all la-di-dahs with a round pane of glass stuck over one eye, ah-ing and oh-ing and talking Empire-saving," he declared. "Many of them have two eyes, strong clear eyes, and have them open. They are doing their part in Empire building."

The naval debate was resumed by Mr. Carvell (Carleton, N.B.), who had spoke at some length Tuesday evening. He said it was absurd to represent all the nations of the world as mimicking to England. The United States, for example, would never stand idly by, while the British Empire was being destroyed. "I am not appealing the Monroe doctrine," Mr. Carvell explained, "but I am recalling what happened in Manila Bay and I am relying upon the instinct which would prompt all branches of the Anglo-Saxon race to combine autocracy and militarism."

Mr. Crockett declared the Liberals had based their argument on purely mercenary local and industrial grounds. The two arguments most used by them were that, if a local navy were constructed, the shipbuilding consequent upon such a course would help the country. The other was the claim that our autonomy was menaced. He declared both of these arguments to be pure nonsense.

He said that an arrangement had already been entered into between the Prime Minister and the First Lord of the Admiralty, whereby Canadian shipyards would be given contracts by the British Admiralty for the construction of naval vessels.

Mr. G. W. Kyte (Richmond), who followed, spoke of the inconsistency of Premier Borden and Hon. Mr. Hazen in promising the Maritime Provinces that the Government would take every opportunity to revive the shipbuilding industry, and then turning down the opportunity offered toward establishing this industry as involved in the Premier's naval proposals. He quoted Hon. Mr. Doherty's speeches declaring that there was no constitutional authority for Parliament making a money grant to Britain without securing the consent of the electors. Now the Minister of Justice, he said, with other members of the Cabinet, were taking a directly opposite course.

Mr. Armstrong (N. York) said he had no doubt but that all the members of the House would support the proposal of the Government if they believed an emergency existed. He asked how this question of fact could be determined. Assuredly no private member on either side of the House was able to decide the point, but he believed it was their duty to accept the assurance of the Prime Minister, who had received confidential communications from the Admiralty.

"If I thought this bill," Mr. Armstrong concluded, "was the forerunner of other contributions which I would be first to vote against, I would I deeply honorable gentlemen opposite to show that this is the first of a series of contributions."

Mr. J. J. Hughes, Prince Edward Island, followed along on the Liberal side till midnight.

PRICE OF PROTECTION.

New York Hotel Keeper Paid \$50 to \$100 Every Month.

NEW YORK, Feb. 20.—Additional figures to show the enormous proportions of alleged graft payments to the police were obtained by District Attorney Whitman yesterday. Twenty saloon and hotelkeepers were questioned by Mr. Whitman and his assistants in his graft investigation, and appeared before the grand jury, which he repeated his statements that he was assessed from \$50 to \$100 a month by the police for protection. Wilkins was so frightened after being questioned by an assistant district attorney that Mr. Whitman rushed him before an ordinary grand jury, not daring, he said, to wait even one day for the extraordinary grand jury to convene to-day.

Will Use Electrified Road.

LONDON, Ont., Feb. 20.—The Pere Marquette Railroad, the present lessee of the London and Port Stanley Railway, the city's road which Hon. Adam Beck proposes to electrify, has written Mayor Graham to start negotiations to operate its steam trains over the line if the deal goes through. The contention has been held that the steam roads now using the line, the Pere Marquette Railroad and the Michigan Central Railway, would cease using the line if it were electrified.

London Women Boycott Merchants.

LONDON, Ont., Feb. 20.—Downtown merchants have refused to deliver goods to the newly-annexed suburbs of the city, and the women of those districts have instituted a boycott against them. A committee was organized to secure the names of such merchants as refuse to send their delivery wagons beyond the old city limits.

MAN'S WONDERFUL ACHIEVEMENTS

Pastor Russell Visits the Canal Zone at Panama and Colon.

The Marvels of the Canal—Intellect at Work—Steam, Electricity, Machinery, the Slaves of the New Order—Future Glories Anticipated—Man, the King of Earth, to Be Reinstated.

PASTOR RUSSELL

Panama, Colon, February 23.—Pastor Russell manifested a keen interest in the great Panama Canal work, which is speeding to completion. He took for his text Psalm 84, "What Is Man?" He rehearsed human engineering feats of the past—the Tower of Babel, the great city of Babylon, the Great Pyramid of Egypt, full of scientific accuracy and symbols of Heavenly things; Solomon's Temple and Herod's, the Cathedral of St. Peter's at Rome, and other great cathedrals, each wonderful in its way, were referred to as examples of man's skill in the past.

All these stately edifices, the Pastor declared, glorify man's intellectual power not less than do some of the legal statutes of the past—the Mosaic Law, the Laws of Lycurgus, etc. These achievements refute the thought that our forefathers were monkeys or only a step or two in advance of the apes.

Within the last half century, human intelligence has bounded forward in a most remarkable manner. The telephone, the telegraph, the wireless, steam power, electric power and light have given talents a wider scope than ever before. They have forwarded the art of printing, which, in turn, has stimulated education. World-wide intelligence is making the world fabulously rich. Millions are on the alert to associate themselves with the new things and the resulting prosperity.

The Canal Illustrates All This.

Modern cities, with their multiplied conveniences, our tunnels, our subways, under cities, and all for which they stand, amaze us. As we realize that these things have come within fifty years, we repeat, "What is man?" How wonderful is the intelligence which has been able to grapple with nature, its laws, etc., and master them! Is not man a king in all the earth!

Nowhere is man's power to deal with earthly conditions more strikingly manifest than in the Canal Zone. We have here an illustration of mountain-moving faith. Six tons of Trojan powder exploded at one instant, crumpling an entire hill, is certainly a wonderful record. These great steam shovels which move enormous masses of loosened earth are marvelous. If only a few years ago, some one had told us that a man, by moving a lever, could lift six tons of earth, transport it an eighth of a mile, and load it upon cars, all in three minutes or less, we would have thought him insane.

Tells of Messiah's Day. We must accord our great progress to God. His time has come for lifting the veil of ignorance and superstition. We have been gradually knowing the favor of knowledge along every line. We to-day are merely taking advantage of this more extended knowledge, carried into homes and offices by means of printing presses, railroads, steamships, postal service, etc. Instead, therefore, of trying to believe our ancestors, let us confess that we have drawn from them deep inspiration along every line.

Let us credit our progress, not to evolution, but to the more reasonable proposition that God's time has come to give us the blessings promised in the Scriptures—the blessing which heralds Messiah's Kingdom. We have waited and prayed for it. Now that the dawning of the New Day is on every hand, let us not forget to be taught of God, reading in the signs of the times the fulfillment of the predictions of forty centuries.

What Will Man Become?

Our text intimates that man is poor, weak, fallen, unworthy of his Creator's favor and blessing. He is not deserving of eternal torment, but of the Divine sentence, "Thou shalt die," because of degradation through the fall. Yet God has made provision for man's recovery from sin and death. The foundation for his recovery was laid by the Sin-Atonement Sacrifice on Calvary. The blessings of that Atonement have been extended thus far only to a small number, such as would take up their cross and follow in the Saviour's footsteps.

But the selection of the Elect to be associates with Messiah in His Kingdom is only the beginning of God's favor to mankind. The Elect will soon be complete. Then the Kingdom will be established by Divine Power in authority and dominion, not to crush mankind, but for human uplift, out of sin and degradation, back to the full image and likeness of God. If fallen man can accomplish the wonders of our day, what will not be possible to restore man, under the favorable conditions of Messiah's Kingdom, for which the world of mankind has waited ever since God promised it to Abraham—four thousand years ago!

DOWAGER IS DEAD.

Mother of China's ex-Emperor Was Ill Only a Few Days.

PEKING, Feb. 22.—Ye Ho Na La, Empress Dowager of China, died at 2:30 o'clock yesterday morning. She was the widow of Emperor Kwang Su, who died Nov. 13, 1908.

The Empress had been ill only a few days. The actual cause of her death is unknown, but it is said the symptoms of her ailment resembled appendicitis. She was attended only by a Chinese doctor.

The former imperial family was about to remove to the inner portion of the Forbidden City, in order to make room for the Government in the eastern portion.

Ye Ho Na La was a daughter of Kwi-Siang, a Manchu general. She married Emperor Kwang Su in 1889. She was 49 years old, and the niece of the late Empress Dowager Tzu Hai. With the deaths of her husband and the Dowager Empress Tzu Hsi within two days of each other in 1908, Ye Ho Na La became Dowager Empress. With the accession of the baby Emperor Pu Yi, a son of Prince Chun, and the commencement of the reform movement, which resulted finally in China becoming a republic, Ye Ho Na La never had the sway in government that fell to the lot of her predecessors.

Ye Ho Na La abdicated Feb. 12 of last year, with the Emperor Pu Yi and the other members of the Manchu dynasty.

TO KIDNAP MINISTERS.

Suffragettes Said to Have Laid Plans for Abductions.

LONDON, Feb. 22.—An outbreak of fire, which is attributed to the suffragettes, occurred in the grandstand of Kempton Park racetrack last night. It was extinguished before any damage was done. The point of the outbreak was the ladies cloak room, immediately opposite that part of the stand set apart for the King.

It is asserted, on what is claimed to be the highest authority, that the militant suffragettes, in addition to other contemplated coups, have laid plans to kidnap certain of the Cabinet Ministers. The plot has come to the knowledge of the authorities, who are taking means to defeat it. Most of the Cabinet Ministers while in this country are shadowed by detectives who look after them to prevent annoyance by the suffragettes, but in view of the latest development special precautions will be taken.

For some reason not easy to understand the militants are most incensed with Lloyd-George, who is in favor of their cause. The Chancellor of the Exchequer is now at Nice, but on his return his safety will be the first care of the police from the moment he lands. Other Ministers who are being specially protected are Premier Asquith and Mr. Lewis Harcourt. It is stated that there is not likely to be any attempt made to kidnap Mr. Reginald McKenna, for the militants feel that whilst he remains Home Secretary they can resume their hunger strike tactics with impunity.

CARPET IS EXPENSIVE.

One Panel of Four Is Valued at Over a Million.

LONDON, Feb. 24.—At the Victoria and Albert Museum is now on view one of the four panels which make up the celebrated Pearl carpet of Baroda. The carpet was intended for the tomb of Mohammed at Medina, and is said to have cost \$5,000,000.

The most skillful embroideries, as well as the master jewelers of Baroda, were employed for three years in completing the work. Sir George Birdwood, in his "Industrial Arts of India," has described the carpet as the most wonderful piece of embroidery ever known.

In the panel shown at South Kensington there are 52 diamonds in the centre of each of the 24 border rosettes, and 405 in the large central boss.

DIVORCE BILL BEATEN.

Cloran's "Bigamy" Measure Is Defeated in the Senate.

OTTAWA, Feb. 21.—The Senate yesterday overruled itself, chiefly with questions of divorce, was handled from both the practical and theoretical sides.

Senator Cloran moved the second reading of a bill providing that, where divorce is granted in Canada, the person who has been found to have offended should be forbidden to marry again under penalty of prosecution for bigamy.

In support of the bill he declared it was a danger to society to allow those adjudged guilty of criminal offense to marry again. He condemned divorce as an evil, and said it was growing evil. He would go further than the bill and would send to jail the guilty party to a divorce.

Senator Knoch reviewed the history of similar bills in the British Parliament, and stated that they had all been rejected there.

Senator Power said that as the church to which he and Senator Cloran belonged did not recognize divorce, therefore the members of the church suffered no inconvenience or hardship through divorces. Such a bill as this had better have been introduced by a Senator who belonged to a church which did not take the same view of divorce. It did not seem possible for one Parliament to bind a future Parliament, as would be the case if Senator Cloran's bill passed. His purpose might be accomplished by a change in the Senate's rules. He favored this.

Senator Douglas favored legislation which would make it difficult for men to go wrong, but he thought the bill would prove ineffective.

Senator Dandridge liked Senator Power's suggestion that the divorce committee be allowed in each case to decide as to remarriage.

Hon. Mr. Longueue said the bill, by imposing an impediment to remarriage, seemed to infringe upon the statutory authority of the provinces over divorce so recently decided by the Privy Council. In view of the legal complications involved in this bill he thought it would be unwise for the Senate to pass this bill.

On division the motion for second reading of the bill was defeated by a vote of 12 to 27.
