THE LIBERAL PRESS AND THE GLOBE

It is a curious feature of the life of this city that two of its newspapers, the Globe and Telegraph, which enjoy the support of the business public...

The Liberal Press and the Globe are both published in Saint John, N. B., and have a long history of service to the community.

The Liberal Press is known for its independent journalism and its commitment to the public interest.

The Globe is a leading newspaper in the region, providing news and information to its readers.

Both newspapers are essential sources of news for the people of Saint John and the surrounding areas.

The Liberal Press and the Globe continue to serve the community with quality journalism and timely news.

The Liberal Press and the Globe are committed to providing accurate and reliable information to their readers.

The Liberal Press and the Globe are proud to be part of the media landscape of Saint John, N. B.

The Liberal Press and the Globe are dedicated to serving the needs of the community through their reporting and analysis.

The Liberal Press and the Globe are committed to transparency and accountability in their operations.

The Liberal Press and the Globe are proud to have a long and successful history of service to the community.

The Liberal Press and the Globe are committed to providing the highest quality of journalism and news.

The Liberal Press and the Globe are dedicated to serving the community with integrity and excellence.

The Liberal Press and the Globe are committed to providing accurate and reliable information to their readers.

The Liberal Press and the Globe are committed to providing accurate and reliable information to their readers.

1891 cannot be correct as five in number, and we challenge any enemy of St. John to answer them.

The number of children going to the public schools in the united city has increased from 5,924 in 1881 to 6,818 in 1891, an increase of 894 in school attendance at the rate of more than 15 per cent.

The number of families returned as liable to assessment for water rates in St. John North and South—there were no figures for St. John West in 1881, but in 1891 it was 1,158, an increase of 625 in 1881 to 1,783 in 1891, or at the rate of almost 15 per cent for the portions of the city named.

The number of houses in St. John has increased from 5,136 in 1881 to not less than 5,900 in 1891, or at the rate of 15 per cent, and these houses are much more fully occupied now than they were in 1881.

The increase in the number of houses in St. John, South has been 228 since 1881, although it is claimed the population of that part of the city has decreased by 1,700.

The post office revenue of St. John derived from the sale of stamps increased from \$32,774 in 1881 to \$42,214, an increase of about 30 per cent, showing that after making due allowance for an increase in the use of the mails, there must also have been a large increase in population.

The opposition met with another bad defeat last evening being beaten by a majority of 24 in their want of confidence in regard to the sugar duties. It is true that the farce of a meeting of want of confidence resolutions daily was ended.

We do not quite see the point of the St. John's statement that the opposition is plotting to fall. If we understand the situation aright, the opposition, as an office to be held in a state of collapse ever since the summer of 1878. It fell then in a great ruin and has never risen since. To say that a thing is plotting to fall implies that it is standing up which is certainly not true of the Liberal party.

The silly Telegraph devotes most of its editorial space today to woe and rain. It is intended to discourage the people of this province. As an office to be held in a state of collapse ever since the summer of 1878. It fell then in a great ruin and has never risen since. To say that a thing is plotting to fall implies that it is standing up which is certainly not true of the Liberal party.

It is not long since the first attempt was made to erect a mill in this city. The higher grades in the American market are being filled by the mills of the West. A new mill will be erected in the course of construction, and locally, Mr. Alexander, who contemplates erecting a large one this fall above the Point, and Mr. David Richardson of the Newcastle, will build at Diamond Brook about a mile below Campbellton, N. B. The mills will have a great effect on the industry and growth of the North.

A divorce was granted at Halifax yesterday in the case of Mary Jane McLean against Archibald McLean.

On Saturday afternoon last one of the men above Newcastle, a boy named Jack Jardine was accidentally shot. He was taken from his recovery.

While attending church at Milltown, Charlotte Co. on Sunday Mr. William Joyce, an aged resident of the town, fell to the floor in a faint and died shortly afterwards.

The Western Chronicle mentions the fact that Mrs. Palmer, of Long Island, Kings Co. N. S. has entered upon her second year. The old lady, who is 105 years old, is verily 105.

Mr. Nathaniel Heston, who lives with his son at Albany, P. E. I., is 92 years old, and his wife, who is a long-lived one, his brothers and sisters having all reached to between 80 and 100.

Johnnie Wilkins aged 50, was drowned while steam driving yesterday in the Bay of Fundy. A son of Joseph Forsyth of West River, Albert Co., fell from a raft yesterday morning and was drowned.

The Camels from St. John's N.B. for Bahia with a cargo of fish, was wrecked at St. John's, in the late gale as stated in the Gazette a few days ago. The bodies of Capt. Harvey's wife and four of the crew have washed ashore.

Miss Almer Huntington, of the Windsor Journal, is on a visit to Yarmouth, N. S. in the guest of her relative, Mrs. J. H. Hatfield. She is a daughter of the late Mr. Richard Huntington, editor of the Yarmouth Tribune, and a very old friend.

Wreckage of the late brig of the barque Carmella, of St. John's N.B., and three bodies have been washed ashore at Tin Cove, St. John's. The barque Carmella was built in Huddersfield, England, in 1872 and was owned by P. A. L. Lesmer, of St. John's N.B.

During the heavy storm of Monday night, the heavy stone of Monday night, the construction at Advocate Harbor, N. B. was blown from its foundation and badly wrecked. The dykes at Advocate Harbor were all flooded and much of the new masonry was fruit trees totally destroyed.

We have been shown a fine sample of marble from the town property of the season. This marble vein extends from the shore for over one mile inland. With every facility for shipment it is expected that this will be one of C. B.'s most paying industries in the near future—Sydney Reporter.

A gentleman of Charlottetown while coming from Georgetown recently reports what he considered a curious sight. It was a woman sitting on a mow cutting grass as skillfully as a man, and attached to the horse's head was a basket to prevent the animal from eating grain during the cutting.

Mr. Alex. Baker, an employe in the I. C. R. shops at Moncton, was killed with two other young men on a shooting expedition at Harlowe, 20 miles above Newcastle. The accident took place at 6.30 last evening. Baker was in the act of taking his gun from the ground when it was discharged by some means and lodged in his breast. He lived only ten minutes. The deceased was a young man and unmarried.

There are some good hay farms to be found in this valley in beyond question, and probably in no locality has

there been a larger yield than that taken from a portion of the farm belonging to Mr. Charles Cope, of Engleville, N. B. In the present haying season, he took from a piece of land measuring a little less than one and three-quarters of an acre, fifteen loads of splendid hay, weighing fully eight tons—Bridgetown Post.

A strange story comes from Mr. Deane. It tells of a man who has long been a resident of that place, but lately employed in Bala Verde, who has become quite demoralized and has taken to the woods, his only companion being a shot gun and large knife. When discovered by chance, he seemed very much afraid and made off to the woods again, like a wild animal.

Mr. P. J. Mahoney of Melrose, Westmorland Co. shipped a car of sheep to Portland, Me. Last week Mr. Mahoney has entered into partnership with Mr. H. S. Hastings of Portland, for the purpose of handling sheep and they will dispose of one and two carloads every week in the Portland market. Mr. Mahoney says the McKinley Bill has not affected their business in the least. The sheep are shipped from all parts of the maritime provinces and Quebec and Portland where they are slaughtered and the meat sold in that city.

Seventy years ago the farm of Ref. Barnaby in Cornwallis was covered with a heavy growth of timber. At present the place is one of the most highly cultivated and productive in this valley. The farm—a not large one—only six acres, of which 1 1/2 is under cultivation, has now on it not less than two and a half acres of various kinds, many of which are just coming into bearing. This year he expects, besides a large amount of garden truck already gathered, to raise not less than 3,000 bushels of carrots, 800 bushels of potatoes and 400 bushels of onions. The value of the crops of this year is not less than \$15,000—Kentville Chronicle.

Cerezo Parry, Esq., of Deep Brook, in Cansles, is the possessor of a curiosity in the shape of a cow or bullock's horn. It was finely polished and then engraved in a neat hand by the hand of a forgotten artist, for he must have been to have produced so fine a work and engraved as it is delineated there. A portion of the southern shore of Lake Ontario is a very fertile and productive tract. The position of the lake in that district, and the course of the Hudson river, is clearly shown in the map of the province. The position of the lake in that district, and the course of the Hudson river, is clearly shown in the map of the province.
