Here's One of The Best

A Bishop who has a liking for fine fruit once remarked that while the Creator could doubtless produce a better berry than the strawberry, doubtless He never had.

We often reflect the same words, slightly varied, would be true of the magnificent models of 20th Century Sults we are now selling at \$18, \$20, \$22 and \$25.

Some day as experience and skill show the way, better suits may be produced for equal money.

But we believe they have not YET been surpassed—if equalled.
Genuine, honest worth—INSIDE as well as OUTSIDE goodness—charactize these suits.

\$18, \$20, \$22, and \$25 for the exceptionally fine ones. But good honest value at all prices down to \$8.

If an accident should make necessary the amputation of your right hand you would submit to the operation only after the most expert advice procurable. Now a tooth is a much smaller thing than a good right hand, but the part it plays in the economy of health is great. The proper performance of its offices means strength of that right hand and health for the whole body. Get the best advice before you submit to the extraction of a tooth. Take the easy, modern, palnless Hale Method when you have it extracted.
