

# METHODIST DISTRICT SESSIONS POSTPONED

### Large Attendance at Sackville District Session at Albert—Churches in Fredericton Section Free of Debt.

Albert, June 10.—The Methodist Sackville District meeting opened at Albert Village on the afternoon of June 8th, under the chairmanship of Rev. J. L. Dawson. The attendance was good. Rev. Thomas Hicks is financial secretary and Rev. Charles Flemington was elected as secretary of the District journal. Rev. Gilbert Earle from the Trinidad and Barbados district, who has served on Shediac circuit through the year, was heartily welcomed. Henry Littlejohn, from Manchester, England, has spent most of the year on Elgin circuit and passed very satisfactory examinations. He is heartily recommended as a candidate for the ministry.

On Thursday morning the laymen assembled with the ministers and three earnest sessions filled the day. Rev. Charles Flemington was elected journal secretary. Aquila Lucas, statistical secretary, W. J. Kirby to the stationing committee. Prof. Hunton was leader of the laymen in their work and all the laymen were closely attentive to business.

The increases are always interesting. There is an increase of 108 in membership in the district. In general missionary funds an increase of \$27.10 and the increase of \$44.00 Women's Missionary Society funds.

The members of the district were happy recipients of the peoples' hospitality and expressed their gratitude to Rev. W. J. Kirby and to the people.

Statistics compiled by the Fredericton Methodist district meeting which adjourned yesterday afternoon show that a gross increase in the membership of the church in this district of 153 during the past year, the net increase being 97 members. There were 161 baptisms, 47 marriages and 108 burials during the year. There are 41 churches and 53 preaching places in the district, and the total value of church property, including organ and furnishings is \$101,600. All churches are free from debt.

Financial reports showed the grand total raised for all purposes in the district during the year to have been \$15,952.17. It was decided to have the district meeting in this city next year.

# MANY ATTEND FUNERAL OF REV. G. R. WHITE

### Large Concourse Met Cortège at Hampton and Accompanied Body to St. Martins Where Service Was Held.

Hampton, N. B., June 10.—The remains of the Rev. G. R. White, late pastor of the Charlotte Baptist Church, and formerly in charge of the St. John's church, were brought to Hampton, N. B., for interment. His wife and two children accompanied them. Here they were met by many friends including several ministers and laymen. The ministerial delegates to the annual meeting of the Sixth District, now in session, met the sad cortège and expressed their sorrow and sympathy with the bereaved family. There were several beautiful wreaths and floral offerings from Charlotte. The body was interred at St. Martin's.

An assault case from Barneville was continued in the stipendiary's court here today from last Friday. The court room was crowded and many witnesses were examined. Much contradictory evidence was given but the magistrate considered the charge sufficiently proved against John McDade to inflict a fine of ten dollars and costs, the fine being allowed to stand against his good behavior. William McDade, Jr., the other accused was let off on entering into his own recognizance to keep the peace for one year. The complainant was Dennis McDade and it transpired that an unfriendly feeling had long existed between him and other members of the family. Mr. F. M. Sprout conducted his case and Mr. T. P. Regan appeared for the accused.

# STEEL COMPANY WILL MAKE WIRE NAILS

Halifax, N.S., June 10.—Mr. J. H. Plummer, president of the Steel Corporation, announced today that a company had been organized under the auspices of the corporation to erect plants for the manufacture of wire, wire nails and other finished wire products.

The steel company's policy, hitherto, in this regard, has been to confine its business to the manufacture of wire rods for the supply of wire and nail mills throughout Canada, and this policy would be maintained if the business had remained, as at present, in the hands of independent concerns.

The proposed merger of the larger wire and nail mills, has forced the corporation to move in the proposed direction, for the protection of its own interests, and of the interests of its customers, who do not go into the merger, it will also serve the public interest by making a monopoly impossible.

The location of the new mills has not been definitely settled. A plant located within the steel works at Sydney, would have distinct advantages in the way of cheaper production but some disadvantages in regard to distribution, and it may be found best to build nearer the points where the products go into consumption.

# KELHER'S TRIAL IS POSTPONED

### Off Until Tuesday Owing To Attorney's Illness—Miss Mamie Hightower's Statement Denied—Kelher's Ignorance

Boston, Mass., June 10.—An adjournment until Tuesday next of the trial of Wm. J. Kelher, on a charge of aiding in the looting of the National City Bank of Cambridge, was made necessary after half a day's session today, by the illness of Attorney Conley, for the defense. Today's evidence was chiefly directed towards efforts to show that Kelher did not know that George Coleman, former bookkeeper of the wrecked bank had procured dishonestly the money which he gave Kelher for various transactions. Witnesses also were placed on the stand to contradict testimony given for the government by Coleman and Miss Mamie C. Hightower.

An official of a New York bank contradicted Miss Hightower's testimony that she had \$3000 on deposit in that institution, saying that while she had had \$2175 there, her account at present amounted to less than \$60. Two witnesses said that they heard Coleman say that Kelher had known that the money Coleman had given him was stolen from the bank.

# CALL DECLINED BY FREDERICTON PASTOR

### Rev. Dr. W. H. Smith Of St. Paul's Not Attracted By Offer Of \$3,000 From Western Church.

Fredericton, N. B., June 10.—Rev. Dr. Smith, pastor of St. Paul's Presbyterian church, has heard the call to the West; but he has not heeded it.

A committee representing one of the most prominent Presbyterian churches of the West and situated in the most prominent Presbyterian city of Alberta, recently approached Rev. Dr. Smith by letter and asked if he would accept a call to the pastorate.

It is understood that attached to the request was an offer of a salary of \$3,000 per year, which is considerably larger than he is in receipt of at present.

When asked this afternoon regarding the matter, Rev. Dr. Smith stated that it was his desire that the subject be given no publicity. But finally he said: "It is true that I have been approached by representatives of an important congregation in the West asking me if I would accept a call. I replied that I had only been here a short time, that the work here was progressing very nicely thus far and that I could not consider a call."

Rev. Dr. Smith has also received recently another invitation which he will be unable to accept. He has been asked to deliver the opening lecture at the Presbyterian college at Montreal in October. The principal of the college had read Rev. Dr. Smith's late book "The Church and Men," and was so impressed that he tendered the author the invitation to deliver the opening lecture at the college next fall, but owing to the Presbyterian Synod meeting at that time in New Glasgow, N. S., Dr. Smith cannot accept.

# 2ND VICE-PRESIDENT OF C.P.R. FOR GOVERNOR

### Reported That Mr. William Whyte May Be Asked To Fill Gubernatorial Chair of Manitoba.

Montreal, June 9.—The interesting report comes from the West and has gained a wide currency that Mr. William Whyte, the second vice-president of the Canadian Pacific, is likely to be the successor of Sir Daniel McMillan in the lieutenant governorship of Manitoba. Associated with this is the rumor of a knighthood for Mr. Whyte.

There can be no doubt as to the popularity of the appointment were it made, for among the prominent men out there Mr. Whyte takes an easy lead in public favor, but the lieutenant governorship is a goal to which statesmen look forward as a fitting reward for services to the country, of a political character. Mr. Whyte has kept himself aloof from party politics and hence, no doubt, in a measure his all-round popularity. It is not certain that Mr. Whyte would accept the position were it offered him. It may be doubted too, if he could serve the West in any other capacity better than he is doing now.

If Mr. Whyte has any intention of severing his connection with the C. P. R., it is not known at headquarters.

Signs Placed on Ballast Wharf. Signs warning trespassers to keep off the property of the Atlantic Sugar Refining Company, were put up yesterday on the ballast wharf site recently given to P. C. Durant by the Government. This is the first visible sign of the acquisition of the property by the sugar people. F. R. Taylor, legal adviser for Mr. Durant, had a week-end visit to St. Andrews, in which Mr. Durant said everything was going along well. So far there has not been any work at the site of the refinery, but Mr. Durant is expected in St. John shortly and a definite start will then be made.

# Lightweight Champion Fractures His Arm Before He Got His Man in Milwaukee Bout—Opponent Weak.

Milwaukee, Wis., June 10.—Ad Wolgast's first fight since he took the lightweight championship from Battling Nelson on Feb. 23, was a failure and he fractured his left arm. He fought ten rounds with Jack Redmond of Milwaukee in the same ring where he got his start to the championship.

In the fourth round Wolgast injured his left arm on one of Redmond's elbows and in the seventh he snapped a bone in the forearm about three inches above the wrist. Up to the time of the mishap he had a good lead but he did not work fast except when occasion demanded. From the 7th to the finish he was almost helpless and if Redmond had any energy he could have knocked Wolgast out. The newspaper decision gave the fight to Wolgast because of his lead in the earlier rounds.

Rev. Gideon Swim went to St. John on Monday and returned that evening. Mr. Edmond Simpson was in Sussex last Monday.

Rev. Samuel J. Perry, of the Luts Mountain circuit, was here on Monday on his way to St. John.

# FAILURES FOR WEEK SHOW INCREASE

New York, June 10.—R. G. Dun & Company's weekly review of trade tomorrow will say:

With a compromise effected on the question of railroad rates, which though depending, in part on action by congress on the railroad bill is regarded as satisfactory; and with crop prospects for both wheat and cotton decidedly good, the business outlook shows much improvement over last week. The improvement is largely sentimental but increases confidence almost invariably leads to increased trade.

Formal notice from the largest producers of cotton and woolen goods of an intention to curtail production very materially bespeaks the difficulties besetting textile lines as a consequence of the sub-normal demand and the pressure upon costs induced by the high and uncertain values on raw materials. Jobbers still pursue a hand to mouth policy in buying and selling agents await expected indications of an early breaking in the call for merchandise.

Manufacturers are purchasing in a limited way and there is some increase in the call for staple domestic, while the miscellaneous export trade continues quiet but fairly steady, the best markets being the Philippines and some of the South American countries.

Trade in footwear continues quiet and manufacturers throughout New England are running under materially reduced headway, but slight improvement is noticeable, as New England manufacturers are getting in more fall orders. Current orders are still backward. Leather is decidedly dull. Hemlock dry hide sole is fairly steady but there is considerable weakness in oak and union sole, and most kinds of upper leather and lower. Prices of hemlock tanages of harness and leather are chiefly affected and from 1 to 3 cents lower. Dullness and weakness characterize the hide market, and prices are lower on about all varieties of leather.

Leather and furs are chiefly affected and from 1 to 3 cents lower. Dullness and weakness characterize the hide market, and prices are lower on about all varieties of leather.

# FEEL THE STATE FARMS

### \$1,000,000 Syndicate Formed by Wealthy Men Will Finance Purchase of Abandoned Farms in New York.

New York, June 10.—Plans for the organization of a million dollar syndicate to buy up the run-down and unproductive farms throughout the State and to finance the farmers in the period in which the farms are being brought to a state of fertility under modern methods of agriculture are now under way. The syndicate's aim is to promote new and intensive farming and to prevent the buying up of cheap land for game preserves. The plan represents the ideas of President William C. Brown of the New York Central.

It is proposed to effect an arrangement with several banks, through which money will be advanced to the farmers who undertake to build up the run-down farms. These advances will be underwritten by the syndicate and will be repaid by the farmers when their farms have been put on a money-making basis.

"It is a novel, though practical, way of encouraging modern farming in New York State," says President Brown, "and one which will go further (to wit) in increasing the production of farm products here than anything else which has been suggested in many years."

The subject of increasing the fertility of farming land and improving present farming methods, lies very near to the heart of Mr. Brown, not only because of additional revenue which will accrue to the New York Central with the increase in production on the farms, but because of his personal interest in farming.

This new plan is the result of a close study of the conditions in New York State. It is the aim of Mr. Brown and his associates to bring about the purchase of 160,000 acres of unproductive land which can be bought at prices ranging from \$13 to \$50 an acre sell it to intelligent farmers at the same price paid by the syndicate, and exact a written contract or pledge that the farm must be operated as a farm and nothing else; that it can never be sold as a game preserve, or for any purpose other than a farm.

In explaining the plan yesterday, Mr. Brown said that while the details have not been entirely worked out, nor the syndicate organized, there was small doubt that such an organization would be effected soon. Mr. Brown said that he preferred not to be exploited in any way by the project, as it would not be a New York Central affair, but a move on the part of persons keenly interested in advancing the interests of the farmer and affording relief to them.

Land Merely Needs Refertilizing. "The only trouble with a large part of the land in this state is that it has become entirely exhausted. This has been due to the constant planting of only one or two crops. It has resulted, of course, each year in a smaller yield per acre until the land has got into such a condition that it yields very small returns. But this condition can be easily remedied. The main elements of the soil necessary for good crops are nitrogen, phosphorus, acid, and potash, and these elements can be quickly replaced in the soil by the liberal use of fertilizers, both natural and artificial, the sowing of legumes, such as clover, cow peas, and other things and by the proper rotation of crops."

"In Iowa, Kansas, Missouri and the Middle West, which is more than 1,200 miles from the eastern market, it is now selling for from \$100 to \$150 an acre, whereas in New York state, practically at the very door of the greatest market in the world, can be bought for \$13 to \$50 an acre, which in many cases barely represents the cost of reproducing the buildings alone."

"Let us take one instance where results from improved methods of farming were shown. On a farm near Salisbury, N. Y., where the old method, a thirty acre field produced less than 20 bushels of oats an acre, a five-acre field of potatoes produced less than 10 bushels an acre, and a five-acre field of corn yielded only 10 bushels a year. The following results were obtained: Oats, 56 bushels an acre; potatoes, 200 bushels; corn, 46 bushels; sugar beets, 50 tons to the acre, and hay, 3 tons to the acre."

"On another farm near Oneida last year the following average results per acre were obtained through careful attention to the needs of the soil: 35 bushels of wheat, with 15 tons of wheat straw; 21 bushels of rye, with 1 1/2 tons of rye straw; \$110 worth of string beans, \$80 worth of beans, \$60 worth of lima beans, \$50 worth of peas, \$40 worth of sweet corn, besides \$42 worth of squash. The average gross value of all crops raised on this farm was \$70 an acre. It only shows what intelligent attention to the needs of the soil can accomplish."

ered and the amount involved was \$25.51. After the plaintiff has closed their case the defendant asked for a non suit on three technical grounds, which was granted. The plaintiff is now appealing, and after listening to the argument of counsel His Honor set the non suit aside.

Mr. G. H. V. Belyea and Mr. Edward C. Weyman appeared for the plaintiff on review and Mr. H. H. Pickett for the defendant.

Candidate for Grand Master. Harry Sellen, W. A. Smith and Robert Merryweather will leave tonight for Kingston, Ont., to attend the annual meeting of the grand lodge of British North America and South Africa, Protestant Association of Prentice Boys, which opens in that city on Tuesday next. Mr. Sellen who now holds the office of three tons grand master, will be a candidate for the grand master's chair at this meeting.

Supreme Court Chambers. Case Withdrawn. In Chambers yesterday the petition of the Anglo-American Direct Tea Trading Co., which was presented to Mr. Justice McKeown, asking to have the H. W. DeForest Co., Limited, wound up, was withdrawn, a settlement having been reached.
