

GAYNOR TOO WEAK TO WALK

Makes Attempt While Being Removed From Hospital To Country Home — Thrice Sinks To Knees.

New York, August 28.—Mayor Gaynor was removed from St. Mary's Hospital in Hoboken this morning to Deepwell, his country place, at St. James, Long Island. He bore the trip well, but his insistent plea to be allowed to walk unaided resulted in three distressing incidents. The mayor left the hospital at 3 o'clock this morning. Drawn up in the courtyard of the hospital to give him a final salute were fifty orphan children cared for by the institution. He walked unaided from his room on the fourth floor to the elevator and from the ground floor to the automobile in which he was driven to a New York police patrol boat, waiting for him at a pier in Hoboken. In entering the automobile, however, he overestimated his strength and had difficulty in mounting the running board. His step was feeble, and his knees bent under him at every step. The Mayor sat up all the way to Island City and walked down the dock and across the gangplank unassisted. A wheel chair was at the dock for him, but he walked to an electric cab. Here the Mayor again miscalculated his strength in trying to get into the cab and sank to his knees. At his home, the Mayor attempted to go up the steps alone. He got only part way, then a pitiable show of weakness, fell upon his hands and knees. He was not injured. He spent the afternoon in the open air on his piazza reading and gazing at the country. To a neighbor who commented on the attempt to assassinate him Mayor Gaynor said: "I am content, my great hope is that the event will help to make me a better man and more patient and just."

MEET TO PLAN FOR INLAND WATERWAY

Delegates Will Gather At Providence This Week To Consider Chain Of Communication From Maine To Florida.

Providence, R. I., Aug. 28.—The promotion of a movement, conceived more than a century ago, to build a chain of inland waterways stretching along the Atlantic coast from Maine to Florida, is the subject which will draw more than 1,000 delegates to the convention of the Atlantic Depper waterways association in this city Wednesday.

Tuesday night, from the crest of many hills along the Atlantic seaboard from Kittery, Me., to Pensacola, Fla., bon fires will be lighted in emulation of the old Indian customs as beacons to guide the way to the pow wow.

More than \$25,000 of which the state and city each appropriated \$5,000, will be spent by the people of Rhode Island to show hospitality to the visitors.

Three years ago the idea of banding the cities of the Atlantic together for the purpose of furthering the inland water way plan, was put into execution in Philadelphia. The first convention was held in that city, and last year the meeting place was at Norfolk, Va. There is especial interest in the convention this year because of the fact that within the year the United States engineers will in all probability report to congress their recommendations regarding the proposed inland water course from Boston to Beaufort, N. C., for the survey of which the government appropriated \$100,000.

It is expected that every city along the Atlantic seaboard will send delegations. The official programme shows a formidable list of speakers including Commander Robert E. Peary, Congressman Richmond Pearson Hobson of Alabama, Willis L. Moore, Chief of the weather bureau, Washington; Rear Admiral C. S. Sperry, U.S.N.; Gov. M. F. Ansel of South Carolina; J. Franklin Fort, of New Jersey; Frank B. Weeks of Conn.; Aram J. Pothier of Rhode Island and many others.

The convention will be formally opened Wednesday morning, in the Providence Opera House.

The convention will adjourn Friday morning after an address by Commander R. E. Peary, Governor Pothier of Rhode Island will preside. The city has been elaborately decorated for the reception of the visitors.

JAPAN TO TAKE OVER KOREA ON MONDAY

Emperor of Japan to Become Absolute Ruler of Kermi Kingdom — Annexation Inevitable.

Seoul, Aug. 27. — The Associated Press is permitted to state that Korean sovereignty has ceased and that Mutsuhito, Emperor of Japan, will become absolute ruler of Korea next Monday, when the agreement between Emperor Yi Sze, of Korea, and Mutsuhito which was signed August 22nd will be officially promulgated.

ST. MARY'S WIN MANY LAURELS

Home Club Took Greater Number Of Events In M.P.A.A.A. Regatta At Halifax—O'Neill A Contestant.

Special to The Standard. Halifax, N. S., August 28.—In the second M. P. A. A. A. championship regatta held on the harbor here, most of the honors were captured by the St. Mary's rowers. Of the five events they captured three and got a second in the junior fours, which was won by St. Joseph's.

An accident occurred in the junior singles whereby Leverman, of the Arm club, and guest of St. Joseph's, were upset. Chisholm, of the Lorne's crossed the line first, but was disqualified for helping to cause the accident and the race awarded to Hart of the Arm club who finished second.

A Scallion of St. Mary's won the senior single in a close finish over his only rival, Turner of the Northwest Arm club.

The senior fours, the race of the day, was a great race, between St. Mary's and the North Stars, and was only won by the Salts by a length after a desperate finish. The St. Mary's senior four with Jack O'Neill the champion single sculler of America in the waist of the boat has not been defeated this year. No records were broken.

BARK KINGDOM ASHORE NEAR YARMOUTH, N. S.

Continued From Page One.

In an awkward position. The authorities in more places than Portland would like to talk with them, but that is just the one thing he does not want to happen. Mud Island is 30 miles from Yarmouth and about ten miles from the nearest telephone office.

The Lady Laurier, which is engaged in buoy and bell service arrived here today from Shelburne. Captain Travis saw the Kingdom, but as she displayed no signal of distress he did not approach her.

The Kingdom is a vessel of four hundred and ninety-one tons net and was built in East Boston thirty-seven years ago.

She was originally a merchantman, but was afterwards purchased by the Kingdom Yacht Club whose headquarters are in Portland, Maine. At present she has 200 tons of ballast on board which, if an attempt is made to save her, will be thrown into the sea. There were fifty people on board at the time of the accident, twenty of whom are the crew and thirty passengers, men, women and children. All the latter with a majority of the crew are located on Mud Island in tents or whatever other shelter they can obtain. There is no insurance on the vessel.

WILL WED AFTER TWELVE YEARS

Brussels, Aug. 26.—At last one of the few genuine love matches of European royalty promises to terminate in a wedding. Princess Clementine, youngest of the daughters of the late King Leopold and by far the best liked, will be the bride of an October wedding at the London residence of Eugenie, ex-empress of the French, and the happy bridegroom will be the

erstwhile pretender to the French throne, Prince Victor Napoleon, head of the Bonaparte family.

Twelve years ago the prince met and wooed the beautiful daughter of Belgium's king, but Leopold would not consent to their marriage for fear of offending the French government by having his family form a matrimonial alliance with the claimant to the French throne.

Recently the prince renounced all pretensions to the kingship business and Leopold having died, there was no further hindrance to their immediate wedding.

Princess Clementine is decidedly the most interesting of the unmarried princesses of Europe. She is a lover of opera and an able critic of music. She paints in water colors, writes entertainingly and does much charitable work among the poor of Belgium.

The practicality of the maintenance of a pretense of Korean independence and self government. It may be stated positively that Emperor Yi Sze and the former Emperor Yi Heui, who abdicated in 1907, willingly consented to Japan's proposals for annexation, the terms of which were extremely generous.

The Pipe Band Tonight. The St. John Pipe Band will play in King Square tonight and will render a splendid programme of music of ten numbers.

STORY OF RUBBER SCANDAL MAKER

HOW RUBBER TREES ARE "MILKED." A CINGALESE GIRL TAPING A RUBBER TREE IN A CEYLON PLANTATION.

Cotton for centuries was the scandal of the world because it spelled human slavery. Today rubber is the scandal of the world because it makes the consciences of twentieth century men as callous as slaveholding ever did.

The civilized world rose against Belgian rule in the Congo because of the unspeakable outrages committed on the blacks of that country all for RUBBER.

A few years ago an American "promoter" with fake rubber plantations in Mexico swindled tens of thousands of school teachers and others out of millions of dollars.

Today rubber is in high finance and in politics and doing satan's work marvelously well in both.

Rubber is obtained from the milky juice of the rubber tree. It is not the true sap, but a secretion which is not essential to the life of the plant. Cuts of such a depth that the wood is untouched are made in the bark, and through these wounds the "milk" flows into cups placed to receive it.

The natives coagulate this "milk" in various ways, sometimes by heating it over an open fire and occasionally by rubbing it over their arms, chests and legs. A wooden paddle-bladed tool dipped in the pan of liquid and when drawn out it is covered with a sticky substance. This is held in the smoke until the rubber is dry. This process is continued until the blade forms a center of a ball of convenient size.

The annual yield of one tree is from two to seventeen pounds. The trees are usually tapped at sunrise, when the "milk" is supposed to run more freely. The first incisions are made about six feet from the ground and each succeeding day incisions are made lower down until the ground is reached.

The product of the rubber tree is gathered in India, Africa, South America. Rubber forests of vast extent are being constantly discovered in these countries, especially in the Congo, Africa; Bolivia and other countries in South America. The largest quantity and best quality of rubber is furnished by the province of Para, Brazil, and all other varieties of the article are not to be compared with it.

Columbus after his second voyage to America, speaks of the inhabitants of Hayti amusing themselves with rubber balls. In 1615 in a book published in Madrid the author described a tree in Mexico which yielded rubber also the method used in collecting it and told how it was made into shoes.

The first shipment of rubber into the United States was in 1820. The manufacture of rubber began in 1820. Surgeons and chemists began to use it about that time, then Chas. McIntosh, a Scotch chemist, invented the waterproof coat, which still bears his name.

ENJOY A Vacation Trip

At the Expense of The Standard and New Star

Do Not Delay a Moment--Get in and Win. No such Opportunity ever before Offered.

SUCCESS

Means that the fortunate ladies will be enabled to witness of great sights of a lifetime. They experience one continuous round of pleasure from the very moment they start on these grand tours, until they return to their homes. Enfolded in the warmth of the Gulf Stream they experience all the joys and pleasures of Summer as the Beautiful Bermudas, upon whom Nature has lavished all her bounties, unrolls a never ending panorama before their eyes.

Not a dull moment, not a second without pleasure of some kind. Not the smallest amusement will be missed. To our "Tourists" it will be a case of on the go all the time; and such arrangements have been made, in transporting the ladies from one place of interest to another, that they will suffer no fatigue and will enjoy the panoramas constantly being unfolded, with all the comforts of travel that money and influence can possibly procure.

The ST. JOHN STANDARD AND NEW STAR will send nine women and a chaperone to New York City and the Bermuda Islands in October and every cent of expense from the time of leaving home until the return will be paid by these papers. The party will be chaperoned by a competent lady, and the contestant obtaining the greatest number of subscriptions to the STANDARD and NEW STAR will be accorded the privilege of selecting the chaperone for the party. The party will be accompanied, too, by representatives, who will look after their comfort and pleasure.

PLAN OF CONTEST.—The Province of New Brunswick has been divided into nine districts, as described below. The lady in each district receiving the highest number of votes will be entitled to the splendid trip. A coupon will be printed in each issue and will entitle the holder to vote when properly filled out. Paid in advance subscriptions will be entitled to vote in proportion to the length of time subscriptions are paid.

PLAN OF NOMINATION.—Any woman over 16, who lives in the Province of New Brunswick, is entitled to compete in the contest. She must be endorsed by three reliable citizens, who will vouch for the candidate's good character. Candidates may nominate themselves or their friends may do so for them. Read over the list of the nine districts, determine which one you or your friend is in, and send in your nomination. The rules of the contest are very simple. The list of nominations will soon be published and the voting will then begin. Get an early start for the trip is going to be worth while.
