Men's Tan Waterproof Boots.

Men's Black Waterproof Boots.

The most satisfactory boot a man can have is a pair of Dry Foot Boots. The selection of our fall and winter boots gives us a good deal of consideration. We are particular where the leather comes from, how it is put together, and by whom. The DOCTOR'S "SPECIAL," made by J. & T. Bell, of Montreal, who have been making good shoes for a hundred years, is a boot we can fully recommend. They are as near being absolutely waterproof as it is humanly possible to make boots. Imported calfskin in uppers. Leather lined throughout. Viscelized bottoms. Goodyear welt.

NO ALUM MAGIC READ LABEL BAKING POWDER

U.S. RAISES EMBARGO ON POTATOES

New Brunswick farmer will no wbe able to sell potatoes in U. S. where prices rule high.

The United States government has raised the embargo on potatoes which was placed in force over a year ago, and potato shippers here expect to do a big business with the States this year, as prices there are comparatively high.

Some weeks ago the Ontario government adopted regulations making it necessary for all potatoes shipped into that province to pass an examination by government inspectors instructed to prohibit the shipment of potatoes with the powdery scab. This regulation caused some inconvenience to local shippers at the outset, but has not stopped the shipment of potatoes from this province to Ontario, as there is very little powdery scab in New Brunswick. With the removal of the embargo by the United States, another and important market will be opened up to New Brunswick potato growers, and as the potato crop this year was large it will be a great advantage to the farmers.

"DRUMMING" UP A CROWD FOR THE DUGAL-CARVELL BANQUET

Advance Agent of the show a busy man—Free tickets and other inducements to get a crowd.

Special to The Standard. Frederickton, Dec. 1.—S. S. Carter, business manager of the Dugal-Carvell Hippodrome, arrived here tonight and is busily engaged in preparing for the banquet here on Thursday night to wind up the show season when F. B. Carvell is to honor himself.

Free tickets and other inducements that will work are being offered to gather a crowd, and the whole thing is in the interests of a movement fostered by E. S. Carter and F. B. Carvell to restore to New Brunswick what is a delightful and profitable "show" which the province enjoyed in the Pugley-Tweed regime prior to 1908. "When we get our hands back in the treasury again" will be the popular war song of the banqueters.

The funeral of ex-Alderman John McGoldrick, conducted yesterday afternoon from his late home in Rockland road, was particularly large, and in the cortege were citizens of all ranks, attesting to the general esteem and popularity in which he had for years been held. DOLL DAY ON WALL STREET

Few individual offerings and little investment demand—Lower prices generally.

New York, Dec. 1.—Apart from its greater breadth, due to increased offerings, today's market for listed bonds on the Stock Exchange continued its sluggish movement of the preceding session. The volume of business was slightly larger in the earlier hours, but it tapered off during the afternoon, the speculative issues contributing more than their quota to the day's total. Lower prices were generally established, and in some issues trading came to an abrupt halt because the low level fixed by the exchange had been reached.

So far as could be judged by surface conditions, a considerable proportion of the selling originated with banks and other financial institutions. Individual offerings were relatively small, and chiefly for out-of-town account. With few exceptions local brokers reported little investment demand, and it was generally believed that no pronounced inquiry was likely to develop until the price was further readjusted.

Money was the interesting feature of the day, its increased ease reflecting the further piling up cash at this center. Call loans were made soon after the opening at four per cent, and many time loans on all industrial collateral were effected at five per cent. Renewals of loans maturing today were, in virtually every instance, made on a basis more favorable than the original rates.

Retirement by local banks of all clearing house certificates was in itself an element of importance in the general monetary situation, and this was followed by further reduction to day of emergency currency. In fact, the New York banks now are almost free from all temporary aid as they were some weeks before the foreign disturbance began.

Steel trade authorities reported a better inquiry for certain lines of finished products, and the betterment in the copper industry found emphasis in resumption of dividends by several producing companies.

The Pennsylvania and New York Central roads submitted returns for October, the first named showing a decided falling off on its western lines, while New York Central made a substantial net increase for the entire system.

CUR DRY CANTEN AND "PRO-GERMAN" PAPERS

St. John, N. B., Dec. 1, '14. To the Editor of The Standard. Sir.—The Montreal Star to hand today in an anonymous letter, states that the Dry Canteen in the St. John Armory is selling what the writer chose to designate as anti-British and pro-German newspaper, the Boston American. Let me state that no printed matter of any kind is being sold in the St. John 26th Battalion Canteen. Newspapers, English, Canadian and American, were experimented with the first day but were quickly discarded because there was no sale for them. The papers included the Sunday (or "funny paper") edition of the Boston American, which on that date happened to devote no less than four illustrated pages on a laudatory article on Canadian troops and Canadian patriotism. However, that was nearly three weeks ago—no printed matter of any kind has been offered for sale since. The soldiers themselves know if my statements herein contained are true. Thanking you for this space, I remain,

Yours faithfully,
WALTER H. GOLDING.

Just One Application and the Hairs Vanish

(Modes of Today)

A harmless, yet very effective, treatment is here given for the quick removal of hairy growths: Mix enough powdered delatone and water to cover the undesirable hairs, apply paste and after 2 or 3 minutes remove, wash the skin and the hairs have vanished. One application usually is sufficient, but to be certain of results, buy the delatone in an original package.
