## Canadian Manufacturing Output \$1,392,516,953

Preliminary Report of Manufacturing Census Taken in 1916 Show Big Increase in Output, Capital, Payroll and Number of Employees  
—Maritime Provinces Share in General Increases

(Continued from previous page)

being some 7,000 less than in the previous census, but the salaries and wages showed an increase of about \$400,000, this indicating a considerable per capita increase in the salaries and wages of industrial employees within the province.

MANUFACTURES OF CANADA, 1916.

The following table shows the manufactures of Canada as divided among the products:

Group of Industries	Establish-ments	Capital	Value Products of
Food Products.....	6,470	\$198,246,942	\$377,811,758
Textiles.....	2,670	126,488,359	144,691,235
Iron and Steel.....	849	194,178,446	119,636,755
Timber, Lumber, etc.....	3,181	263,407,682	123,250,986
Leather and Products.....	523	60,081,498	70,975,644
Paper and Printing.....	1,306	138,544,786	74,038,498
Liquors and Beverages.....	341	52,283,857	34,859,927
Chemicals and Products.....	255	52,148,588	45,510,486
Clay, Glass, Stone, etc.....	771	96,371,573	27,228,413
Metal, Metal Products (except iron and steel)	1,173	174,621,994	90,943,278
Tobacco and Manufacturers.....	166	23,066,898	28,987,250
Land Vehicles.....	464	125,965,499	73,878,212
*Vessels.....	103	12,331,341	8,419,648
Miscellaneous.....	1,440	441,118,405	134,255,029
Hand Trades.....	1,579	26,135,559	38,129,834

\*(Will show much bigger in latest returns).

In these statistics a very creditable share of the total figures is contributed by the Maritime Provinces especially in such products as iron and steel, lumber and kindred products, textiles, food products, including canned fish and fruits and in other products. The biggest increase in the 1917 figures will be in vessels for water transportation which are likely to bring the total manufacturing production of Canada for this year well over the two billion dollars mark. Big increases in the food products as well as in iron and steel products are among the 1917 probabilities.

MARITIME MANUFACTURING PROGRESS.

The following chart indicates the progress of manufacturing in the three Mar-  
itime Provinces as shown in the increases in capital.

1900, \$57,409,352.

1905, \$103,562,430.

1910, \$117,734,618.

1915, \$174,434,956.

## THE RECORD OLYMPIC

THE GUARANTEED STEEL RANGE

Represents the most complete and only properly proportioned range on the Canadian market. It is guaranteed to be perfect in construction and operation, and is very handsome in appearance.

BURNS HARD OR SOFT COAL, OR WOOD.

The Record Olympic has been designed to meet the requirements of the most particular people. It embodies all the conveniences necessary to secure ease of operation with perfect control of fire, and economy of fuel, giving the most satisfactory cooking and baking results and making homework surer, safer, quicker and more economical.

The oven is large, square and deep, the steel plates forming the bottom being perfectly flat and remaining so permanently because of heavy cast-iron supports.

The reservoir holding nine imperial gallons is of pure copper, lined on the inside. It will positively boil water and assures a plentiful supply of hot water just when it is needed. The top of the reservoir, being flush with the top of the range, gives a large working service, and by a special damper the heat is quickly changed to the reservoir, bringing the water to the boiling point in a very few minutes.

The front surface of the stove forms a high-lift broiler section, a great convenience for broiling or roasting without smudge, serving as a handy feed door, and when open a check to the fire.

The closet door when let down forms a handy shelf on which dishes may be set, and the new draw-out grate prevents clogging or breaking.

All these ranges are supplied with the Record Oven Thermometer, the bodies are lined with heavy asbestos, and heavy nickel-plated towel rod runs the full length of the range.

Made in the following sizes:

No. 8-18, with 6 eight inch Covers and Oven 18 x 21 x 13 1/2.  
No. 9-18, with 6 nine inch Covers and Oven 18 x 21 x 13 1/2.  
No. 8-20, with 6 eight inch Covers and Oven 20 x 21 x 13 1/2.  
No. 9-20, with 6 nine inch Covers and Oven 20 x 21 x 13 1/2.

STOCKED AND SOLD BY DEALERS ONLY.

# Ogilvie's "Royal Household"

---The Flour supplied to His Majesty the King---is a royal favorite throughout Canada.

Ogilvie's "ROYAL HOUSEHOLD" is the "cream" of Canada's choicest wheat, milled by the Company which has made Canadian Flour renowned throughout the Empire.

Ogilvie's ROYAL HOUSEHOLD," is not a "specialty" flour. It is equally good for all baking--for Bread, Rolls and Biscuits--Cakes, Pies and Pastry. Insist on having Ogilvie's "Royal Household."

THE LARGEST MILLERS IN THE BRITISH EMPIRE

GEN. MAUDE'S CAREER.

Gen. Sir Stanley Maude, the captor of Bagdad, whose name is on every body's lips as the commander who retrieved the British disaster in Mesopotamia who drove the Turks from the valley of the Tigris and of the Euphrates and raised the British flag

over the city of Bagdad, is connected by marriage with a well-known Portland family, his brother-in-law, the Hon. Basil Taylor, having married an American, a daughter of the late Gen. Osgood and a niece of Mrs. James Hopkins Smith of Portland and New York. Gen. Maude, who is himself

six feet and three inches in height, has a son of 19, who has just joined the Royal Artillery as lieutenant, who is six feet and nine inches, the tallest man in the British army. Lady Maude, who is related to many great houses in England, is a daughter of Gen. Taylor, who was in Lord

Beaconsfield's cabinet and who five times declined a peerage in Queen Victoria's reign. An ancestor of Gen. Maude was a companion-in-arms of William the Conqueror. Gen. Maude served in the Sudan campaign and the Boer war, 17 years ago, winning the Distinguished Service Order and

Maude spent several years in Ottawa as the general secretary to the governor-general of Canada and made frequent trips to the States during his residence in Canada. Sir Stanley served in the Sudan campaign and the Boer war, 17 years ago, winning the old records as having received land in the reign of William Rufus, waiting--Portland Telegram.

that of the Bath. His family is a very ancient one and the name of Maude is an English corruption of the name of De Montalt, born by one of the companions in arms of William the Conqueror, and the name appears in the old records as having received land in the reign of William Rufus, waiting--Portland Telegram.

and the name also appears in the records of heraldic visitations under Edward IV. and Henry VIII. The name has been connected with the reign of Queen Victoria, one of the family having been a great favorite and one of Queen Victoria's lives in waiting--Portland Telegram.
