

PREMIER SPENT ABOUT CHANGES IN HIGHWAY ACT

Hon. Mr. Clarke Tells Municipalities Union That Co-operation of the People is What is Needed to Make the Law a Success—Commissioner Potts the New President—Valuable Papers Read—Next Meeting in St. Stephen.

Fredericton, Aug. 28.—The Union of New Brunswick Municipalities ended its tenth annual session this afternoon. Commissioner F. L. Potts, of St. John, is the new president. Warden A. W. Ridge-well, of Victoria county, was selected by the nominating committee but withdrew in favor of Commissioner Potts. The other officers are: Vice-president, Ald. F. C. Robinson, Moncton; honorary secretary-treasurer, City Clerk J. W. McCready, Fredericton; executive committee, Commissioner F. L. Potts, St. John; Mayor G. G. Stothard, Newcastle; Mayor Moses Mitchell, Fredericton; Mayor P. Parker Grimmer, St. Stephen; county secretary-treasurer, Charles L. Peck, Albert county; Ald. C. A. Alexander, Campbellton; Warden Henry Smith, Fredericton; County Secretary J. King Kelly, St. John; Mayor F. W. Wallace, Sussex; Coun. C. D. Campbell, Sackville; Coun. H. D. Patterson, Lincoln, Sunbury county.

The closing hours of the convention were so crowded that consideration could not be given all items. In view of this it was decided, on the motion of Warden Smith, of York, to limit the number of papers to be read at future conventions of the union.

On invitation of Mayor Grimmer, of St. Stephen, that town was selected as the next place of meeting. Hon. George J. Clarke, premier of the province, was present this afternoon and delivered an address of some length. He dealt particularly with the highway act of the province and said that co-operation of all classes with the government was what was necessary to make the highway act workable. He compared it with the Canada Temperance Act, which all knew was not enforced, but which, he said, could be enforced in any county if the public were behind those in whose hands was the enforcement of the act. Citing instances in Charlotte county, the premier said that there were people who would leave holes in the highway in front

of their residences for months in order that they could criticize the roads. In the evening several papers were heard. A. M. Belding, of St. John, read one upon the Municipality and Welfare Work. This was referred to a special committee which brought in a resolution that the provincial government be urged to appoint a superintendent of dependent and neglected children for the province and also in favor of the establishment of an industrial farm for juvenile delinquents.

J. B. Dargett, secretary for agriculture for New Brunswick, gave an address on the agricultural possibilities in the province. G. G. Murdoch, of St. John, read a paper on Sanitary Drainage, and Dr. B. M. Mullin, of St. Mary, one upon Medical Inspection in Schools. F. St. John Blinn, secretary-treasurer of York, gave a brief sketch of the organization of the province by Governor Carleton in 1785 and the development of municipal government which followed. Dr. George G. Melvin, of St. John, read a paper on Water Supply and its Relation to Public Health, which was of much excellence. It was referred to the executive for special consideration.

The report of the special committee on the report of the president was adopted. That they recommend the appointment of a provincial engineer on highways; the application of the patrol system as far as possible and the removal of the highways act from politics; the appointment of a permanent secretary and the re-election and remuneration to be left with the executive.

They congratulate the city and county of St. John on the setting into operation of the Children's Protection Act and trust that the cities and towns of the province will make full use of this splendid piece of legislation. The committee also recommended the appointment of a permanent committee to consider the establishment of a pension fund for civic employees.

With the setting of the last crib on Monday last, the work at the Cape Tormentine terminal in connection with the P. E. Island car ferry, may be said to be very near completion. While the finishing of the cribwork is within sight, this does not mean that the whole work on the mainland terminal is likely to be finished before the end of the year at least, and Cape Tormentine is still the scene of the great activity which has marked the place during the last three years. At the present time, besides the terminal, there are two dredges at work in the harbor, working night and day, dredging out the approach to the ferry landing, and a big stone breakwater is in course of construction.

After the service, tea was served by the ladies of the congregation in the Orange hall, near by. From the editorial page of East and West we copy the following interesting paragraph: "It is stated that, in thirty-three Presbyteries of the United Free church of Scotland, every son of every man who is eligible is now serving with the armed forces, and that in forty-seven Presbyteries, ninety per cent of the sons of the man are serving. Even in Canada, where the process has only fairly begun—for our contributions of men for the front must yet be doubled—an instance is given of a congregation in which all the men eligible for service have gone. In a summer holiday community where there were well-nigh a score of grown sons and brothers last year, practically every son of these is either at the front or on the way thither."
