

WATERLOO NEWS RECORD

SHORT BUT BUSY SESSION OF WATERLOO TOWN COUNCIL

Council Urge Inspection of Skating Rink by Provincial Inspector.

CITIZENS OBJECT TO PAYING FOR OILING.

The regular monthly meeting of the Town Council was held last night and while the session only lasted two hours considerable business was transacted. In the absence of Mayor Kuntz, Reeve Bohlender occupied the chair and all the members were in their places when the meeting was called to order at 8 o'clock.

There was a deputation from residents of North King street composed of Messrs. Veltel, Bergman, Loveloy, Kutch, Hohmeler and others who strongly objected to paying the full amount for street oiling. They claimed that as the street was only oiled once during the season and while the rate was struck at two oilings that they should be allowed a refund of practically one-half. The service had been anything but satisfactory and they felt that an injustice had been done them if they had to pay for something they did not get. This same argument was put up by Mr. Harry Wolfe of 227 street, and also by Councillor Cochrane. Deputy Reeve Stroh, chairman of the Board of Works explained the difficulty experienced in securing labor and teams the past summer and while he favored a refund to residents on King street that was as far as he would go.

At this juncture Mr. Wolfe started in to relate a little story that put him in mind of Mr. Stroh, but he did not get very far with it, the acting mayor telling him they did not care to have any vandeville stunts pulled off in the Council chamber. Mr. Wolfe, however managed to say that the chairman's explanation did not amount to much, he saddling it on to the road foreman and then the town engineer. If you are gentlemen he said you will at least refund us one-half the oiling tax. There was considerable more discussion on the matter when it was finally decided to refer the matter to the Board of Works to deal with it and report at next council meeting.

Property Has Been Accepted. The town council accepted the offer of the G.R.R. for the transfer of approximately 3.51 acres of their property to be used for municipal purposes only, and the clerk will communicate with the officials thanking them for the generous offer.

Refund of Taxes. Mr. Adolph Egner was granted a refund of \$2.00 dog tax while Mr. Fred Egnel who is a returned soldier and had paid his poll tax was also granted a refund of same.

No Action Taken. The Council took no action on the request to send delegates to the town planning convention to be held in Hamilton on Nov. 27th and 28th, and also on the request of the Canadian Good Roads Association of Canada for the annual fee of \$10.00.

No Action was taken on the request of the G.W.V.A. re exemption of taxes for a certain period, the Council being of the opinion they did not discriminate between owners and tenants.

Police Report Not Satisfactory. Chairman Stroh of the Police Commission, read the report of the fines resolved up to the end of August, showing that the total received in the four months totaled \$88.00. In some cases the names of those fined were given while in others they were omitted for what reason he did not know. He favored having a By-law prepared giving the commission the power to run the police department. He stated that instructions had been given the Chief some time ago to have a stop put to the riding of bicycles on the sidewalks, but the practice was as bad as ever. He had spoken to the chief a few days ago about this matter and had been informed that one of the aldermen had told him not to lay a charge against a young man who had been caught in the act. He wondered who that alderman was, as no alderman had any authority to give an order of that kind. Councillor Sturm said perhaps the chief had meant him and told of a poor young fellow who had no father, riding a short piece on the sidewalk near the gas works to escape a mud hole. The circumstances were such that the boy could not pay a fine and in view of that he had asked the chief to be lenient with him. Mr. Sturm's explanation was entirely satisfactory, the councillors having heard him up in what he did. However, the police did not escape without some criticism, and while the police commission had not the power to run the department to their own way of thinking still they could recommend changes if they so desired and if their orders were not carried out the council had the power to have them enforced.

Hydrant for Bowman St. Residents. A Hydrant will be placed at the corner of Bowman and David streets, the Water Commission having decided to lay a four-inch main in his section on the above mentioned street.

Acting Mayor Bohlender suggested that the town engineer be instructed to examine the Waterloo skating rink to see if it is safe. He stated he had heard it was condemned and if that is the case it should not be opened to the public until it was put in a safe condition. The solicitor informed the Council that it was private property and unless the owners allowed the engineer to inspect it the council could do nothing. Reeve Bohlender still had something to be done to safeguard the public, as did some of the other councillors and the clerk was finally instructed to write the Provincial Department to have them send an inspector here and investigate.

No Aerodrome at Present. The Aero Club of Canada wrote asking if conditions were favorable for the erection of an aerodrome in town as Waterloo was on the proposed route. No action was taken.

Gravel Pit Not For Shooting Match. A local citizen asked the privilege of using the gravel pit to hold a shooting match, but as it is against the law to fire off arms in town the request was refused.

By-laws Given Third Readings. Two By-laws, one of them being of the different properties in town under the proper chairman and the other for the sale of a strip of land to the Snyder Bros. Company were given their third readings and passed. The latter By-law there was considerable discussion in regard to the price to be charged Snyder Bros. The land in question is 265 feet long by 16 feet wide, but as there has been no objection by property owners for the deed of this strip to the company at a nominal sum, the council by a vote of 5 to 3 set the price at \$100. When the By-law passed Mr. Cochrane took exception to the price stating as how the strip was the biggest of its kind in Canada and for the sake of a small profit of land which he earnestly urged to anyone, you want to block it by putting on an exorbitant price. You are willing to give a site and exemption of taxes to a new firm but ready to turn down a firm that is established. The procedure is not right by any means. The discussion commenced to get interesting when a motion for adjournment was introduced and carried.

A CORRECTION. "A couple of the young ladies who have been camping at 'SLIPPER INN' this summer are giving a private dance at the Orpheus Hall Waterloo, on Thursday evening next."

WILL ATTEND MEETING. An invitation has been received by the Water and Light Commission and other public bodies to attend a meeting in Galt on Thursday afternoon in connection with Hydro Radials at which Sir Adam Beck will speak.

The invitation has been accepted and Waterloo will be well represented a number having signified their intention of going.

George Harry Kutz, an Armenian sectionman, was killed by a freight train near Mount Pleasant on the Lake Erie & Northern Railway.

DIAMOND FIELDS SOLD. London, Nov. 4.—An Anglo-American company has purchased for about \$19,000,000 all of Germany's private and State interests in the diamond fields of the former German South-West Africa. Some protests are expressed over what is called the "secrecy of the deal" and allegations are made that the purchase was effected through undue influence in political quarters.

W. Scholtz who deserted from the army in Calgary and was arrested in Stratford, was sentenced to thirty days for stealing a bicycle and raincoat.

CLEANLINESS IS HEALTH

By the use of Gillett's Lye, house cleaning is made a pleasure instead of a drudgery. It softens the water and cleans thoroughly whether the dirt is visible or invisible. Destroys all bacteria and infectious germs, removes obstructions from drain pipes, closets, sinks, etc. Refrigerators are made delightfully fresh and clean by using one teaspoonful of Gillett's Lye dissolved in two gallons of water.

"TOM MIX" THE SENSATIONAL ARTIST

The Imperial, the movie house that produces films with a punch, has a real thriller the first half of the week when Tom Mix appears in Rough Riding Romance, and while this movie star has been seen here before in hair-raising stunts he outdoes himself in this his greatest film. The situations are unbelievable so hazardous are they, but there is no mistaking the fact that he really does them and if one has a disposition to see them without becoming excited then there was no person that that nature in the large audience which filled the Imperial at both performances yesterday.

Phineas Dobbs (Tom Mix), day dreamer, owns a small ranch in Cow Hollow on which he grazes, and he has visions that some day, somehow, his land will make him a millionaire.

Then comes a girl—held up at the town by her railroad trouble. Mix rescues her from the Cow Hollow bad man, and because of his bravery she begs him to follow her to San Francisco, where she'll need him.

Phineas has heard much of fairy stories from a youngster in Cow Hollow, who has told him of princesses in distress; and perhaps that's why he follows the girl, with many stirring adventures on the way, into the big city.

Then comes the fairy story! The girl's father turns out to be a Balkan king and she a real princess, both in distress and held by conspirators hoping to obtain ransom. But Phineas and his wonderful horse, in a series of the most hazardous stunts ever screened, liberates both princess and king.

For the fair lady's sake, Mix does a wonderful feat of a flying train, pulling himself up by his hair to the roof of a car.

For her sweet sake, too, Mix, the intrepid, makes that ride that gives you gooseflesh, four times up and down the double stairway of a palace, routed a crowd of conspirators and escaping with the princess.

For her sake Mix and his famous horse Tony tear like mad up six flights of iron escape.

For her sake he does a score of other hair-raising stunts—the like of which never before have been seen in moving pictures.

Then, bold in rescue but shy in love, Phineas returns sadly to the modest hamlet he calls home, believing that the "love stuff" in fairy stories does not come true, and striving to console himself in loveless fashion.

But the princess knew the woman's way of making fairy tales come all true, and she follows Phineas to little Cow Hollow—and no, she doesn't actually propose to him, but the fade-out of the picture makes the fairy tale complete. Backing up the feature is another episode of the Red Glove while a Mack Sennett Comedy completes a bill that is undoubtedly one of the best of the Imperial's long-list of sensational productions. The entire program must be seen to be appreciated and the S.R.O. sign will be the order to-day and to-morrow.

MARKING TIME ON G. T. R. DEBATE

OTTAWA, Nov. 4.—The debate on the third reading stage of the Grand Trunk Bill has reached that point where Government members are mostly silent and when the brunt of carrying on the discussion falls upon the Opposition.

Yesterday afternoon and evening the Government benches were but sparsely occupied while half a dozen members to the left supported the Fielding amendment which proposes that a Royal commission of railway experts and financiers enquire into the condition of the G.T. system. On arrangement no vote was taken yesterday and in the meantime the Senate is awaiting the arrival of the measure in that chamber, probably on Wednesday. The rumor has been revived that the Government will fill the existing four vacancies in the Upper House. Col. Gerald White, formerly M.P. for North Renfrew, and Hon. Martin Burrell, Secy. of State, may be among those elevated.

Mr. J. E. Kipper, contractor for the collection of garbage, wrote that he would not be able to continue his contract after December 1st, 1919, at the present remuneration owing to the increased cost of operation. To continue the contract he would have to get at least \$50 a month more than at present.

Mr. John Hofstetter also resigned for a similar reason.

The Canadian Good Roads Association wrote drawing attention to their work. Referred to the Board of Works. All members of the Council except Albert Schickler, Utley, Greb and Annum were present.

merely brought out the suggestion that there might be a request from the public.

Ald. Sass reiterated his statement. He also added that in regard to the Council of the conference several months ago having told the producers to mind their own business he believed he had made the remark that they should not interfere in the matter that was then before the Council and the vendors. He did not think it was right that they should, especially when it seemed that a monopoly would result among the dealers.

Ald. Zittel explained the fact that meat marketers do not put the weight on parcels. Computing scales which show the price and which suggest to the dealer only to put the price on the parcel, were the reason he said. If purchasers asked for it, of course, the weight would be put on it too.

Business Light

The business before the Council was light. The regular Committee reports which appeared in yesterday's issue were adopted without amendment.

Garbage Committee Report

The Garbage Committee through Ald. A. L. Bitzer reported as follows:

1. That the arches which have given away at the incinerator be repaired forthwith.
2. That the caretaker of the incinerator be authorized to purchase steel rails offered for sale at \$32.00 to replace wooden rails at present in use.

The foregoing report also was adopted.

Ald. Bitzer alluded to the necessity of doing something to improve the condition of Vernon Avenue for pedestrians. There is no sidewalk there.

The laying of a few planks for the fall and winter period may be the means of overcoming these conditions.
