

The Rt.Hon. Arthur Meighen - Page 2

Sept. 18, 1946

the first page are excellent. They are pithy and to the point. I wish we had a similar publication in this country.

I long for a good talk with you on many matters. These are dark and fearsome times, and it would do me good to have the benefit of your wisdom. Please remember that we are looking forward to a real visit from you when you next come to New York.

Meanwhile, Mrs. Hunt joins me in most affectionate regards to Mrs. Meighen and yourself.

Faithfully yours,

*Lawrence*
