

III. COOPERATION WITHIN THE COMMONWEALTH

The Committee agrees that it is desirable that speedy air communications be established and maintained after the war between the member nations of the Commonwealth. The Department of External Affairs has raised certain questions in regard to the wording of the report on cooperation within the Commonwealth, and it is understood that a note on this subject will be presented to the War Committee by the Under Secretary of State for External Affairs.

November 9, 1943.

J. R. Baldwin
Secretary, I.C.A.T.P.
