

## Hamilton Spectator Carnival Souvenir

### The Hamilton Sanatorium

KING STREET WEST.

THIS sanatorium, which is fully and moderately equipped for the accommodation of patients, is a new institution for Hamilton and one of which the citizens may truly be proud. It is devoted principally to the practice of X-Ray and Electrical treatment, in conjunction with Sprague's Hot Air, Massage and Mineral Baths. The best testimony that can be given to the virtues of this institution is the fact that it is nearly always full.

In this advanced age of scientific research few will dispute the value of electricity for treating disease. The old battery treatment is now almost entirely done away with and labelled useless, and whereas this old method was both ineffectual and painful, the appliances now used at this Sanatorium are most thoroughly effective, and may be administered without the fear of pain, and beneficial results are obtained according to the knowledge and skill of the operator, who must thoroughly understand the disease. The facilities for X-Ray examinations and the photographing of the body are unsurpassed in Canada; many cases of cancer and malignant conditions have been completely relieved.

Sprague's Hot Air Baths are known throughout the world; with these the Sanatorium is equipped, one bath accommodating the whole body and one for the limbs alone. Massage is administered, and the famous Ancaster Sulphur Springs form a source of supply for the water used in the mineral baths. The famous Incandescent Light Bath is also

EVENING AT THE PIERS

### Some Old Figures

IT was in the year 1840 that a joint stock company was formed for the purpose of erecting an hotel in the town of Hamilton. The act of incorporation limited the shares to two thousand pounds at £12 11s. each. The company was allowed to borrow £10,000 to complete the work. A few years afterwards an act was passed to enable the Hamilton Hotel Company to increase its capital stock to £60,000. The act also gave it power to borrow £10,000 on the security of its property.

The following table relates to this date in the history:

Years.	Population.	Amount of Property Assessed.
1836	2846	Actual value, - - - - - £ 44,920
1837	3367	do - - - - - 45,622
1838	3338	do - - - - - 52,130
1840	3342	do - - - - - 60,100
1841	3446	do - - - - - 64,812
1842	4260	
1843	4860	
1845	6478	do - - - - - 110,938
1846	6832	do - - - - - 113,720
1848		Annual value, - - - - - 60,737
1849	10170	do - - - - - 60,317
1850	10248	do - - - - - 61,350

The term "actual value" is not strictly correct; it is the value put on the property by law, and is in most cases considerably below the true value.

HAMILTON SANATORIUM BUILDING

effectively used for skin diseases, liver and kidney trouble. This is the most modern appliance now in operation, and has proven wonderfully successful. A more thoroughly equipped Sanatorium for the treatment of nervous and chronic diseases is not to be found in this country.
