Mr. D.D. Potter,
Secy. Nino Mining Co.,

Dear Sir,

Below you will find assays of samples handed from the Nino Mine for determination of gold values.

There was no gold visible in any of the material. The results given are the average of the entire samples submitted.

- # 1 Marked surface rock from main vein east of shaft
- # 2 From shaft on main vein
- # 3 From shaft on main vein
- # 4 Surface rock
- # 5 From shaft on main vein at 110' depth

Values are given in tons of 2000 pounds.

Yours truly,

H.D. Symmes
