

Hamilton Town-  
experiment was  
enty tons to the  
t the land seeded  
owed in the fall,  
ep. The furrows  
four inches deep,  
drills and mixed  
d in. The kinds  
Yorker No. 2.  
were planted on  
appeared above  
clean by repeated  
er 20th, when the  
ls, and there were  
favorable season,

ett, Clarkson, Ont.  
wberries had been  
barnyard manure  
enty tons of stable  
e 16th of May, and  
t and four inches  
oc lbs. being sown  
e plowing, 600 lbs.  
ver the crop. The  
to a set, were the  
which was done on  
The total number  
first day on which  
ound was harrowed  
et weather early in  
ppreciable effect in  
f saleable potatoes  
ks during the period

our, Victoria Road,  
cut to one and two  
six inches deep, the  
al amount of tubers  
e fit for marketing—  
nd-prize winner, but

Peck, Albury, Prince  
Ont.; but their yields  
A good return was  
9 1/2 bushels; but, as  
spring, he was ruled

, and the yields here  
fairly favorable season
