- " 83 Dame and Sackville.

Directions for giving an alarm from above boxes. Unlock and pull open outside door. Then pull the hook on the inner door down as far as it will go (ONCE ONLY) and let it go.

Instructions to Key-Holders.

Upon ascertaining that there is a fire in the vicinity of your box, unlock the outside door and pull it wide open. Then listen, and if you do not hear the little gong inside striking, proceed at once to give the alarm as directed above. If you do hear the gong striking wait until it has entirely ceased repeating its number of rounds before you attempt to pull the hook or knob.

If after pulling the box as directed, you do not hear the little gong inside striking or the Box working, shut the door and go to the nearest telephone to send in the alarm.

Do not attempt to remove your key from the lock as you cannot do so without injuring the lock or breaking the key. Some member of the Fire Department will release and return it to you.

Never open a Box except for the purpose of giving an alarm. Never give an alarm for a fire outside of the city limits, or for a fire which is a long distance away (unless you are on a line between it and the Fire Station) or for a chimney fire. All alarms should be sent in from the Box nearest to the fire. If possible always wait until the firemen arrive and direct them to the fire if it is not visible. Always close the door of the Box before leaving it.

Keep your key in a place where you can get it quickly when required and where it will be out of the reach of children and strangers. If you intend to remove from the house you are occupying, please return your key to the nearest Fire Station.

Notice to the public.

Any responsible citizen can obtain a key by applying at the nearest Fire Station.

Keys will be kept at houses in the immediate neighborhood of the Boxes.

Anyone having a telephone can use it for the purpose of giving an alarm for a fire.

Ten strokes on City Hall Bell or on the gongs, followed by the number of the Box, will denote a second alarm for the same fire, and call all the apparatus of the Department.

Two strokes on Bell or gongs (after an alarm is given), will signify that the fire is out.
