ows are dropping off in milk.-T. B. ONTARIO. CARLETON CO., ONT. BRITANNIA HEIGHTS, July 11.-We are suffering from a severe drought. The are sumering from a severe drought. The grain does not look promising. Most interes are busy at the hay. The hay rop is not as good as last year owing to the clover being very badly killed by the heavy froats in the middle of April. Out, Sée; beef, 11c; pork, 131-Sc a lb,--1.

HALIBURTON CO., ONT.

HALIBURTON CO., ONT. KIMOUNT, July 8.-The drought of the last two weeks has put a serious deek on the hay: old meadows are light: new meadows fair. Onts and whene look well, but straw will be short. Potatoes ind roots are late owing to the continu wet. Corn has made great growth dur-ing the last week. Potato bugs are bad. A car load of two-year-old cattle changed hands at \$5 a cwt. Sheep, 4c a lb. F tare is very good. Butter, 20c; eggs, 1 potatoes, \$1.10 a bng; strawberries, 15c box; pork, 10c; fowl, 15c.-J. A. S. T 15c a

boi: pork, 10c: fowl, 15c.-J. A. S. T. NORTHUMBERLAND CO., ONT. OAK HEIGHTS.-A successful picnic was hid on July 3 by the Burnley Farmers' (lub in the grove of Mr. Jas. Dillon. This club, although organized only last pring, has accomplished remarkable salts for its members. Large quanti f seed and other necessities required by armers have been purchased at wholesale that have netted a profit to the something like five hundred dol that have the The picnic nic was attended by farm-miles around, and was so t it is planned to make it ets for scenario that it is planned to make it is annual affat. An Indian hand was in altendance, and sports were held, after all sports and the start of the start and sports and the start of the start hard sport of the start of the start hard sport of the start of the of eights, On WELLINGTON CO., ONT.

their affalfa too closely last fall on so-count of the searcity of feed. Some fields of alfalfa suffered no damage. There is undoubtedly a great difference in the different variant difference in the different variant difference in the relation of the search of the search relation that the search of the search relation that the search of the search NERWALL JUNIT CO. ONT. KIRNWALL JUNIT CO. ONT. New Search of the search of the search buy at the hay. This errop is fairly heavy. When will be ready in about two weeks, but is very light, being badly frozen. Spring erops will be short. Gora is blow the average. Managel are late. From. Spring crops will be short. Gorn is below the average. Mangels are late. Hogs are lower, now selling at \$7.50; beef cattle, 6c; butter, 280; eggs, 280; outs, 520; wheat, \$1.06 and seed buckwheat, \$1 to \$140-0. A. W. BRANT CO., ONT.

BRANT CO., ONT. FALALAND July 10.-Farmers are bury at their hay just now. Alfalfa is all stored. It was not a very heavy crop, having been injured by the severo win-ter. Three is searcely any red clover, there is earcely any red clover, there is earcely any red clover, there is earcely any red clover, there is very little wheat, and thesting the second order of the second eros If we have plents of to be a good eros If we have plents of to be a good eros If we have plents of inder, Turnis and red, but growing most of them are thinned. Brant County most has difficient corposentative of agrinow has a district representative of agri culture, Mr. R. Schuyler, B. S. A., with headquarters at Paris. It is expected is expected that his work will be an aid to agricul-ture in this county, and a great help to the farmars - L.T.

This is the bis county, and a arrival time in this county, and a arrival time in this county, and a second time is a second time in the second time is a second tis a second tis a second time is

WOODSTOCK, July 15.-We are having a fine rain. Some fields of hay are very good; others are light. This year shows clearly the benefits of tile draining. The oats an w will spring crop is looking fine. Oats al headed out and very good. Barley will soon be ripe. Fall wheat is very poor.-A. M. McD.

HURON CO., ONT.

BLYTH, July 15 .- Sections have had lenty of rain, while other portions have ty of rain, while other portions have no rain for six weeks. Everything had had no rain for six weeks. Everything is suffering seriously for want of it. Hay will not be a heavy crop. Wheat on the whole will be a good half crop. Oats are going to be short, while barley is look-ing well. Apples will be a fair crop. Many orchards have a good prospect. The county will make an exhibit at Toronto this year in November. Roots and corn are not looking any too well.--R. S.

SIMCOE CO, ONT. ELMVALE, July 12.--Rain has fallen pretty generally throughout, and great improvement in the appearance of crops is noticeable. The hav crop will be particularly good, and all other crops mise well. Favorable weather for next few weeks will mean an abundant next few weeks will mean an abundant crop. On the whole the crop will be bet-ter on the lighter soil than on the wery heavy clay, where there is no under-draining. Where underdraining has been done no bad effects from the excess sive early rains have resulted—0.8 B.

MIDDLESEX CO., ONT. TEMPO, July 18.--Weather has been warm and dry. Lately there has been some fine showers. The hay crop was far ahead of last year. The horse flice has been bad this season, making it very disagreeable to drive, for these big green fellows bring the blood every time they bite. The corn had a hard struggle between the crows, blackbirds, poor seed and cold, wet weather. Many prices show the evidences of their fight. What was saved is looking O.K.-J. E. O.

saved is looking O. K.-J. E. O. ESSEX CO., ONT. HAEROW, July 11.—The farmers are busy haying, which is a short job. Cherries and strawberries were a light crop. Raspberries are now on. The tobacco is practically all planted, with a much smaller acceage than in 1911. Plants much smaller acreage than in 1911. Plants were very scare at planting time, which is June 140. The corn crop, while back-ward for the time of year, is gaining up now. Rain is needed badiy.--W.A.B. ARXER, July 15.-A. haver downpour of train has broken the backbone of the drought Pastures have suffreed consider-i ably, but other strops are little affected. Corn is doing well though late. Tobacco

is also late. Oats will be above average. Wheat is practically a failure. The hay harvest is over; only half a crop. Hogs are plentful, and are selling at \$7.50; wheat. \$1; corn, 75c; oats. 50c.-A. L. A.

are plentiful, and are selling at \$7.50; wheat, \$1; corr. 75c; oats. 5c; -A.L. A. KENT CO., ONT. WHEATS, July L1-CORD are suffer-ion. Thore, July L1-CORD are suffer-ion. Thore is a fair crop. Core is a must backward, and not a good catch on ac-count of bad seed; oats and barley good, and vegetable doing well. English and American land companies are buying American land companies are buying to \$100 an acc. Several lilling machines land, the prevailing price being from \$70 to \$100 an arcs. Several tilling machines are operating in this township for the companies, it being one of their methods of improving the land. We expect quite an influx of English and American settlers during the next year or two. There are quite a number here already. There are quite a number here already. Work is very plentiful and labor scarce. The Government is constructing a pier at the lake opposite the village of Wheatley, which is expected to be a boon to this neighborhood.-J. w

neighborhood --J. W. K. BRUCE CO., ONT. HEPWORTH, July 6.-The early spring erop on high land is good. Much of it on lower land was badly drowned out. Hay is mostly light. Grain that was sovied after the wet weather in the spring looks good, but is very late. There is a large quantity of corn and hubetwhest planted quantity of corn and buckwheat planted this year. Corn generally did not come up well. There is a large number of apple trees dead this year. I corpect from good. Fruit is not good.-J K. J. WALKERFORM, July 15 - Parmers are bucy at their har, which is under the average, except on new seeding on well cultivated and rich soil. There has been buckming to auffor. Smirt recovery division

cuitivated and rich soil. There has been no rain here since June 5. Light soils are been in some FAL Behan crows will be end and properly cultivated land is a good crop, but there are many poor fields. Roots were put in late, and the dry wea-ther is having its effect. Corn is soming on well. Pastures are drying. Small fruits are a light crop. As usual, farm help is searce, which forces the farmer to do a great de mores of the hard work himmed. - J REFY CO. ONT. RAVEENA, July 10.-We have had very dry weather during the month of June and the first of July. Last Saturday we had a heavy downgour of rain, which has done much good to the grain crop as well as the roots and corn. People are

has done much good to the grain erop as well as the roots and corn. People are busy haying. The crop is much better than was expected. Hogs are lower. But-ter, 20c; eggs, 20c. Collingwood market gives about two cents more a pound for butter than Thornbury does. These that had buckwheat to sell have received 80c a bushel in Thornbury. There are not many beef cattle on the market.-C. P. BRITISH COLUMBIA.

WESTMINSTER DIST., B. C.

NEW WESTMINSTER DIST., B. C. CHILLIWACK, July 9.-Haying has com-menced on most Chillwack farms. The cherries are in their prime. The hay cnerries are in their prime. The hay crop is exceedingly good, as there was an abundance of rain in June. The turnips and potatoes are also doing well. The pastures are in good condition. All live stock is looking well.-J.C.

> We have changed the name of our famous "CANADIAN" air-cooled and water-cooled engines to a name that also signifies quality. Hereafter, these ongines will be known s the "MONARCH."
