

CURES
by the thousands — profitable herds and vigorous calves by the score testify to the efficacy of KOW-KURE. It is not a "food"—it is a medicine, and the only medicine in the world for cows only. Made for the cow and, as its name indicates, a cow cure. Barrenness, retained afterbirth, abortion, scours, caked udder, and all similar affections positively and quickly cured. No one who keeps cows, whether many or few, can afford to be without KOW-KURE. It is made especially to keep cows healthy, and healthy cows give more milk, make richer butter and with less care. If you are having any trouble with your cows you can cure them with KOW-KURE. Our book, "The Cost of a Lost Cow," contains many helpful hints, free. Write for it. Dairy Association Co., Mfrs., Lyndaleville, Vt., U. S. A.

ANNANDALE HOLSTEIN HERD

are the greatest of the breed individually, and backed by great records, viz.:
Brookbank Butter Baron, dam and sire's dam average 22 lbs. butter in 7 days, 4.5 per cent. fat. First-prize bull at Ottawa and Toronto, 1905.
Prince Posch Calamity, dam and sire's dam average 26.1 lbs. butter in 7 days, 86 lbs. milk in one day, 3.5 per cent. fat. Also a prizewinner at Toronto and Ottawa.
Wopke Posma, imported in dam from Holland. Sire Wopke, his dam Boss, greatest cow in Holland. Record: 17,160 lbs. milk in 336 days, 734 lbs. butter, 3.97 per cent. fat.
You don't draw a blank in purchasing a bull from such sires and such dams as are kept at Annandale Stock Farm, Tilsonburg, Ont.
GEO. RICE, Prop.

WOODBINE HOLSTEINS

Herd headed by Sir Mechthilde Posch, absolutely the best official-backed sire in Canada. Dam Ianthe Jewel Mechthilde, 26.8 pounds butter in seven days. Champion cow of Canada over all breeds. Sire's dam, Aalke Posch 4th, holds the world's largest two-day public test record—8.6 pounds butter. Young bulls of the choicest quality for sale.

G. MACINTYRE, Renfrew P.O. and Stn.

GOSSIP.

Crouch & Son, the noted importers of horses, of LaFayette, Indiana, and London, Ont., have very recently sold to Adam E. Ratz, of Tavistock, Ont., the World's Fair prizewinning Percheron stallion, Tappageur. This is a grand three-year-old black of perfect body and legs, weighs 2,220 pounds, won gold medal at the St. Louis World's Fair, and a great prizewinner at other places. They also sold to Conley Penrose & Sons, of Newmarket, Ont., the handsome imported Belgian stallion, Brissac DeRaguiet, four years old, weight 1,900 pounds—a model of his kind, and a horse of remarkable action and great beauty.

Mr. John Campbell, Woodville, Ont., owner of the Fairview flock of Shropshire sheep, writes: In its twenty-five years' existence that high-standard flock did not have so successful a business year as the one just closed. Having withdrawn from fall show-rings, customers from all over America have freely patronized it, frequently sending their orders, enclosing cheque, stating: "Send me the best you can for the amount enclosed." And not one customer, so far as known, has been left dissatisfied. Mr. Campbell's determination has been, and continues to be, that everything possible, and in reason, shall be done to give good values in filling orders placed in his hands, and so please his patrons everywhere. In his offerings in a new advertisement on another page, he writes that several of the ewes offered will be sold at less than half of what ram lambs from them in 1905 have already sold for.

JOHN WATT & SON'S SHORTHORNS.

One of the oldest and most successful Shorthorn breeders in Canada is Mr. John Watt, of Salem, Ont., whose long and honorable career as one of the leading Canadian importers and breeders, and whose life-long service to the country in the upbuilding and improving of Canadian beef cattle, will long perpetuate his memory. Like father, like son, is amply verified in the son, who has now taken active charge of their large and choice herd of imported and Canadian-bred animals. It is certain that never before has the herd been quite up to the high standard of excellence that the 40-odd head now in their commodious stables presents; representing as they do Scotland's most noted blood in such families as English Lady (identical with the Marr Roan Ladys), Strathallan, Crimson Flower, Kilblean Beauty, Cruickshank Mysie, and Miss Ramsden, at the head of which is the typical and richly-bred prizewinning bull, Duke of Richmond 58415, by Imp. Royal Archer, dam Imp. Duchess 42nd, by Village Archer. He is a roan, ideal in type, and handles like velvet. Second in service is Heatherman 59153, by Imp. Merchantman, dam Beauty 34th (imp.), by Count St. Clair. He is a Kilblean Beauty, and his make-up leaves very little to be desired. A large number of the females are imported. Many of the others, particularly the younger ones, have imported sires and dams, and they represent the get of such noted sires as Barmpton Hero, Imp. Royal Sailor, Belisarius, Imp. Good Morning, Imp. Royal Archer, Imp. Viceroi, Imp. Prince Louis, Lord Lovatt, Royal Ury, Royal Victor, Coming Star and Royal Star, the bull that brought the highest price at the late sale of the Woods Investment Co., at Omaha, Neb. They are an exceptionally large, heavy-fleshed lot, ideal in type and quality, and hard to duplicate as a high-class herd. The dozen or more heifers that are still on hand are choice individuals, and, being so richly bred, are a very desirable kind for the foundation of a herd, or the strengthening of one already established. In young bulls, there are several. One is a red, by Royal Star, and out of Imp. Lady Baroness. There are a pair of red twins, out of the Strathallan cow, Idlewilde, and sired by Imp. Good Morning. Another is a nine-months-old roan, out of a Roan Lady dam, and got by Royal Star. This youngster has two half-brothers that were winners of both first and second prizes at Toronto and London, and will make a winner himself sure. There are also two others, by Royal Star, one out of an English Lady dam, the other out of Lady Baronet (imp.). Anything in the herd is for sale at living prices.

QUESTIONS AND ANSWERS. Miscellaneous.

CANADIAN TARIFF.

Please publish a list of the dutiable goods brought into Canada, also the duty imposed on each article. W. E.
Ans.—It would take several pages of "The Farmer's Advocate" to give this information, and it is not of sufficient general interest. You will find it complete in the Canadian Almanac, or some other form, in your nearest bookstore, or failing that, the nearest Customs House. The Statistical Yearbook, which you can get from the Dept. of Agriculture, Ottawa, also contains what you ask for.

REGISTRATION OF CLYDESDALES.

Can you tell me whether the following horses are registered in the Canadian Clydesdale Studbook or not: Old Sovereign, Darnley's Chief, Muirhead, Kippen Davie Champion? If they are not registered, can you find out if they are eligible? W. S. F.
Ans.—We find Sovereign [124] in Vol. 1, imported in 1845, died in 1852; also Darnley's Chief [920], imported in 1888 by Mr. Beith. We do not find the other two horses in the Canadian Studbook, but would advise you to write the Registrar, Mr. F. M. Wade, Department of Agriculture, Ottawa, who is in a position to give fuller information.

TANNING SKINS WITH HAIR ON.

Kindly tell how to tan cat and other furs, so the hair will not drop out. F. G. S.
Ans.—We give below three recipes for tanning such skins with the fur on:
1. Stretch the skin smoothly and tightly upon a board, hair side down, and tack it by the edges to its place. Scrape off the loose flesh and fat with a blunt knife, and work in chalk freely, with plenty of hard rubbing. When the chalk begins to powder and fall off, remove the skin from the board, rub in plenty of powdered alum, wrap up closely, and keep it in a dry place for a few days. By this means, it will be made pliable, and will retain the hair.
2. Soft water, 10 gallons; wheat bran, 1/2 a bushel; salt, 7 pounds; sulphuric acid, 2 1/2 pounds. Dissolve together, and place the skins in the solution, and allow them to remain 12 hours, then remove and clean them well, and again immerse 12 hours or longer, if necessary. The skins may then be taken out, well washed and dried. They can be beaten soft, if desired.
3. Saltpetre, 2 parts; alum, 1 part. Mix. Sprinkle uniformly, on the flesh side, roll up, and lay in a cool place. Spread it out to dry; scrape off the fat, and rub till pliable.

Veterinary.

CHOREA.

When my horse is backed up after standing a while, he swings one hind leg out, just for one step. F. C.
Ans.—This is a form of chorea, a nervous disease, which is often incurable. Purge him with 8 drams aloes and 2 drams ginger. Feed bran only for 12 hours before and 24 hours after administration. Follow up with six drams bromide of potash night and morning in damp food for ten days. Cease giving the drug for a week, and then repeat.
V.

SWEENEY.

What is the best treatment for sweeny; has been slightly affected for a year; is quite severe at present. A. E. Ont.
Ans.—In order to restore the animal to full usefulness, you will have to give long rest, and blister the point of the shoulder and also over the shoulderblade once monthly with the following: One and a half drams each biniodide of mercury and cantharides, mixed with two ounces of vaseline. Clip the hair off, and rub the blister well in; tie so that he cannot bite the parts; in twenty-four hours rub well again, and in twenty-four hours longer wash off and apply sweet oil. Repeat blister every month, as long as necessary. The insertion of setons acts more energetically than blisters, and sometimes succeeds when blistering fails. As the case improves, the animal may be put to light work, but should not be used on rough or uneven ground, and should not be put to the plow.

Boo Spavin
Lameness resembling bone spavin, but the bunch is in front of the true hook joint, a little to the inner side, and is soft and yielding, hardening sometimes as the case grows old.
Fleming's Spavin Cure (Liquid)
is a special remedy for the soft and semi-solid bunches that make horses lame—Boo Spavin, Thoroughpin, Splint, Curb, Capped Hock, etc. It isn't a liniment to bathe the part, nor is it a simple blister. It is a remedy unlike any other—doesn't irritate and can't be limited. Easy to use, only a little required, cures the lameness, takes the bunch, leaves no scar. Money back if it ever fails. Write for Free Horse Book before ordering. It tells all about this remedy, and tells what to do for blemishes of the hard and bony kind.
FLEMING BROS., Chemists,
45 Front Street West, Toronto, Can.

MOLSTEIN BULL
You need a to head your herd, sired by such noted sires as "V a l e P i e b e De Kol," whose dam and sire's dam records average 619.3 lbs. milk, 27.31 lbs. butter in 7 days, or "Duchess Aaggie De Kol Beryl Wayne," grandson of the famous "Beryl Wayne," 92 lbs. milk in one day, 27.87 lbs. butter in 7 days, 17.75 lbs. milk in 10 1/2 months. We have 12 imported and home-bred bulls to offer of such breeding; also heifers and young cows. Just imported, 36 head in the past six months, 72 head from which to select. It will be to your interest to enquire before buying elsewhere.
