

Bale your Hay Quicker, Better, Cheaper!

THE DAIN Steel Hay Press

Perfect results are what you get when you use a

Dain Double-Gear, Belt-Driven, Steel Hay Press

Carefully and substantially built of high-grade materials, it will give lasting service under the heavy strains and trying usage to which a hay press is subjected.

Wherever steel is better than wood, steel is used in its construction. Outdoor exposure does not affect the DAIN. It doesn't warp or swell like a wooden press.

WHETHER YOU HAVE

a press or contemplate having one, you should ask for our free catalogue, giving sound and valuable information on the subject. There is a DAIN Press to suit every pocketbook. Any DAIN Press will be the best press investment you could make at its price.

Maple Syrup Makers,
Be Ready for the First Runs of Sap

One of our greatest difficulties we have is to make our many customers see the necessity of sending us their order early in the season for their sugar camp equipment. The majority of them wait until the month of March, or just before sap runs, then expect their goods immediately. Don't put off ordering. Write us to-day for our free booklet, giving you full particulars in regard to Maple Syrup and Sugar Making.

This Cylinder Shows Why The "EUREKA" Root Cutter

is the best on the market. See how it is designed. Grooved knives, with the grooves on one blade opposite the teeth on the next. Instead of slicing or pulping, the "Eureka" turns out roots in shreds—thin narrow strips—suitable for any kind of feeding. The "Eureka" shreds from one to two bushels a minute, and turns so easily that a child can operate it. In the "Eureka" the feed is kept free from dirt, the feeder bottom being made with iron rods, thus allowing all dirt to drop out before it can reach the shredding cylinder. The sloping form of the cylinder makes the machine a self-cleaner. Write for catalogue which explains fully.
