Compare the "BISSELL" with other disks

Thousands of Canadian Farmers have tested the "Bissell" Disk Harrow in the same field with other makes and found that the "Bissell" HAS THE GREATEST CAPACITY.

The plates on the "Bissell" Harrow are the correct shape. They cut, turn and pulverize the soil where others only scrape the ground and set it on edge. The "Bissell" does clean work where others make a poor job of it.

The "Bissell" Scrapers meet the plates chisel fashion and keep the plates clean. Movable Clod Ironsan exclusive feature - keep the space between the plates clear.

The 'Bissell" stays RIGHT DOWN TO ITS WORK. It won't bind,

buckle or hump in the centre, no matter how stiff or hard the soil may be. It is built to stand hard usage. The simple method of balancing the driver's weight removes neck weight. It is the Harrow you should know more about.
