## The New Beaver Gang

This cut represents our Beaver Gang, an entirely new, light riding plow which we are placing on the market this season.

**WHEELS**—The wheels are dust-proof. The furrow and rear wheels are connected and controlled from the pole. The land wheel is extra large and set well out from the plow, which makes the plow run steady and easy.

**FRAME**—The frame is strong and rigid, and is made after the style of our famous Empire Gang.

**BOTTOMS**—The bottoms are the important part of a Plow. On the Beaver we are using the same bottoms as are used on our 12-in. High-Lift Jewel, and which have proved themselves exceptionally good cleaners in sticky soil.

**LEVER**—The lever arrangement is new and most complete. The landing lever is a great advantage to the operator and perfectly controls the plow.

We can also supply this plow with adjustable beams which can be quickly set for wide or narrow work.

If you are looking for light-draft riding Gang Plow which has all the advantages of a High-Lift Plow, but much cheaper in price, buy the BEAVER, and you will get
