

## Test of the Scales

There is not a time in the life of a mature beef when Dr. Hess Stock Food cannot be fed with a decided profit, as the test of the scales will prove. Dr. Hess Stock Food causes every organ to perform its proper function, it furnishes the laxatives so liberally supplied in grass, improves digestion and assimilation, regulates the kidneys and liver, and in fact forces growth and development by compelling the system to appropriate to bone and muscle building the nutrition contained in the food eaten. One of the first rules for skillful feeding recognizes the fact that it is not the amount of food consumed, but the amount digested that produces the profit. Modern, scientific feeding, therefore, not only has to do with development of bone, muscle, fat, etc., but is most concerned in digesting it, and at the same time maintaining perfect health and condition.

# A Test Will Tell

What Liquozone Can Do for You -- and It Is Free.

You who are waiting—we ask you again to try Liquozone; to try it at our expense. You'll regret this delay when you learn what the product means to you. Do as millions have done—stop doubting; give Liquozone a test. Then judge it by results. Germ diseases—and there are scores of them—call for a germicide. Those are the diseases to which Liquozone best applies. Don't cling blindly to old-time remedies, if you don't find them effective. Let us prove the power of the new.

### What Liquozone Is.

The virtues of Liquozone are derived solely from gases. The formula is sent to each user. The process of making requires large apparatus, and from 8 to 14 days' time. It is directed by chemists of the highest class. The object is to so fix and combine the gases as to carry into the system a powerful tonic-germicide.

Contact with Liquozone kills any form of disease germ, because germs are of vegetable origin. Yet to the body Liquozone is not only harmless, but helpful in the extreme. That is its main distinction. Common germicides are poison when taken internally. That is why medicine has been so helpless in a germ disease. Liquozone is exhilarating, vitalizing, purifying; yet no disease germ can exist in it.

We purchased the American rights to Liquozone after thousands of tests had

been made with it. Its power had been proved, again and again, in the most difficult germ diseases. Then we offered to supply the first bottle free in every disease that required it. And over one million dollars have been spent to announce and fulfill this offer.

The result is that 11,000,000 bottles have been used, mostly in the past two years. To-day there are countless cured ones, scattered everywhere, to tell what Liquozone has done.

But so many others need it that this offer is published still. In late years, science has traced scores of diseases to germ attacks. Old remedies do not apply to them. We wish to show those sick ones—at our cost—what Liquozone can do.

### Where It Applies.

These are the diseases in which Liquozone has been most employed. In these it has earned its widest reputation. In all of these troubles we supply the first bottle free. And in all—no matter how difficult—we offer each user a two months' further test without the risk of a penny.

[11135], he by the celebrated Prince Sturdy (10122), and out of Elsbeth Macgregor (7519), by Macgregor, he by Darnley. His dam, Floss (25201), a very choice mare, by Linkwood Lad (imp.) The two-year-old bull, Autumn Prince, to Mr. Thos. Hurton Carman. The right good yearling bull, Fry Prince, to Jacob Courtt, Sperling; a very fine calf, out of Isabelle the 8th, to David Weintz, Plum Coulee. Sales of Yorkshire boars and sows have been good of late. We have the finest lot of young heifers, bull and heifer calves, that we have ever offered for sale, and we will sell at rock-bottom prices, as we are crowded for room."

### A MEMORY OF XMAS.

The schoolhouse at the corner of the Tenth  
And of the Second gravel Sideroad,  
West,  
Is not a mansion, rather like a barn,  
—The quaintest of our memories, and the best.

'Tis filled to-night; not little ones alone,  
Young men and maidens, matrons fat and fair,  
And sturdy greybeards in their Sunday black  
Are jammed in gleeful expectation there.

It is the evening of the Christmas-tree.  
The pretty teacher, blushing like a rose,  
Calls to the Chair a Member of the Board  
With tangled hair, bow legs and pigeon toes.

An thus he speaks: "Miss Sutherland an' frien's,  
I ain't no public speaker, as ye know,  
An' this yere programme is amaz' long,  
I'm jist a starter—here to holler "Go."

Now pig-tailed maids declaim about a doll,  
And boys in painful boots perspire and fret,  
Reciting the Address of Spartacus  
Until with nervousness they all—forget.  
The programme wears away amid applause,  
Until the final number—'tis a song,  
"The Maple Leaf," perchance, or "Hold The Fort,"  
With Old Boys' bass particularly strong.

And now the Tree. Its flashing tapers bright,  
Its tinsel ornaments against the green,  
Its candy stockings, packages galore,  
Celestial vision, lovely fairy-scene.

Fur-coated, and with bells about his waist,  
Doth Santa Claus the Mighty now appear.

The greybeards clap, the matrons smile in pride,  
And all the juveniles arise and cheer.

The presents—What a wonderful array,  
What shouts of laughter fill the tiny hall,  
When a young man receives a woolly sheep,  
Or some old bachelor secures a doll.

At last the tapers flicker and go out,  
Now bare and mournful is the stricken tree;

The sleigh bells jingle faintly on the air—  
The night is but a pleasant memory.

Let Colver sing and Ada Roban play,  
And the city's four-stricken whirl,  
I would prefer the country Christmas 'Tis so.

And the drive homeward with a pretty wirl,  
Amos!
