IMPERIAL

EQUIPPED WITH OUR NEW RAKE.

When we tell you the Imperial Harvester is the most perfect reaping machine made, we also lay before you the facts in order that you can judge for yourselves. Not only does this machine possess more valuable patented improvements than any other machine made, but in construction it is the simplest; in strength, and durability, combined with lightness, compactness, symetry of design, convenience in handling and capacity for performing extraordinary ranges of work with ease and perfection, it has no equal. It is adapted to work on any farm field, in any kind of grain, and it pos sesses advantages over all others, equipped as it is with both of the acknowledged perfect rakes now in use, either of which farmers can choose when purchasing.

Farmers, be not deceived by any statements made by agents anxious to sell you reapers of other makers. You now have the opportunity of purchasing the only per-

reapers of other makers. You now have the opportunity of purchasing the only per-fect machine in the market, and do not let that opportunity slip from you. The Imperial is sold under full guaranty that it is just as we represent it. You run no risk in buying it. It will do all we say, and more too. Therefore send in your orders at once. It costs no more to purchase now than it will at harvest time. By having your machine at hon e before you require to use it, you will become so familiar with its construction and operation that when you begin harvesting you will be able to go right through without a single delay. This to every farmer is a matter of great importance.
