I have been troubled for a number of year-with a very disagreeable impediment in speech. I heard of the London Institute, and after considerable investigation I concluded to try it. The treatment proved to be all I could wish, and I found myself improving from the first day; in a very short time my speech was perfectly free, and I was enabled to speak in public as well as private without fear of stammering. It is now four months since I left the Institute, and I am certain now that the cure is permanent.
