

It affords us much pleasure to announce to the people that we are about to give them a great benefit. We have always been known as one of the most enterprising firms in this acction, and we have sold the best goods in nearly every case lower than others. We believe it is right to do the best we can by our patrons, thereby securing not only the largest amount of trade but also the greatest number of friends. Our stock of Dry Goods for the fall trade has been well bought and includes the newest and best of everything.

We want everybody to see that we are not trying to see how few goods we can give you for a dollar, but how many.

Please call and receive card, and as purchases are made at our store the card will be punched, and when goods to the amount called for by the card have been bought we will give you a magnificent book entitled, Webster's Encyclopedia of Useful Information and World's Atlas, or your choice of three pieces of Silverware. You are not required to trade the whole amount at once, but can take six months, one year or two years.

This volume is worth \$6.00 to any person or any family and is really a household necessity. Notwithstanding the fact that we have the reputation of selling goods cheaper than anyone else, our prices will still be as low if not lower than before. We will be amply repaid for the great expense we have incurred by selling to our regular customers and by enjoying the trade of scores of new ones.

In order to ge the right to distribute this valuable book, we were obliged to order enough to supply one to every family for miles around. Visit us at once, examine our stock and prices, and be convinced that you can do better with us than anywhere else,

PICKWICK PAPERS,

The above are without question the most famous novels that were ever written. For a quater of a century ticy have been celebrated in every nook and corner of the civilized world. Fet there are thousands of homes in America not yet supplied with a set of Dickens, the stream of the books preventing people in moderate circumstances from enjoying this luxury. But now, owing to the use of modern improved printing, folding and stricking machinery, the extremely low price of white paper, and the great competition in the lat a price which all can afford to pay. Every home in the land may now be supplied with a set of the great author's works.
