There are some things you can buy by the makers name alone, and a Good Piano is one of them.

All Pianos look much alike on the outside—many bear similar names—but unless you are craftsman enough to judge the merit and structural refinement of a Piano, unless your ear is trained to detect the beauties and shades of its tone, there is but one safe and sound basis for preference—the INTENTION, ABILITY, and REPUTATION of the maker.

No Better Piano Can be Made than

Gerhard Heintzman

"Canada's Greatest Piano"

has ALWAYS been. It embodies many exclusive tone-producing and tone-sustaining features. It takes in every new style idea. It has the merit you look for in a life-time purchase.
