Asthma. "I have been a great sufferer from Asthma and severe Colds every Winter, and last Fall my friends as well as myself thought because of my feeble condition, and great distress from constant coughing, and inability to raise any of the accumulated matter from my lungs, that my time was close at hand. When nearly worn out for want of sleep and rest, a friend recommended me to try thy valuable medicine, Boschee's German Syrup. I am confident it saved my life. Almost the first dose gave me great relief and a gentle reshing sleep, such as I had not had weeks. My cough began immediely to loosen and pass away, and found myself rapidly gaining in ealth and weight. I am pleased to inform thee—unsolicited—that I am in excellent health and do certainly attribute it to thy Boschee's German Syrup. C. B. STICKNEY, Picton, Ontario."

GENERAL NEWS.

—A colored cake-walk with twenty enteries was witnessed by 15,000 persons last week at Charleston, S. C.

—It is said there are over 30,000 idle workmen in Chicago, who went there expecting to get employment on the World's Fair buildings.

—A complete census of the wealthy men of Montreal shows thirty-six worth from one to thirty millions, sixty-two worth from a half to a round million, and one hundred from a quarter to half a million.

—Mrs. Sarah A. Shade, living near Batavia, O., has one churn she has used steadily for 55 years She estimated that in that period she has churned in it 68,640 pounds of butter.

—Thos. Smith, champion ten stone pugilist of Ireland was charged with wife murder at Belfast, Saturday. He struck his wife on the forehead with his fist, killing her.

—In the limited space between Worth street and the Battery, in New York, where there are many wholesale houses, it is stated that 15,000 women are employed as typewriters. A single typewriting machine company finds employment, through its various offices, for 10,000 women a year.

—Statistics show an enormous increase of lunacy in Ireland. This is attributed partly to emigration, the robust leaving the weak and infirm behind. In 1891 the proportion was 355 lunatics to every 100,000 of the population, against 249 in 1880.

—Frances Willard claims that the amount of force exerted at a given moment to compress the waist of women by artificial methods, would, if aggregated, turn all the mills between Minneapolis and the Merrimac, while the condensed force of their tight shoes, if it could be applied, would run many trains.

The office of poet laureate is nominally worth £75 a year and a butt of wine. Of late years, however, the worth of the wine has been paid over in money. The cost in fees for a burial in Westminister Abbey is £,10. Formerly ninety pairs of gloves had to be provided for the choir, but in lieu of this the present conditions be stopped. The recent suspected cases of pleuro-pneumonia in imported Canadian cattle were made the theme of the principal argument, and in addition it was claimed that there is great risk of cattle diseases reaching Great Britain through Canada not enforcing sufficient rigid regulations against the admission of American cattle into the Dominion. Mr. Gardner, in reply to the deputation, said after the most anxious enquiry and a very careful consideration of the question in all its bearings, the board of agriculture had concluded that the facts of the recent outbreak among Canadian cattle were inconsistent with the reasonable security contemplated by the law which exempted Canadian cattle from the provisions of quarantine laws. In consequence of this decision the board felt that it had no alternative but to withdraw the privilege of the importation of stockers or grazing cattle from Canada. "Indeed," Mr. Gardner concluded, "the order to that effect has already been signed."

—George Gates, a contractor of Uniontown, Pa., was shot and killed while hunting Tuesday, by another hunter. He had secreted himself in a brush pile and began calling like a turkey to decoy some of those birds. A hunter heard the supposed turkey call and fired a load of buck-shot into the brush with fatal results.

—Last Wednesday, at Cincinnati, A. M. Bell, a prominent young attorney, of Washington, D. C., smoked a dozen boxes of cigarettes, while waiting all day for the arrival of some witnesses whose evidence he was to take. He was found dead on the bed next morning; and it was surmised that the nicotine had caused paralysis of the brain. The landlord had noticed the great extent to which he was using up cigarettes, and asked him regarding their hurtful qualities; but Bell only laughed at the idea.

For dyspepsia and liver complaint, you have a printed guarantee on every bottle of Shilohs' Vitalizer. It never fails to cure. A. Dixon, Sackville; Fairweather, Dorchester.

The Sale of H. M. S. Foudroyant.

—The London Coronicle has printed several articles and a number of letters on the sale of her Majesty's ship Foudroyant, one of Nelson's flagship to a German shipbreaker. It also gives a poem by Dr. Conan Doyle, the first few verses of which run:

Who says the Nation's purse is lean.
Who fears for claim or bond or debt.
When all the glories that have been
Are scheduled as a cash asset?
If times are black and trade is slack,
If coal or cotton fail at last,
We've something left to barter yet—
Our glorious past.
There's many a lot in which lies hid
The dust of Statesmen or of King;
There's Shakspeare's home to raise a bid
And Milton's house its price would bring.
What for the sword that Cromwell drew?
What for the Prince's coat of mail?
What for our Saxon Alfred's tomb?
They're all for sale!

And stone and marble may be sold,
Which serve no present daily need.
There's Edward's Windsor, labelled old,
And Wolsey's Palace guaranteed.

Bad News

For Canadian Cattle Shippers.

Friday afternoon Sir Charles Tupper, from London, G. B, forwarded to the minister of agriculture the following dispatch:

"Am informed that in view of the opinion expressed by the law officers of the crown, the board of agriculture have decided that they have no alternative but to withdraw the privilege of free importation hitherto allowed to Canadian cattle. The order will come into force on the 21st."

Shippers will therefore be free to send cattle to land before the 21.

The following cable is also from London: The worst fears of the friends of the important Canadian cattle trade have been realized, and Canadian cattle have been scheduled. An influential deputation, representing the leading councils of agriculture throughout the country, headed by the Duke of Westminister, waited upon Mr. Gardner, chairman of the board of agriculture, this afternoon and urged that the

—The White Star company has commissioned the great Belfast shipbuilders, Harland & Wolfe, to build an Atlantic steamer that will beat the record in size and speed. She has already been named Gigantic, and will be 700 feet long, 65 feet 7½ inches beam and 45,000 horse-power. It is calculated that she will steam 22 knots an hour, with a maximum speed of 27 knots. She will have three screws, two fitted like the Majestic's and the third in the centre. She is to be ready for sea in March, 1894.

WOMEN'S COLUMN.

Conducted by the Ladies of the Sackville W. C. T. U.

THE thoughts of the W. C. T. U world are centered on Denver, where the great army of workers is assembled in the nineteenth annual Convention. Trinity M. E. church was chosen for the rallying place, and there Miss Willard was tendered her "welcome home" from thousands of loyal hearts. She delivered her annual address on Friday, Oct. 28, this being the principal feature of the evening Governor Routt, in behalf of the state, Mayor Rogers and Judge Elbert, in behalf of the city, Mrs Eva Higgins in behalf of the state W. C. T. U. and Mrs. M. A. Cassell, in behalf of the Denver union, royally welcomed the Convention. That eloquent and fitting words of response were spoken is assured when we know that the speakers were: Lady Henry Somerset, Mrs. Mary H. Jones, Mrs. Emily Pitt Stevens, Mrs. Clara C. Hoffman, Mrs. Louise S. Rounds. On Saturday morning was held the tender *in memoriam* service. Madam Willard, Miss Julia A. Ames, Mrs. Caroline Brown, the revered mother of Mrs. Caroline B. Buell, James A. Gordon, whose rarely beautiful character helped to make "Home, Sweet Home" for Anna and Bessie Gordon, and John G. Whittier, well called the Woman's Poet Laureate, were those remembered. Sunday was, for the greater part, "woman's day" throughout the city, as some thirty-five pastors offered their pulpits to white-ribbon delegates. Mrs. Mary McGee Snell, of Mississippi, delivered the annual sermon in Trinity church, choosing for her theme, the Queen of Sheba's visit to King Solomon (1 Kings 10) drawing strong and beautiful comparisons between the visit of the woman who went to prove King Solomon "with hard questions" and the communion of the saints with Christ.

It was significant that women were right at the fore in the dedicatory exercises of the great Columbian celebration. At the request of Mrs. Potter Palmer, Lady Henry Somerset represented the British Women's Commission, for which Princess Christian is in the great procession at the head of the board of lady managers. Both ladies were cheered all along the line. At the exercises in the Manufactures building, Mrs. Potter Palmer's address was received with enthusiastic applause. Miss Monroe, author of the dedication ode, and Miss Le Moyne, who read it admirably, were presented with laurel wreaths, and Miss Hayden, architect of the Woman's building, was presented with a medal. Women everywhere were put where they belonged by the liberality of the progressive management. Not only to Mrs Palmer and Lady Somerset, but to Mrs. General Logan and our own "Chieftain" as they drove by in the line of thirty carriages set apart for women, cheers were given as generously as to men. The human heart loves the good-will of humanity, and woman bore larger part in such recognitions than ever before on Columbus Day at the mightiest of expositions.

The Internationsl Council of Women, in cooperation with the Worlds Congress Auxiliary and the Woman's Branch of thd same, is preparing for a World's Congress of women in May. Its sessions will extend over a week, one of which will be a vast gathering in a euge auditorium; and five smaller ones in the Art Palace in Chicago. The Woman's Christian Temperance Union is an attive part of this council and it is desired that this World's Congress will be held during the Exposition. It is designed to be the most representative body of women the world has yet known.

At the last day's session of the board of lady managers of the World's Columbian Exposition, in connection with motions that were before the house in reference to making the Woman's Building permanent, Mrs Potter Palmer stated that a woman's memorial will be erected and presented to the city of Chicago by the various women's clubs of the country, the land to be a gift from one of Chicago' citizens.

Among the prominent delegates to the National Convention at Denver perhaps none received a more reverential acknowledgment than "Mother Stewart," who possesses a vigor that outranks that of youth—the vigor of old age, the strength that remains notwithstanding the long campaign of life's battlefield. God Bless the grand army of the Crufaders!

'Men cannot be made good by law.' (Gov. Boies, of Iowa, upon the prohibitory laws.)

'We have long known that. But they can be made harmless.'—*N. Y. Independent.*

—Sir Charles Tupper has been appointed British plenipotentiary with Lord Dufferin British minister to Paris, to negotiate a commercial treaty between France and Canada. The French government has expressed its readiness to consider the question immediately. Canadian goods are now admitted into France on the maximum tariff, while the goods of other countries, like Norwegian and Swedish lumber competing with the products of Canada's forests, enjoy minimum tariff. Canada desires the minimum tariff tooo.

THE WILD CHERRY combined with Milburn's Emulsion of Cod Liver Oil makes it delicious in taste and perfect in curative power.

AGRCULTURAL NOTES.

—Atwood, pacer, by Strenay, went a mile on Oct. 30 at Stockton, Cal, in 2 07, breaking the world's four year old pacing record. The last half was in 1.07,

—The greatest pressure is being brought upon the British board of agriculture to secure the prohibition of the importation of Canadian cattle. It is urged that Canada does not take due precautions to shut out cattle from the United States. A deputation from the central chamber of Gardner of the board of agriculture and urge him to enforce the order requiring Canadian cattle to be slaughtered at the port at which they landed. A most searching investigation failed to prove the faintest trace of a contagious desease in Canadian cattle, but the government is determined that no risks shall be run.

—As a rule farmers neglect to supply themselves with a sufficient amount of good reading. There is a common and natural feeling, too, that they cannot afford it. Undoubtedly many cannot afford it, but they economize in this direction first and are forgetful of economy in certain other directions.

—There is a common misuse to the word colt, as applied to the young of the horse kind, that sounds strange to those used to English breeders' way of speech. Colt is a young male foal. Filly is the name of a female, while foal the word to use in case the sex is not known. The distinction is found in Shakespeare, and as there is use for each of the words in writing or speaking about horses, it is well to preserve the distinction

—During the past week eight farmers in the township of Chatham, Ont. were brought before A. McConnel, J. P., on a charge of supplying milk of an inferior quality to several of Mr. Ross' cheese factories. Each one of these were mulcted in a fine from $10 to $20 and costs. It is not generally known but there is a fine of $50, for selling impure or watered milk.

—Mr. Will Ryan showed us yesterday several peanut plants, to the roots of each of which was attached a dozen or so peanuts, some of which majority were not matured. Mr. Ryan got the seeds last winter, intending to plant them in the early spring, as an experiment, but forgot to do so until a month after potatoes were planted. There can be no doubt but that if planted a month earlier the whole lot would have thoroughly ripened. Mr. Ryan's experimenting is the first we have heard peanut culture in this part of the country, but we see no reason why it should be the last, and perhaps peanut raising will be added to Nova Scotia's agricultural industries. The plant looks something like a bean plant, but the nuts are formed at the roots in clusters like potatoes.—Kentville Star.

Hood's Sarsaparilla Rescued Their Child from Scrofula.

For Scrofula, Salt Rheum, and all other foul humors in the blood of children or adults, Hood's Sarsaparilla is an unequalled remedy. Read this:

"We are so thankful to Hood's Sarsaparilla for what it did for our little girl that we make this statement for the benefit of other anxious parents and

Suffering Children

Our girl was a beautiful baby, fair and plump and healthy. But when she was two years old, sores broke out behind her ears and spread rapidly over her head and forehead down to her eyes, and into her neck. We consulted one of the best physicians in Brooklyn, but nothing did her any good. The doctors said it was caused by a scrofula humor in the blood. Her head became

offensive to the smell and dreadful to look at. Her general health waned and she would lay in a large chair all day without any life or energy. The sores caused great itching and burning, so that at times we had to restrain her hands to prevent scratching. For 3 years

with this terrible humor. Being urged to try Hood's Sarsaparilla we did so. We soon noticed that she had more life and appetite. The medicine seemed to drive out more of the humor for a short time, but it soon began to subside, the itching and burning ceased, and in a few months her head became entirely clear of the sore. She is now perfectly well, has no evidence of the humor, and her skin is clear and healthy. She seems like an entirely different child, in health and general appearance, from what she was before taking
