

How to Make Pine Cough Syrup at Home

There is no equal for prompt results. Take but a moment to prepare, and you are cured.

You know that pine is used in nearly all prescriptions and remedies for coughs. The reason is that pine contains several peculiar elements that have a remarkable effect in soothing and healing the membranes of the throat and chest.

Pine cough syrups are combinations of pine and syrup. The "syrup" part is usually plain sugar syrup.

To make the best pine cough remedy that money can buy, put 2½ ounces of Pine in a 16-oz. bottle, and fill up with home-made sugar syrup. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, you make 16 ounces—more than you can buy ready-made for \$2.00. It is pure, good and pleasant—children like it. You can feel this take hold of a cough or cold in a way that means business. The cough may be dry, hoarse and tight, or may be persistently loose from the formation of phlegm. The cause is the same—irritated membranes—and this Pinex and Syrup combination will stop it, usually in 24 hours or less. Splendid, too, for bronchial asthma, hoarseness, or any ordinary throat ailment. Pinex is a highly concentrated compound of genuine Norway pine extract, and is famous the world over for its prompt effect upon coughs.

Beware of substitutes. Ask your druggist for "2½ ounces of Pinex" with directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Toronto, Ont.

Specimens Collected on Wrangel Island

Above are some of the specimens collected on Wrangel Island by Lieut. Allan Crawford, commander of the ill-fated expedition who lost their lives in the Arctic venture. The specimens are now in view at the Royal Ontario Museum, Toronto. The box on the lower left contains flowers, leaves and roots; the bottles on the right, caterpillars and fish. The birds shown on the upper left are believed to be a species of duck.

SHIPPING PLANS**WERE DISCUSSED**

important Questions Before Members of the Economic Conference.

(Associated Press by Leased Wire) London, Oct. 23.—Two resolutions of importance to shipping interests were adopted by the Economic Conference to-day. One of these, it is understood, provides that if any foreign nation adopts discriminatory legislation against British shipping the various parts of the Empire will be consulted to see what action can be taken in the matter.

The other resolution provides for the temporary continuance of the Imperial shipping committee. The text of the resolutions "probably will be issued to-night."

INSULIN TREATMENT**FREE IN ONTARIO**

161 Needy Sufferers from Diabetes Treated During First Month.

Toronto, Oct. 23.—One hundred and sixty one needy sufferers from diabetes benefited by the provincial government's policy of free distribution of insulin during the first month's trial.

Insulin to the extent of 114,000 units was dispensed by the fifteen laboratories in Ontario, and the cost to the province amounted to \$2,281.

These facts are incorporated in a report covering the operation of the government's recently adopted policy for the month of September. The report was handed to Hon. Dr. Forbes

Godfrey, Minister of Health, yesterday afternoon.

The district served by the laboratory at Toronto benefited most. Eighty one patients were treated at the Toronto Laboratory, the treatment involving the use of 42,850 units of insulin.

HIGHWAY BUILDING**IN NORTH ONTARIO**

Government Pledge to Construct Road From Sault Ste. Marie to Winnipeg.

Fort William, Ont., Oct. 23.—Pledging the government to a policy of development in Northern Ontario, Hon. James Lyons, Minister of Lands and Forests, advocated the building of a highway from Sault Ste. Marie to Winnipeg at a largely attended luncheon of the Canadian Club yesterday.

The Minister has just returned from a visit to Dryden, Kenora and Winnipeg, and said the road could be built from Fort William to Winnipeg, partly completed now as it is, without much difficulty. The only difficult portion would be from Port Arthur to the Soo, and he hoped to have engineers shortly at work on a survey round the north shore of Lake Superior to make one of the finest scenic highways in the world. Thousands of cars would use such a road, which would make a transcontinental highway from Halifax to Vancouver.

Lucky, a Boston bull pup owned by M. W. Messing, of Graceland, Md., was the wealthiest dog in the world until Dr. J. W. Corrigan performed an operation on him and removed \$2,000 worth of diamond rings and 36 cents in small change from the dog's stomach. At first the rings were believed to be stolen, but Mrs. Messing remembered putting them in an apron pocket while working in the kitchen. Lucky had been playing with the apron and suspicion fell upon the dog. Mr. Messing placed several cheap rings in Lucky's accustomed corner and spied on the pup from the kitchen window. Lucky sniffed the rings and unceremoniously lapped them up. An X-ray examination and the operation soon followed.

COUNTER MOVE TO**THE SEPARATISTS**

Loyalists Said to Be Only Awaiting Until First Wave Has Spent Itself.

Duesseldorf, Oct. 23.—The Rhineland Separatists so far have encountered no serious opposition, but there is considerable doubt that they will have such smooth sailing when they strike the cities known to be opposed to them, Elberfeld for instance, and Barmen, Essen, Dortmund and other Ruhr centres.

Even Coblenz is reported as likely to resist the honor of being the capital of the Rhineland republic. The Burgomaster of that city, it is understood, has announced that force only make him surrender the public offices.

Some Loyalists aver that the opponents of Separatism are only waiting until the first wave of Republican ardor has spent itself before organizing a definite counter move.

Loyalists aver that the opponents of Separatism are only waiting until the first wave of Republican ardor has spent itself before organizing a definite counter move.

At Duesseldorf all city officials were called out for a conference at three o'clock Monday morning for a conference that lasted without interruption until noon.

It was reported last night that Minister of the Interior Solmann was in Cologne planning a special Separatist movement under the auspices of the Berlin government to counteract the effect of the Rhinelanders activities, but confirmation of this report could not be obtained here.

In addition to opposition from the outside, the Separatist movement appears to bear within itself the seeds of disruption. It is impossible to know how far the Dortmund, Smeets and Matthes faction, which two days ago were in open disagreement are now prepared to sink their differences in the name of the common cause.

Neither can it be told whether such a fusion, once accomplished, would offer resistance when subjected to the test of a genuinely strong opposition, or, on the other hand, of protracted success.

GOOD ADVERTISING**MEANS LOW PRICES**

Ottawa, Oct. 23.—"One reason why the bicycle business in Canada is so good is the advertising that has been conducted," said D. B. Haliday, of Weston, chairman of the eastern Ontario district bicycle dealers at their annual convention here last night.

"If we stopped advertising the price of bicycles would go up materially because the volume of sales would immediately begin to decrease," he added.

"or maximum results at a relative minimum of expense and with the least personal effort newspapers constitute the best medium for advertising by far," declared W. M. Gladish, of the Ottawa Journal.

OBITUARY

John Shephard.

The death occurred at Millville on Thursday, Oct. 18th, of John Shephard, son of the late Mr. and Mrs. John Shephard, of Maplewood. Mr. Shephard had been ill for several weeks with a bad attack of pneumonia, but had taken a decided turn for the better. Early Thursday morning, owing to unknown causes, Mr. Shephard passed away.

Deceased is survived by a wife and three small children; also three sisters and two brothers—Mrs. George Tompkins of Danforth, Me., Mrs. Cole Sewell of Perham, Me., Mrs. Fred Blipp of Maplewood, Frank Shephard of Carleton Place, and W. H. Shephard of Barker's Point.

A very large funeral on Saturday showed the respect of neighbors, and he will be greatly missed. The funeral offerings were very beautiful.

Shakespeare had a vocabulary of 1,000 words, which must have sorely tried the misus at times when she was sparring for an opening to thrust in the last word in the heat of argument.—Buffalo Express.

BAPTISTS PROTEST ANY CHURCH UNION

Won't Pool Resources With Men Who Would Compromise Faith.

Montreal, Oct. 23.—Addressing the 35th annual meeting of the Baptist Convention of Ontario and Quebec, in session here this week, at Oliver church, last night, Rev. Dr. O. F. Love, of Richmond, Virginia, made a clear-cut definition of the Baptist stand and opportunity of the present day. He urged Baptist solidarity and enthusiasm as the answer to the challenge presented by conditions as they now exist, rather than co-operation with other denominations. As to church union, "we won't pool our resources with men who would compromise our faith," he declared.

Rev. Osroode Morse, St. John N. B., brought felicitations from the Maritime Baptists.

Sam Dupont, operator of a cold drink stand near the swimming pool at Pratt, Kan., was smoking a building pipe when he heard cries for help from the pool. He rushed into the pond, brought out a woman who had been drowning, revived her, and discovered that his pipe was still in his mouth and burning well.

**TO THOSE WHO HOLD LIFE ASSURANCE**

If you hold life assurance of the participating type, you are familiar with the large profits distributed by the outstanding Canadian Companies.

The profits are enormously greater than they appear on the surface, however, if you take into consideration the fact that profits distributed among policy holders must be divided among a very large number. Whereas in the case of profits going to shareholders these go to a few, not more than one or two hundred on the average, and consequently the amount received by each shareholder is many times the amount received by each policy holder.

This emphasises the desirability of an investment in life insurance shares.

The opportunity doesn't come often because such shares are closely held and rarely come on the market. The opportunity is presented, however, by the formation of The Maritime Life Assurance Company. The information prospectus of this Company packed with facts, will be sent on request.

The call payable on each share is \$50.

The Maritime Life Assurance Company

HEAD OFFICE, HALIFAX, N. S.

The Value of a Guarantee

ies not so much in its protective penalty as in its satisfying assurance. No firm selling goods with a guarantee attached, expects to be called upon to pay the penalty.

For it is naturally the intention to so carefully guard the quality that dissatisfaction will be impossible.

Throughout its many years of service "King Cole" Tea has consistently been sold with a guarantee—a guarantee definite and substantial. It is printed on every "King Cole" package.

It carries to the buyer an evidence of good faith—a confidence in ability to serve—a determination to serve well.
