FALLING.

That is what a great many people are doing.
They don't know just what the matter is, but
they have a combination of pains and aches, and
each month they grow worse.
The only sure remedy yet found is Davis' Quinine
and Wine, and this by rapid and thorough
assimilation with the blood, purifies
and enriches it, rich, strong blood flowing
every part of the system, and the water
tissues, drives out disease and gives health and
strength.
This is why Davis' Quinine and Wine
will cure Dyspepsia, Indigestion, Liver Com-
plaint, Malaria, Intermittent Fevers, General
Debility, etc.

BURTON, SUN. CO., July 17, 1883.
GEO. H. DAVIS:
Dear Sir,—I was a great sufferer from Dys-
pepsia, and for several weeks could eat nothing,
and was growing weaker every day. I tried
Davis' Quinine and Wine, and am now a new
man, happy and strong, and have a good appetite
and am getting stronger.
Yours,

Miscellaneous.

CHILDREN STARVING TO DEATH.

On account of their inability to digest
food, will find a most marvellous food
and remedy in Scott's Emulsion. Very
palatable and easily digested. Dr. S. W.
Cox, of Waco, Texas, says: "I
have used your Emulsion in Infantile
wasting. It not only restores wasted
tissues, but gives strength, and increases
the appetite." d 22-4w.

Sunday school in the east. Teacher—
"Well, my little man, have you been to
Sunday school before?" New boy—
"No, my little man, I just came from Chicago this
week."

Ayer's Sarsaparilla is prescribed and
recommended by eminent physicians,
and is taken with perfect safety by old
and young. Its cleansing and vitalizing
effects are sure and speedy, and it is
universally conceded to be the most ef-
fective of all blood purifiers.

Mary—"Stop your fatteries, or I
shall hold you to my cane!" John
(wishing to be complimentary)—"Ah,
your lovely hands are too small."

Ayer's Pills cure constipation, im-
prove the appetite, and restore
healthy action, and regulate
every function. This medicine is pleas-
ant to take and gentle in its operation.
See article in Ayer's Almanac.

IMPORTATION OF EGGS.
In 1876 the United States imported
about five million dozen of eggs, and
in 1885 the quantity had increased to sixteen
million dozen, representing a money
value of two and a half millions of dol-
lars, which had increased to three mil-
lions in gold coin. At this rate of in-
crease we should pay to foreign coun-
tries during fifty years, for the single
item of eggs, an amount more than
equal to the present national debt. But
the importation of eggs must very soon
cease. The Shedd's Powder, here
after made to lay nearly the entire year
and especially during the season when
eggs bring the highest price. This fact
has encouraged thousands of people to
go into business who would not other-
wise have done so. It is not necessary
to have a farm to keep hens, as many
suppose. Hens may be kept conveni-
ently and profitably in a large and crowd-
ed city. In fact the whole business of
country keeping has been reduced to a sci-
ence during the last five years. I. S.
Johnson & Co., of 22 Custom House
Street, Boston, have recently published
a valuable book on this subject, entitled,
"The Poultry Raising Guide," single
copy, 25 cents. They will send the book
and two 25 cent packs of Shedd's Pow-
der for 50 cents, postpaid, or a 25
pound tin can for \$1.20. Within the
covers of this book one can find all the
information necessary to enable one to
make money in the business. Every
question has been anticipated and an-
swered, and the most possible precau-
tions given on every point. d 20-4w.

An exchange says "kind words are
never lost." But your wife sometimes
mislays them till she wants another new
bonnet.

English milliners are said to have dis-
covered a way of making bonnets of
tissue paper so that a bonnet itself will
not cost over ten cents, the remaining
\$30 going for trimmings, as usual.

INVESTIGATION.—Every man should be
willing and anxious to investigate everything which
is so likely to benefit all mankind as the
discovery of Davis' Quinine, Iron and
Wine, because it is now being used with
the most beneficial results for Dyspepsia,
Indigestion, General Debility, &c. Price
50 cts. Prepared only by Geo. H. Davis,
Frederickton.

After the funeral—Mr. C. "Mine
craziness, I forgot to daig out dot last
wid of false death dot Rebecca got dot
summer, and dey vos on a gold plate,
too."

DIPHTHERIA CURED.—I hereby certify
that Minard's Liniment cured my daughter
of a severe and what appeared to be a
fatal attack of Diphtheria, after all other
remedies failed, and recommend it to all
who may be afflicted with that dreadful
disease.
