

Summary of News.

The Canadian government have contracted for a semi-monthly line of steamers between Quebec and Liverpool, during the winter. The government is to pay the contractor \$86,000 a year for carrying the mails.—Nbr.

The bands of the French army (says the Journal de Maine-et-Loire) have just received an organization which singularly improves the position of the regimental musicians. A young man who enlists as a musical pupil may now reach the rank of musical officer, by rising through all the intermediate grades.

PARIS.—The Papers say that splendid gold mines have been discovered in Cayenne.

BELGIUM.—The Chambers meet on the 14th November. The King of Belgium offers his mediation in the war.

SPAIN.—The cholera in Madrid amounts to a hundred cases daily. General Tacen, formerly Governor of Cuba, died from Cholera, aged 80.

A new coalition of Lords, Messrs. Russell, Wright, Gladstone, and D'Israeli, is still talked of. Palmerston writes to the Earl of Shaftesbury to accept the vacancy of Colonial Secretary, but his colleagues oppose it. The name of Lord John Russell is also mentioned. The London Times has a noticeable Editorial respecting American expansion. The Times says, the English Government is omitting no opportunity of reinforcing the West India squadron and thus interposing a powerful barrier between Britain and the North American continent.

At this moment North America is in profound peace with the whole world, yet it is not the less true that in her ports are fitting out at this moment practical filibustering expeditions destined to carry war and bloodshed into the dominions of an unoffending neighbour. We cannot believe that those who are now engaged in enrolling unhappy men for these desperate and criminal enterprises really contemplate the success of a descent upon Ireland, for instance, as probable or even possible. If we can prevent the expedition from sailing, or intercept them mid-ocean, we shall have done much towards averting the danger which must arise, should they be carried out to mature development.

The famous race horse, Henry Perritt, which it is said had made the fastest mile on record fell dead a few days ago, just after winning a four-mile race on the Nashville course.

NAVIES IN THE CARIBBEA.—Sir Joseph Paxton stated a few days since that he had sent out that week, three thousand navvies to the Crimea, and that the government immediately on the fall of Sebastopol, ordered another thousand, making four thousand, which have been sent within the last few weeks.

AGRICULTURE THE PROPER CALLING.—A most sensible writer in the Country Gentleman says.—

Other pursuits are proper in their places, but when carried to too great an extent, produce poverty, and misery. The more agriculture is pursued, the greater is the benefit to the human race. Here is a field for the philanthropist. Establish agriculture upon a good basis—the basis of intelligence—and you will do much to close what are now flood-gates of misery to society. Our city poor, our merchant clerk, our emigrant poor, and country poor, all call for relief; and here it is obtained,—in intelligent husbandry. Agriculture is the great moving power of human existence, and as the human family increases, we must cling the closer to our mother earth for support. In the dim but yet brightening future, we behold instead of cities overcrowded with human life and ragged pauperism stalking abroad, the whole face of nature one great Eden,—the sons of Adam all inheriting his estate. Agriculture exerts an influence to equalize the distribution of wealth, which no law, nor theory, nor any other pursuit, has or can accomplish.—N. E. Farmer

REMARKS.—There are difficulties to be overcome by the 'farmer boy,' in the pursuit of knowledge, we confess, but that they are of a sterner character than those the mechanic or merchant's boy must contend with, is not clear. To a determined mind, the common difficulties of life operate only as a kind of spur, while the

SUCCESS IN LIFE.—There is no greater obstacle in the way of success in life than trusting to something to turn up instead of going to work and turning up something.

PAPER HANGINGS!

—JUST RECEIVED— 3,300 PIECES FROM BOSTON, And for Sale by HASZARD & OWEN. Aug. 16, 1855.

THE HYDROMAGEN, OR WATERPROOF ANTI-CONSUMPTIVE CORK SOLES,

Manufactured by HARCOURT BRADLEY & Co., 28, Ann Street, N. Y., and at London and Manchester, England.

THE HYDROMAGEN is a valuable discovery for protecting the feet from damp or cold, and therefore a preventive of many Lung diseases, without any doctoring whatever. The Hydromagen is in the form of a sole, and worn inside the boot or shoe. Its medicated character is a powerful antidote to disease.

For Gentlemen it will be found agreeable, warm and healthy, to wear in the coldest or rainiest weather, as the foot cannot become wet, if the Hydromagen is inserted.

Ladies may wear the lightest soled boots or shoes in the most inclement weather with impunity; while consumption, so prevalent among the young of our country, may be averted by general adoption. They entirely supersede ocre-shoes, as the latter cause the feet to perspire in a very unhealthy manner; and, besides, are not dangerous wear to pedestrians in icy weather, like India rubbers. While the latter cause the feet to appear extremely large, the Hydromagen, being merely a thin slice of cork prepared, peculiarly placed inside, does not increase the size of the boot, or cause the foot to appear untidy.

To Children they are extremely valuable, as they may engage in exercise, with comfort and healthy effects. Their expense is so slight as to scarce need mention; besides those who patronise them will find their yearly doctor's bill much diminished thereby.

As the Hydromagen is becoming more known, its sale is increasing to an almost incredible extent. Last year in London, Manchester, Birmingham, Liverpool, Glasgow, Leeds, Dublin, Paris, Antwerp, Hamburg, and Berlin, our sales reached the almost incredible number of 1,732,450 pairs of cork soles. This year the number will far surpass that.

Ask the Faculty their opinion of their value as a preventive for COUGHS, COLDS, BRONCHITIS, ASTHMA, and CONSUMPTION.

Men's size, per pair, 2s 3d. Ladies' do. do, 2s. Boys' and Misses' do. 1s 6d.

NOTICE.—From the Retail Prices we make a very liberal allowance to Jobbers and Wholesalers, so that any storekeeper can make a fine profit on their sale, while they are an article, that may be kept in any store, among any class of goods.

For terms, apply to HARCOURT, BRADLEY, & Co. 28 Ann Street, New York.
