and prices have been rather easier at from \$10 to \$— for out-straw in sheaves; at \$11 and \$12 for rye-straw, and at \$7 to \$7.50 for loose.

each.

LAMBS—The supply has been decidedly insufficient; all offering have found a ready sale at firm prices, as would some more had they been in. First-class, consisting of picked dressing not less than 45 lbs., have been firm at \$3.75 to \$4, with more than those offering wanted. Second-class have been in rather better supply than first, but all wanted at \$3 to \$3.37. Third-class have been very slow of sale, and taken only when no others could be had at \$2 to \$2.50. There was a lot of \$0 head dressing 50 lbs sold at \$3.80. TRADE—Has generally been quiet since our last.

Hidde—Green have been in fair supply, but all wanted at former prices. Cured have gone off rapidly; all available being quickly taken at 7½ to 7½c, the latter price being for selected.

CALPSKINS—Have been quiet and unchanged for green, and cured steady, with a sale of one let at 12c.

SHEEPSKINS—Last week's advance has been maintained, but dealers have not been very anxious to pay 50c even for the best green, so that they go off slowly.

Sugar—The market has been very quiet all week, with scarcely any change in prices. Raws seem to have been inactive, and prices remain as before at quotations. Scotch has sold to a small extent at 7½ to 7½ to rdark, and 8½ for bright is lots; brights are scarce and wanted. New York yellows have been fairly active; dark has sold as low as 6½°, and medium to bright at 7½ to 8½ c. Extra C. has been quiet and unchanged. Granulated has been easier, with sales of large lots at \$9.37 and \$9.40°; small lots are going at \$0.62°, but bottom seems to have been new touched. Quotations are as follows, the outside figures being for retailers lots:—Porto Rico, per lb., 7½ to 7½°; Cuba, 7½ to 7½°; Earbadoes, 7½ to 7½°; English and Scotch refined bright, 8½ to 8½°; do., low grades, 7½ to 8°; New York yellows, 7½ to 7½°; English and Scotch refined bright, 8½ to 8½°; Cry Crushed, 10½ to 10½c; Granulated, 9½ to 8½°; Cut Load, 10½ to 10½c.

SYRUFS—A fair enquiry has been maintained, and prices have continued to show an upward tendeacy. Round lots have sold at 42c for common, and 48c for amber. Quotations are as follows:—Common, 48 to 45c; Amber, 48 to 58c; Amber choice, 57 to 60c.

BETTER SATISFACTION.

Gentlemen—Haying sold Sarpend's Radiculates for over a year, I can state it gives bett attafaction than any similar preparation I ever sol. Mt. Pleasant, Ia., March 1, 1878.

COMPLETE SATISFACTION

Gentlemen—We have been selling Sanyonn's Rabical Cure for the last year. On the start our sales were small? the people were incredulous, it being to most of them a new preparations and they could buy so many cheaper remedies for 25 cents and 50 cents. Now the price is no object. We sell more of the Rabical Cure than all other Catarrh Remedies put together, and I have yet to hear of a case that it has not given the most complete satisfaction.

ORIVEN BY HORSE OR STEAM POWER.

OVER 3,000 IN USE IN CANADA.

We are now prepared to deliver on receipt of satisfactory orders our CELE-BRATED HALL CHAMPION THRESHING MACHINE, to be driven by Horse or Steam Power. These machines have been without a rival for the past FIFTY YEARS, nearly all the other threshing machines are imitations of the Hall Machines, and have failed to give entire satisfaction. The Hall Machine has been the

STANDARD THRESHING MACHINE

HALL in 1828. The Hall Champion Threshing Machine has been gradually and carefully improved each year as experience proved wise and desirable. No changes have been hastily made and called improvements. The greatest possible care has been exercised in the working parts of the machine so as to save the necessity of repair and prevent annoying delays which are caused by breakages. Nothing but the very best material has been used throughout the machine, and the workmanship is unsurpassed. Our machines are supplied with our

PATENT DIAMOND POINTED CYLINDER TEETH

worth three times as much as the ordinary teeth. We can supply PITTS, PLANET, PELTON, OR HALL HORSE POWERS.

We are building a special machine for STEAM THRESHING—with % inch cylinder and 42 inch grain belt, and we also supply a Steam Engine which we guarantee to drive our Thresher in a first-class manner as rapidly as it can possibly be fed. Our engine is made from the most improved model used throughout the United States, and gives universal satisfaction. It is simple in construction, easily and perfectly governed, and not liable to accidents or to get out of order, and all danger from sparks entirely removed.
