### DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by Catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

## SIR WILFRED FOR MARITIME PROVINCES

Will Be Down East From Aug. 28th to Sept. 4th.

Ottawa, Aug. 3.—Sir Wilfrid Laurier will open his platform campaign on Tuesday August 15 in one of the Ontario ridings.

From August 28 to September 2 he will be in the maritime provinces for a series of six or seven meetings speaking in Halifax, where a strong effort will be made to defeat Mr. Borden and his running mate, Mr. Crosby, and at St. John (N. B.), where Dr. Daniel, one of the two supporters of the opposition leader who weathered the Liberal sweep of that province in 1908, is likely this time to lose his seat. Sir Wilfrid will be in St. John Aug. 28th and in Moncton on Sept. 2nd.

### METHODIST NEWS

At the meeting of the Methodist Quarterly Board last Friday night, the resignation of Mr. H. Williston as treasurer was accepted, and he was given a hearty vote of thanks for his long and efficient service. The office of treasurer was accepted by Mr. H. D. Atkinson, on whom it devolved by virtue of his office of recording steward. Rev. W. J. Dean was granted vacation for the month of Sept.

### MR. JOHN VYE

Mr. John Vye, a well known citizen of Beaubair's Point, Derby, died suddenly at midnight, on the 2nd inst., deceased had complained only two days and even then appeared in good health. He had always been a total abstainer from alcohol and tobacco and maintained his health and strength till the end. He was an honored member of St. James' Presbyterian church, Nelson. Mr. Vye was born April 12th, 1839 and on Aug. 29, 1872, married Miss Jane Loggie of Loggieville four of whose children survive: Alvin, Clifford and Leslie and Mrs. Montgomery McLeod, all of Nelson. By his second wife, Miss Nancy Ferguson of Cassilis, who survives him he leaves two sons, Henderson and Lyman at home. The surviving brothers and sisters are Henry and Joseph Vye, Derby; Mrs. Andrew Bryce, Chatham Head; Mrs. James Gulliver, Douglastown; and Mrs. Jas. Jellison of Boston.

The funeral services at the house were conducted Friday afternoon, by Rev. F. C. Simpson, internment at St. James cemetery. Nelson. The pall bearers were: Geo. Flett, Alfred Bateman, Thomas Vye, Allan McKenzie, Allan Flett, and Daniel Baldwin. Deceased's favorite hymns, Jesus Lead Me all the Way, and Jesus Lover of My Soul, were sung.

Much sympathy is felt for the suddenly bereaved wife and child. "On the Resurrection Morn'g, Soul and Body meet again: No more sorrow, no more weeping, No more pain, Here awhile they must be parted, And the flesh its Sabbath keep, Waiting in a holy stillness, Wrapped in Sleep.

## SUMMER MONTHS FATAL TO SMALL CHILDREN

The summer months are the deadliest of the year on small children. Cholera infantum, diarrhoea, dysentery and stomach troubles are all common at this time and many a precious life is snuffed out after only a few hours illness. As a safeguard mothers should keep Baby's Own Tablets in the house. An occasional dose of the Tablets will prevent stomach and bowel troubles, or if the trouble comes on suddenly will bring the little one through safely. Mrs. Larry DeGiac, Mizonette, N. B., writes: "Last summer my baby suffered greatly from her stomach and bowels and nothing helped her till I began giving her Baby's Own Tablets. They regulated her bowels, sweetened her stomach, and now she is a big, healthy, happy child. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Co., Brockville, Ont.

## GEO. C. HUNT DEAD

### THE VANISHING FORESTS

The resources of the United States Showing Signs of Exhaustion.

Commissioners and committees have been appointed in various parts of the United States to make reports on what should and could be done to prevent the destruction and prepare for the preservation of timber supplies, but wherever actually a resort to the recommendations was secured the means employed were too feeble to prevent the former and too inefficient to secure adequate results in the latter direction. For instance, the latest State to move in the matter of taking care of its important timber interest, Alabama (whose annual lumber output is valued at \$5,000,000) appropriates \$75,000 for carrying out the provisions of the act providing a commission with various duties. The great State of Minnesota whose forest products in one year approach in value \$45,000,000, devotes less than \$12,000 to its forest interests, and \$20,000 on prairie planting. The State of Maine, which still cuts around one billion feet, and is indebted to the forest for a product of \$18,000,000 in value, keeps within the modest sum of \$25,000 to pay for the protection against fire and the support of a commissioner. Examples of such meagreness and inadequate measures are found in many other States.

Only two States which have not hesitated to spend money for forestry purposes are New York and Pennsylvania. The former, in purchasing forest lands for a preserve, which now comprises about one and a half million acres only, has expended millions of dollars, and is annually appropriating money for further purchase, besides liberal provision for its Forest, Fish and Game Commission. But alas! the policy of forest reservation, which had begun on economic grounds, has degenerated into providing a pleasure ground—a park—for the wealthy, and there is little consideration to economic forest questions given by the State or the Commission.

### NEED OF THE HOUR.

Major George Washington Stephens Talks on Canadian Transportation.

Not long ago Major Stephens, the President of the Harbor Commissioners of Montreal, delivered a masterly address before the Empire Club of Canada on the development of the St. Lawrence route. "In the possession of this great national asset, the St. Lawrence waterway," said Mr. Stephens, "into which has gone the genius, the energy and the industry of the Canadian people, Canada unquestionably has within her midst the cheapest and most efficient national trade route on the Continent."

"The St. Lawrence River to-day carries to and from the port of Montreal one-third of the country's national trade.

"In this enterprise there are just 6,000,000 Canadian shareholders, all equally interested.

"At her present rate of increase Canada will, during the twentieth century, contribute to the Empire a population exceeding that now occupying the British Isles, and will produce from one-quarter of her available areas in the West more wheat than now comprises the total wheat crop of the United States.

"There are two methods of providing for the handling of this new business, not to mention the concurrent industrial production of the country: First, by increasing transportation and terminal facilities on Canadian soil; second, by allowing business to be taken care of by transportation routes and sea terminals not within the limits of this Dominion.

"I like to regard this system extending from Port William to the sea, a distance of 2,500 miles, as a great national undertaking, into which, by the money, the genius and the patriotism of the Canadian people, and out of which are coming year by year privileges and powers to the transportation interests of Canada of diversity.

### GIRLS AS FARMERS

There are many women wage-earners to-day who enter the already overcrowded field of unskilled labor because they have neither the incentive nor the opportunity to learn some healthful remunerative occupation, says Mrs. Oliver H. P. Belmont, in Physical Culture for August. While young girls have been passing the best years of their lives in sweatshops, overcrowded work-rooms, and unsanitary tenements, and have been paid less than a living wage for their work, our rich soil has been spasmodically tilled by nomadic tramps staying at one farm just long enough to work their way to the next, to spend the money that they have earned.

I want some of these pallid, cheeked, hard-worked girls in the factories and shops to give up their city work and try farming. I hope to show them that farming may be made more profitable than factory work, that it is much pleasanter to do, and that they themselves will grow strong, robust and rosy after a few weeks of garden work. They will be better citizens, better mothers and better help-mates if they exchange their tiring city toil for outdoor work which will be pleasant as supporting.

There is no reason why women should not make clever and astute farmers, providing they know their subject thoroughly and are interested in it.

### UNION SERVICES

The Methodist and Presbyterian congregations will unite next Sabbath in Methodist church in the morning and in St. James in the evening.

### The Catalogue of Acadia Seminary

whose advertisement appears elsewhere in our columns, has come to our table. An examination of the booklet, which is well printed and illustrated, shows that the work of this well known school is organized in three departments. The Academic Department includes the Collegiate Course, the Sophomore and Freshmen Matriculation courses. The Fine Arts Department includes courses in Music—Piano, Voice, Violin, and the usual theoretical branches—Art, in Oils, Water Color and China Painting, and the new works in Arts and Crafts, and Oratory. The Department of Practical Arts provides courses in Household Science, Business, Stenography and Typewriting. All of these courses are characterized by modernness, breadth and thoroughness, and aim not merely to prepare the pupil for the profession open to women but for COMPLETE LIVING.

To do this work a staff of twenty teachers, of fine personality, qualified by training, temperament and experience, is employed. Admirable provision is made for the development of the physical life of the girls by the presence on the staff of a resident Trained Nurse and a competent Physical Director. Simplicity in living and dress, high ideals in conduct and thoroughness of work are insisted upon. That the school is a popular one is evidenced by the fact that during the last seven years the registered attendance has been doubled.

Full particulars concerning the work of Acadia Seminary may be obtained from the Principal, E. T.
