Eucharistic Congress.
 (From Our Own Correspondent.)
MONTREAL, To-Day.
 Three thousand people attended a reception given by the Hon. Charles Murphy, Secretary of State, to the Cardinal Legate at the Windsor Hotel last night. At the dinner given by the Provincial Government to the Cardinal yesterday at the Windsor Hotel, the Papal Legate created a great sensation by proposing the health of the King before that of the Pope. He visited Montreal jail yesterday, addressed the prisoners and celebrated Mass there. There was Midnight Mass at St. James' Cathedral last night. Elaborate preparations are being made for the big procession on Sunday. The 65th Regiment will turn out. Father Vaughan will deliver an address at Stanley Hall this afternoon.
 P. K. DEVINE.

The School Year, 1910-1911.

All Classics as recommended by the Council of Higher Education—Primary, Preliminary, Intermediate and Associate Grades.

School Gardens.
SKILLED DIRECTION.
 One of the points most emphasized by Dr. Robertson was the need of expert direction in the school garden movement, especially in its pioneer days, to put it on right lines and to prevent it proving a fiasco.
 If such a movement is to prove anything more than pulling weeds, it is necessary to have teachers who can bring out its full educational value in the upbringing of our children, otherwise it will be worse than the cribbing and confining of our youngsters all day long within the four walls of a school room and keeping them poring over the printed pages of a book.
 In other words we shall be making no improvement in our present fantastic educational method of putting part of the child to school, and turning out weak memorized walking encyclopaedias and imperfect human writing machines. If we are to develop the whole of the faculties of the child by engaging the intense and wonderful activities which are innate with him, we must have those in charge of education who know how to do it.
 We have many bright and active teachers of both sexes who need only professional training to make a success of this movement.
 Why should not a few of these be chosen and with the assistance and co-operation of Dr. Robertson sent to MacDonald College and given a thorough training in manual training, domestic science, physical culture, nature study and social economics.
 On the return of these they might be engaged, male and female, on the staff of local training schools for teachers, and these local institutions thoroughly equipped for carrying on the local training of teachers.
 The common man on the street has the feeling that all is not well with our schools, not that they are worse or better than schools abroad, but that school education is not doing what it was thought it should do when popular education was advocated a generation ago. And the man on the street is not far astray. A school is not a piece for turning out children to wear a collar and white shirt, but to make good in the world when he grows up, and our school training is sadly lacking in turning out really good, sound stuff. It is not the fault of the child, it is the fault of the system. We should not aim at turning out the perfect clerk or the complete tradesman, but we should succeed in turning out men and women who are good in the world when they grow up.

ing out boys and girls with healthy bodies, active minds, keen in observation, sound in judgment, honest in character, who can take their part in the world's work and make good when they attempt their life's work.

In the Interests of Public Health.
 Editor Evening Telegram:
 Dear Sir,—In reading your paper of this evening I noticed that the members of the Municipal Council paid a visit of inspection to Winsor Lake during the forenoon. This is as it should be, considering that a large expenditure of public monies is about to be made re closing up the old road and removing all the homesteads along the margin of Winsor Lake, and the opening up of a new road north of the present one with a view of protecting the waters from pollution.
 While many persons differ on this gigantic and costly undertaking, and consider it useless (especially your esteemed correspondent "Reform"), I also beg to subscribe my name and influence to strongly oppose such a measure under the existing circumstances.
 Still I am pleased that Mayor Ellis and the Aldermen are giving their attention to this matter before commencing work on there, for it shows that they are interested in their work as city representatives, and therefore hold the confidence of our citizens, even those of us who are opposed to the contemplated enormous expenditure. Therefore I would respectfully ask His Honor the Mayor and Councilors, who seem to be interested in the health of our citizens, to pay a visit to Long Pond and vicinity, and while there closely examine the many household sewers, besides the drainings coming directly from the slaughter house that flows into this pond and then find their way down Rennie's River.
 When they find out as to what purpose the said waters of Long Pond and Rennie's River are being used for by thousands of families in the city, they will, I am sure, remedy this existing danger before they think about taking up the matter of Winsor Lake, which is veritably an ocean of pure and unadulterated water.
 Yours truly,
 Sept. 7, 1910. BE CAREFUL.

Still "Struck" on Her.
 Despite the fact that the woman was under the protection of her husband and in his company, the man St. Clair, who eloped with Mrs. Hewitt, as reported in the Telegram, saw her before she left here Tuesday and had two interviews with her. He boldly asserts that he will not give the woman up and will follow her to Halifax. Her husband is justly incensed against him. Should he proceed to Halifax and continue his attentions to her, we will hear of "something doing" there in the near future.

Court on Circuit.
 Sheriff Carroll, Clerk Butler and Crier Allsop left by the Prospero yesterday to go on the Supreme Court Northern Circuit. His Lordship the Chief Justice will go by this evening's express, and Messrs. J. A. W. McNeilly, J. Fenelon, A. Herder and W. J. Higgins go forward as counsel.

QUALITY is our SLOGAN
 but **Our Prices are Reasonable**

THESE GOODS, ALL EDENS' QUALITY, speak for themselves.

Body Discovered at Pouch Cove.
 At 5 p.m. yesterday while Charles Gould, Edward Sullivan and Thomas Sullivan were fishing for squid on the ground about a gun shot from Bragg's Rock, just off Pouch Cove, they saw floating in the water the dead body of a man, and rowing towards it saw that it was perfectly nude. The men tied a rope around the body, and accompanied by a fleet of 100 boats, the occupants of which were also jigging squid, towed the corpse to Reginald Sullivan's stage where they placed canvas around it and took it up on the stage head, after which it was taken to the S. U. F. Hall. The feet were gone from the ankles, and the hands were also eaten off by the sea insects, and the flesh was gone from the face and the hair from the head. The remains were badly decomposed, and it was a gruesome sight to witness, as hair was left on the head, and the body was very much swollen. The man if in his natural state would be about 5 feet 10 inches in height, and must have been stout as he measured 18 inches across the shoulders. There was no hair on the skull and the limbs were sparsely covered with a growth of hair of a brownish hue. Some of the people imagined it was the fisherman lost from a Luenberg banker, at Torbay, on the night of the Regatta, while others think it is Henry Sullivan who was swept off his stage by a sea in November last, but both these men had their clothes on when they vanished. The generally accepted theory is that it is Michael Molloy, who is missing from Torbay the past 6 weeks. He was demented and it would be the act of a maniac to doff his clothing and jump overboard. Supt. Grimes left by carriage at 10 a.m. to-day to investigate the case.

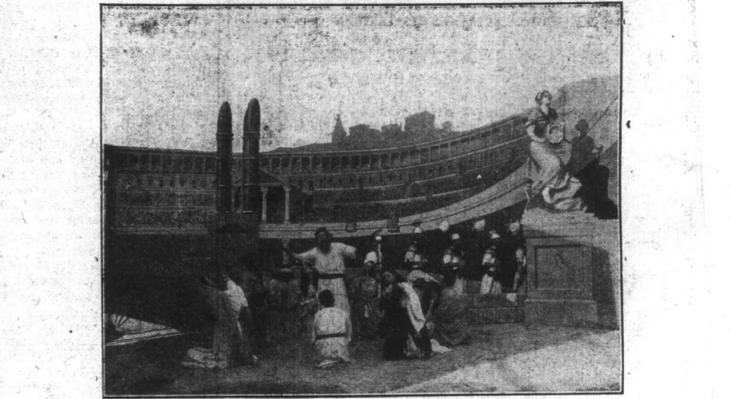

From Battle Harbor.
 The S. S. Mairanger, Capt. Trusdad, arrived here to Baine Johnstone & Co. this morning, after a run of 26 hours from Battle Harbor, with 8,000 qts. of fish on board. She has no later report of the fishery on the Labrador since the Invermore came up the coast, but reports that there is a fair sign of fish at Battle Harbor, boats getting a couple of qts. of cod daily. She will take the balance of her fish cargo here and sails for Europe to-morrow evening.

Personal Notes.
 The Masters Reid, sons of Messrs. W. D. and R. G. Reid, who were spending their holidays here with their parents, go back to England by the Mongolian to-day to resume their studies.
 Mr. W. W. French, grocer, of Harbor Grace, arrived here by the excursion train yesterday, and was welcomed cordially by his many friends in the city.
 Mr. W. A. McKay, foreman in the Harbor Grace Standard Office, also came over here on a holiday, and his brother types of the city and many other friends were glad to see him.

Train Notes.
 By the shore train at 6 p.m. yesterday about 40 passengers went out. The local arrived at 10.25 last night bringing Mr. Gosse, Mrs. Wilson and child, Mrs. Nugent, Mr. Coyall, B. Hopkin, Mr. Jerrett, F. Stimms, M. W. and Mrs. Purlong, W. Halley, T. Halley, Miss Halley, J. Clancy and 40 others.

Operating at Trinity.
 The whalers Puma and Lynx which had been working at Rose au Rue, P. E., are now operating at Trinity, and killing fish between that place and Conception Bay where whales are reported plentiful. It is expected that both vessels will do well.

ILL OF TYPHOID.—We regret to hear that Mr. Alexander Baird, son of Mr. J. C. Baird, is dangerously ill of typhoid at Birchey Cove. He holds a position in the Bank of Montreal there.

One of the 200 Beautiful Life-Model Pictures to be Shown at Herbert Booth's Great Lecture at Gower Street Methodist Church Next Monday Evening.

Readers of the following description of Herbert Booth's lecture will wish to conclude his mission next Monday evening, will know that there is a treat in store for the citizens of St. John's. There has certainly never been anything like it here before. It has been delivered over one thousand times in the largest auditoriums in the world, but most probably this is the one occasion when it will be seen or heard in Newfoundland. Asked how he secured his remarkable pictures, Mr. Booth said:—"The idea occurred to me in Australia. I wanted to bring before the Churches of to-day a vivid portrayal of the devotion of the early Christians—to bring the Saints from their graves and let them live and move and testify again for their Master. To portray their heroic struggle in the streets of Jerusalem, in the squares of Rome, in their primitive sanctuaries, in their hiding-places among the mountains, exhorting each other and burying their dead in the catacombs, their fidelity before kings, their struggles in the Coliseum—I wanted to make it all real and stirring by the aid of life model and moving pictures. How did such a good theory work out?
 "Having collected my facts, I organized a company of living models—Christian men, women and children. These I correctly costumed and trained to act their several parts—there were about 600 in all. Then I had scenery painted, an open-air stage erected, and on this stage I posed my models so as to follow my story with a picture for about every forty words spoken. The cameras did the rest.

When the story was thus illustrated by still pictures I got my models to act it before the cinematograph and secured my films. I am the only man in the world whose moving pictures are a fac-simile of his still pictures. This gives me what I believe is the most powerful combination in lantern work. The still pictures secure me the attention of my audience, enabling me to enforce the truth, while the motion picture repeats and re-presses it to the accompaniment of hymns sweetly sung. The effect is wonderful, as you may judge when I say that I have had as many as 8,000 people in America listening with the keenest attention to the sacred subject till after eleven o'clock at night."
 Tickets may be had at Dicks Bookstore.

Walked to Death in His Sleep.
 CALAIS, Me., August 28.—Leaving his bunk and walking overboard in his sleep, William Dudley, 28, a seaman on the schr. Jessie Hart, was drowned some time last night. His clothing and personal effects were found in the forecastle where he left them on retiring, this morning the boat was at anchor six miles below the city. Dudley is survived by a wife and three children.

Nutritive Hypophosphites
 When a person feels "blue"—"all tired out"—"doesn't feel like doing anything"—cannot concentrate his mind on his work—feels weak mentally and physically—doubts his powers—complains of poor appetite and sleeplessness—suffers from headaches—then his nervous system is run-down and demands a good up-building tonic. Nervous exhaustion is a modern disease, caused by too close attention to business, overwork, worry, devotion to trying family cares overstudy, etc.
 Nutritive Hypophosphites forms the best nerve and brain food known, and have restored thousands of sufferers to health. Large bottle, \$1.00.
 The more you trade here the better you like this store.

Outing at Donovan's.
 The teachers of St. Mary's Sunday School held their annual outing at Donovan's yesterday. The party, consisting of 24 people, left town at 2.30 p.m., by Lester's buckboards. Various games were indulged in during the afternoon. A short concert was held after tea; the following ladies and gentlemen contributing to the programme:—
 Rev. H. Uphill Song.
 Miss Pearce Violin Solo.
 Misses M. and E. Bendell Duet.
 Messrs. G. Crawford and E. Ebsary Vocal Duet.
 Mr. H. C. Ford Song.
 Mr. F. Pearce Song.
 The songs were of a high order, and "encores" were called for, the whole company joining in the chorus. The violin playing of Miss Pearce delighted everyone present. Miss I. LeMessurier played the accompaniments to the satisfaction of all. After the concert a dance was held, which terminated the most enjoyable outing yet held by the teachers of St. Mary's. Messrs. G. Reid and J. Saunders were the guests of the evening, and the Rector made a short speech thanking these two "warriors" for their kind

MENTHOL PLASTER
 FOR BACKACHE, SCIATICA, PLEURISY, STITCHES, CRICKS, NEURALGIA, RHEUMATISM
 Each 25c. in air-tight tin box; yard rolls \$1.00, can be cut to any size.
 Beware of worthless imitations.
 DAVIS & LAWRENCE CO., Montreal.

Mongolian Meets Gale.
 Messrs. Shea & Co. had a Marconi from the Mongolian this morning saying she was then, at 9.30, 240 miles west of St. John's, and is due here at midnight. She experienced a heavy gale of wind last night and early this morning.
 assistance that he had charged the committee who had charge of the arrangements for the very excellent manner in which the outing was carried out. Return to town was made at 11 p.m.

Here and There.
 Dr. Lehr will be absent from St. John's until November 15th.—sep7.21
CUT FLOWERS AND LETTUCE in bunches to suit, may be had at the Phoenix Store, Military Road, or 25 Forest Road. A. H. MARTIN, Agent. sep8.21
 Send your mail orders to LAR-ACY's, opposite the Post Office. You are sure to get satisfaction; they supply everything in Dry Goods, Crockery and Glassware; their Goods and prices are always right.—aug10.ft.

WOULD KILL SOMEONE.—The man Petergrist before being taken to the Asylum the other day took an axe out of Jno. Diamond's stable and might have killed some one but that the police were so quickly on the scene.
DIED.
 On Wednesday afternoon, Alexander Christian, aged 57 years. Funeral to-morrow, Friday, at 2.30 p.m., sharp, from the residence of Mr. J. S. Currie, 82 Freshwater Road.
 At Amarillo, Texas, on August 21st, Frederick S. Hutchins, late of Greenspond, aged 30 years.

Police and Firemen Pass First Aid.
 Yesterday the result of the examination of the police and firemen of the city on "First Aid to the Injured" was made known. The examining physicians were Drs. Duncan and Macpherson, and out of 59 men who took the course 35 passed, or a little over 60 per cent. of the whole and these included all the non-commissioned officers. Captain Trebble was first in the exams, and Consts. Walters and O'Neil, who were equal, second. It is a reassuring thing to see our police and firemen so proficient in this serviceable study and time will demonstrate that many valuable lives will be saved as the result of such proficiency.
